

NEWS RELEASE

LEXSTON LIFE SCIENCES CORP. retains marketing consultants and sets Stock Options

Vancouver, British Columbia, September 9, 2021. Lexston Life Sciences Corp. (CSE: LEXT) (the “**Company**” or “**Lexston**”) is pleased to announce that the Company has retained Amherst Baer Consultancy Corp. (ABCC”), of Langley, British Columbia, to prepare a marketing campaign for the Company.

ABCC, will provide digital media services, vendor management, marketing and data analytics services to the Company at www.investorsscene.com, and the Company has budgeted \$300,000 for such services over an expected twelve-month period. ABCC is a full-service advertising agency and business development corporation that works with a partner ad exchange whose integrated SSPs (supply side platforms) result in access to 2-10 billion daily North American ad impressions. Neither ABCC nor any representatives of ABCC own any securities of the Company directly or indirectly or have any intention to acquire any securities of the Company.

In addition, the Company has granted 780,000 stock options to its directors, officers, consultants and employees. Each stock option is exercisable at \$0.18 per share. The options vest immediately and expire on September 8, 2026. All options were granted pursuant to the 10% rolling stock option plan of Lexston dated January 15, 2021 (the “**Plan**”). As of the date of this news release Lexston has 5,180,000 stock options granted and 5,326 stock options available for future grants.

About Lexston Life Sciences Corp.

Lexston Life Sciences Corp. is a Canadian biotechnology company providing cannabis testing and research services. Lexston is also in the process of securing licensing under the exemptions prescribed by section 56 of the Controlled Drugs and Substances Act (Canada) to enable the expansion of its services into the psychedelic industry with an initial focus on the detection and quantification of psychedelic molecules in the lab and point of care. Lexston intends to develop and validate methods for standardized manufacturing of plant derived psychedelics in support of burgeoning trials in the field of mental health and wellness.
