NOTICE OF NO AUDITOR REVIEW OF INTERIM FINANCIAL STATEMENTS

Under National Instrument 51-102, continuous disclosure obligations, if an auditor has not performed a review of the interim financial statements, they must be accompanied by a notice indicating that the financial statements have not been reviewed by an auditor. The Corporation's independent auditor has not performed a review of these financial statements in accordance with standards established for a review of interim financial statements by an entity's auditor.

The accompanying unaudited condensed interim financial statements of the Corporation have been prepared by and are the responsibility of the ICEsoft Management team.

NATURE OF OPERATIONS

ICEsoft Technologies Canada Corp. (the "Corporation" or "ICEsoft"), was incorporated on May 10, 2002 under the Canada *Business Corporations Act*. ICEsoft and its subsidiaries develop and license a comprehensive suite of web technologies and Software as a Service (SaaS) solutions for both enterprise and government clients. The Corporation's primary products consist of the Clickware products including ICEfaces and ICEpdf, and the SaaS-based Voyent Alert! Notification Service licensed to government and enterprise clients on a subscription basis.

ICEsoft's head office is located at 340, 600 Crowfoot Cres. NW, T3G 0B4.

These condensed consolidated interim financial statements of the Corporation as at March 31, 2026 and December 31, 2025 and for the periods ended March 31, 2026 and March 31, 2025 ("Financial Statements") consist of the Corporation and its wholly-owned subsidiaries. ICEsoft wholly owns ICEsoft Technologies Holdings Ltd, which acts as the Corporation's main Canadian operating entity; and wholly owns ICEsoft Technologies Inc., incorporated in the State of Delaware, which acts as the United States operating entity.

1. GOING CONCERN

These Financial Statements have been prepared on the basis that the Corporation will continue as a going concern, which assumes that the Corporation will be able to realize its assets and discharge its liabilities for the foreseeable future. Management is aware, in making its going concern assessment, of events and conditions that indicate the existence of a material uncertainty that may cast significant doubt upon the Corporation's ability to continue as a going concern.

As at March 31, 2026, the Corporation had negative net working capital of $1,604,408 (December 31, 2025 - $1,771,187) and an accumulated deficit of $34,703,862 (December 31, 2025 - $34,671,358). The Corporation incurred a net loss during the three months ended March 31, 2026 of $32,516 (three months ended March 31, 2025 – $42,884).

The Corporation was able to generate positive cash flows from operations of $150,090 across the quarter. Whether the Corporation can continue to generate positive cash flows on an ongoing basis in order to pay for its expenditures and settle its obligations as they fall due subsequent to March 31, 2026 is uncertain. Until this time, management may have to raise funds by way of debt or equity issuances. The Corporation will closely monitor its cash and will take the necessary measures to preserve cash, such as reducing spending as needed until the Corporation succeeds in gathering sufficient sales volumes to consistently achieve profitable operations and generate positive cash flows from operations.

These Financial Statements do not reflect the adjustments to the carrying values of assets and liabilities and the reported expenses and statement of financial position classifications that would be necessary were the going concern assumption inappropriate. These adjustments could be material.

2. BASIS OF PRESENTATION

(a) Statement of compliance

These Financial Statements have been prepared in accordance with IAS 34 Interim Financial Reporting and International Financial Reporting Standards ("IFRS") as issued by the International Accounting Standards Board ("IASB"), and interpretations of the IFRS Interpretations Committee (IFRIC's).

The Financial Statements were approved and authorized for issue by the Board of Directors on May 30, 2026.

(b) Basis of preparation

These Financial Statements have been prepared under the historical cost convention, except for certain financial instruments classified as financial instruments at fair value through profit and loss, which are stated at their fair value, and are expressed in in Canadian dollars unless otherwise indicated. Other measurement bases used are detailed in the Corporation's annual consolidated financial statements ("Annual Financial Statements").

Certain comparative figures have been reclassified to conform to the current period's presentation.

The notes presented in these Financial Statements include only significant events and transactions occurring since the Corporation's last fiscal year end and are not fully inclusive of all matters required to be disclosed by IFRS in the Corporation's annual consolidated financial statements. As a result, these Financial Statements should be read in conjunction with the Annual Financial Statements.

These Financial Statements follow the same accounting policies and methods of application as the most recent Annual Financial Statements.

3. REVENUE

The Corporation disaggregates revenue by two major service lines: (1) "Clickware" and (2) "Voyent Alert" revenue. Both categories include subscription revenue earned on software access licence agreements and support and maintenance revenue earned from providing customer-requested assistance and updates within the reporting period.

	Three months ended March 31,	
	2026	**2025**
	$	**$**
Revenue by major category		
Clickware		
Subscription income	186,601	218,214
Voyent Alert		
Subscription income	322,122	288,363
Customizations Usage Fees	5,477	6,202
Total	**514,200**	**512,799**

4. DEFERRED REVENUE

Timing differences between invoicing, cash collection, and revenue recognition result in accounts receivable and also result in deferred revenue on the consolidated statements of financial position. Amounts are billed in accordance with the terms of each customer contract. For most contracts, the Corporation receives payments for contract subscriptions prior to satisfying contracted obligations and recognizing revenue, resulting in deferred revenue.

All deferred revenue recorded in 2026 and 2025 relates to certain subscription agreements.

Changes in deferred revenue during the periods consist of:

	March 31, 2026 $	December 31, 2025 $
Deferred revenue		
Opening balance	**1,084,684**	1,170,540
Sales collected	768,563	1,953,815

Less: current portion	(1,114,930)	(1,046,352)
Long-term portion	**183,878**	**38,332**

As at March 31, 2026, revenues allocated to remaining performance obligations from subscription contracts, extending through to 2028, total $1,298,808. Of this amount, approximately $1,114,930 is expected to be recognized in the remainder of 2026, $183,498 is expected to be recognized in 2027 and $380 is expected to be recognized in 2028.

5. CONVERTIBLE NOTES

The balance of convertible notes as of March 31, 2026 and December 31, 2025 is reconciled as follows:

	March 31, 2026 $	December 31, 2025 $
Opening Balance	**1,543,630**	**1,358,591**
Carrying value of notes derecognized (v)	-	(1,271,994)

(i) The convertible note with a face value of $100,000 was extended for one year on each of December 31, 2020, November 15, 2021, and December 12, 2022. As part of the first loan extension in 2020, the note holder was entitled to 300,000 warrants which could be converted to common shares. There was no change to the expiry date of the warrants due to the extensions. The 300,000 warrants were set to expire on December 1, 2024. During the year ended December 31, 2022, a second tranche of 300,000 warrants were granted to the lender as compensation for the loan extension. These warrants had an expiry date of December 12, 2025 and were exercisable at $0.06 per common share. The warrants were fair valued at $Nil.

On December 12, 2023, the Corporation extended the maturity of the convertible note by two years to December 12, 2025 and increased the interest rate to 15% per annum. During the year ended December 31, 2023, 200,000 warrants were granted to the lender as compensation for the loan extension. The warrants have an expiry date of December 11, 2027 and are exercisable at $0.06 per common share.

The note was convertible to common shares at a conversion price of $0.15 per share. The convertible note was secured by all assets, including the intellectual property, of the Corporation.

The note was repaid in full on August 31, 2024, no shares were issued on settlement.

(ii) On September 21, 2022, the Corporation completed a secured convertible note financing transaction raising gross cash proceeds of $650,175 from various related parties. The notes are secured against all assets of the Corporation. The issued secured convertible promissory notes bear simple interest at a rate of 15% per annum for a term of 36 months from the date of issuance. The notes bear a conversion feature allowing the note holder to convert all or part of the principal balance and accrued interest into common shares of the Corporation at a conversion price of $0.05 per share. The debt component of the convertible notes were fair valued using a discount rate of 18%. The resulting calculations allocated $51,289 as the residual value of the equity conversion feature. These notes were amended during the year ended December 31, 2025, see (v) below.

(iii) On February 27, 2023, the Corporation completed a secured convertible note financing transaction raising gross cash proceeds of $100,000 and converted $150,000 of debt and deferred compensation from various related parties into convertible notes. The issued secured convertible promissory notes bear simple interest at a rate of 15% per annum for a term of 36 months from the date of issuance. The notes are secured against all assets of the Corporation, pari-passu with the other pre-existing secured convertible notes. The notes bear a conversion feature allowing the note holder to convert all or part of the principal balance and accrued interest into common shares of the Corporation at a conversion price of $0.05 per share. The debt component of the convertible notes were fair valued using a discount rate of 18%. The resulting calculations allocated $19,665 as the residual value of the equity conversion feature. These notes were amended during the year ended December 31, 2025, see (v) below.

(iv) On August 31, 2024, the Corporation completed a secured convertible note financing transaction raising gross cash proceeds of $100,000 and converted $120,000 of accounts payable and accrued compensation due to the CEO into convertible notes. The issued secured convertible promissory notes bear simple interest at a rate of 15% per annum for a term of 36 months from the date of issuance. The notes are secured against all assets of the Corporation, pari-passu with the other pre-existing secured convertible notes. The notes bear a conversion feature allowing the note holder to convert all or part of the principal balance and accrued interest into common shares of the Corporation at a conversion price of $0.05 per share. The debt component of the convertible notes were fair valued using a discount rate of 18%. The resulting calculations allocated $14,285, as the residual value of the equity conversion feature.

(v) On September 15, 2025, the Corporation amended the terms of the convertible notes with an aggregate principal amount of $900,175 issued on September 21, 2022 (see (ii) above) and February 27, 2023 (see (iii) above). The amended terms included the following:

a) The original maturity dates of September 20, 2025 and February 26, 2026 were revised to March 22, 2027.

b) The interest rate was revised from simple interest at 15% per annum to simple interest at 15% per annum for the first three years of the notes' term and 21.75% per annum for the balance of the term.
c) The voluntary conversion price was revised from $0.05 per common share to $0.06 per common share.

As a result of the amendments, full conversion of the note principal and all accrued interest through the end of the revised term would result in the issuance of 26,258,623 common shares, compared to 26,105,075 common shares prior to the revision.

Management assessed the amendments in accordance with IFRS 9 and determined that the changes to the contractual cash flows were substantial. Accordingly, the original financial liabilities were derecognized and new financial liabilities were recognized at fair value on the modification date, resulting in a gain on derecognition of convertible notes of $42,566, which was recognized in profit or loss.

6. SHARE CAPITAL

The Corporation is authorized to issue an unlimited number of preferred shares without nominal or par value and an unlimited number of common shares without nominal or par value. There are no preferred shares outstanding as at March 31, 2026 or December 31, 2025.

Total shares outstanding as at March 31, 2026 is 112,116,025 (2025 – 112,116,025). No new shares were issued during the years ended December 31, 2025 or the quarter ended March 31, 2026.

The weighted average number of common shares outstanding used to calculate basic and diluted loss per share is 112,116,025 for the year ended December 31, 2025 and quarter ended March 31, 2026. The Corporation excluded all convertible notes, warrants, and options from the calculation of diluted loss per share for the year ended December 31, 2025 and quarter end March 31, 2026, as they would be anti-dilutive.

7. WARRANTS

Warrants are used to recognize the fair value of financial instruments which are granted to agents of the Corporation typically as a form of compensation related to capital raising activities. When warrants are subsequently exercised, the fair value of such warrants is credited to the share capital account. When warrants expire, their value is credited to reserves.

A summary of warrant transactions is as follows:

	March 31, 2026		**December 31, 2025**	
	Number of Warrants	**Weighted average exercise price**	**Number of Warrants**	**Weighted average exercise price**
Outstanding at beginning of year	1,000,000	0.05	2,327,917	0.08
Issued	-	-	-	-
Expired	(150,000)	(0.05)	(1,327,917)	(0.10)
Outstanding at end of period	**850,000**	**0.05**	**1,000,000**	**0.05**

No warrants were exercised during the three months ended March 31, 2026. The weighted average remaining life of all warrants outstanding at March 31, 2025 is 1.14 years (December 31, 2025 – 1.19 years).

The fair value of the warrants used in the input into the bifurcation of units and of other warrants issued was estimated on the date of the grant, as determined by using the Black-Scholes option-pricing model with the following weighted average assumptions:

	Three months ended March 31, 2026	Year ended December 31, 2025
Exercise Price	$0.05	$0.05
Share Price	$0.02	$0.02
Dividend Yield	-	-
Forfeiture %	-	-
Risk-free interest rate	4%	4%
Expected life of warrants	3 years	3 years
Expected volatility	195%	195%

8. RESERVES

Reserves are used to recognize the fair value of stock options granted and the fair market value of expired warrants. When options are subsequently exercised, the fair value of such options in reserves are credited to share capital. Should the options expire unexercised, their fair market value remains in the reserves account.

The Corporation has a stock option plan ("the Plan"). Under the Plan, the Board of Directors of the Corporation may from time to time, in its discretion, grant to directors, officers, employees and consultants of the Corporation non-transferable options to purchase common shares. The maximum number of common shares reserved for issuance under the Plan shall not exceed 15% of the then issued and outstanding common shares of the Corporation. The options will be exercisable for a period of up to ten years. The Board of Directors will determine the price per common share and the number of common shares which may be allocated to each director, officer, employee and consultant and all other terms and conditions of the option, subject to the rules of the TSX Venture Exchange and the Canadian Stock Exchange.

A summary of the Plan transactions for the three months ended March 31, 2026 and for the year ended December 31, 2025 are as follows:

	March 31, 2026		December 31, 2025	
	Number of Options	Weighted average exercise price	Number of Options	Weighted average exercise price
Outstanding at beginning of year	8,850,000	0.05	450,000	0.05
Expired	-	-	(50,000)	(0.05)
Granted	-	-	8,450,000	0.05
Outstanding at end of year/term	**8,850,000**	**0.05**	**8,850,000**	**0.05**
Exercisable at end of year/term	**8,850,000**	**0.05**	**8,850,000**	**0.05**

The weighted average remaining life of all options outstanding at March 31, 2026 is 2.73 years (December 31, 2025 – 2.98 years).

No options were exercised during the three months ended March 31, 2026 or the year ended December 31, 2025.

9. FINANCE EXPENSE

	2026	**2025**
	$	**$**
Interest on convertible notes	55,080	45,227
Other finance expense	8,743	4,309
	63,823	**49,536**

10. RELATED PARTY TRANSACTIONS AND PERSONNEL COSTS

The Corporation considers its key management personnel to be its Chief Executive Officer; Chief Financial Officer, directors, and close family members of the previously mentioned individuals. Key management compensation is comprised of wages and salaries, stock-based compensation and consulting fees paid to key management and companies controlled by key management. During the three months ended March 31, 2025, key management compensation amounted to $73,200 (three months ended March 31, 2025 - $67,208), split between general and administrative, marketing and operations, and research and development expenses based on work performed.

Key management personnel have accounts payable owing from the Corporation, including payroll and vacation accruals, in the amount of $583,047 at March 31, 2026 (December 31, 2025 - $551,022).

Total personnel expenses for employees, consultants, directors and management included in expenses in the consolidated statement of loss and comprehensive loss total $231,577 for the three months ended March 31, 2025 (three months ended March 31, 2025 - $257,606), split between general and administrative, marketing and operations, and research and development expenses, based on work performed.

11. FAIR VALUE OF FINANCIAL INSTRUMENTS

Due to the short-term nature of cash, accounts receivable, deposits, and accounts payable and accrued liabilities, the Corporation determined that the carrying amounts of these financial instruments approximate their fair value. The carrying amounts of the term loans and convertible notes approximate their fair value due to either the interest rate approximating market rates or because of the short period to maturity.
