2. Provide a general overview and discussion of the activities of management.

The Company is an investment and merchant banking firm focused on the small-cap market, with early-stage investments in areas such as technology, healthcare, e-sports, and the cannabis market.

Management, under the direction and guidance from the Company’s Chief Executive Officer, continues to review investment opportunities in the small cap environment, while adding and trimming positions when deemed appropriate.

Management is of the opinion that current market conditions are extremely favourable. With that said, valuations of some of the Company’s publicly-traded investments had rebounded, and this has also improved the prospects for our private company and debt investments, although our carrying values were not generally impacted, conditions for cannabis-related and small cap stocks have on

balance been positive. While we want to take advantage of this market, we are being cautious about new investments unless there is a clear path to near term liquidity.

The Issuer is not aware of any trends which are likely to materially impact the issuer's business or markets. The Company is reliant on the stability of the equity markets to provide returns on its investment portfolio. Given the nature of the Company's activities, its results of operations and financial condition are dependent upon the market value of securities that comprise the Company's portfolio. The Company's investments are small-cap businesses which the Company believes exhibit potential for growth and sustainable cash flows but which may not ever mature or generate the returns the Company expects or may require several years to do so.

In addition, on January 30, 2020, the World Health Organization declared that the recent COVID-19 outbreak was a global health emergency, recognizing that the disease represents a risk outside of China, where it emerged in the last couple of months. Companies across various industries could be impacted materially by the coronavirus.

COVID-19's known and unknown impact on earnings, costs, employees, supply chains, customers and other stakeholders, as well as other business matters, may be material for the Issuer, and may have a material impact on the Issuer's gross earnings, net earnings and other business matters. Environmental, social and governance factors may also impact the Issuer's operations in the near future.

Quinsam has operated on a "virtual basis" for a number of years. Therefore, the general closure of non-essential businesses in response to the outbreak does not impact day-to-day operations.
