MONTHLY PROGRESS REPORT

Name of Listed Issuer: EnviroGold Global Limited (the "Issuer" or "EGGL").

Trading Symbol: NVRO

Number of Outstanding Listed Securities: 201,411,717 common shares as at November 30, 2023

Date: December 6, 2023 (for the month of November 2023)

This Monthly Progress Report must be posted before the opening of trading on the fifth trading day of each month. This report is not intended to replace the Issuer's obligation to separately report material information forthwith upon the information becoming known to management or to post the forms required by Exchange Policies. If material information became known and was reported during the preceding month to which this report relates, this report should refer to the material information, the news release date and the posting date on the Exchange website.

This report is intended to keep investors and the market informed of the Issuer's ongoing business and management activities that occurred during the preceding month. Do not discuss goals or future plans unless they have crystallized to the point that they are "material information" as defined in the Policies. The discussion in this report must be factual, balanced and non-promotional.

General Instructions

- (a) Prepare this Monthly Progress Report using the format set out below. The sequence of questions must not be altered nor should questions be omitted or left unanswered. The answers to the items must be in narrative form. State when the answer to any item is negative or not applicable to the Issuer. The title to each item must precede the answer.
- (b) The term "Issuer" includes the Issuer and any of its subsidiaries.
- (c) Terms used and not defined in this form are defined or interpreted in Policy 1 – Interpretation and General Provisions.

Report on Business

- 1. Provide a general overview and discussion of the development of the Issuer's business and operations over the previous month. Where the Issuer was inactive disclose this fact.
The Issuer is a clean technology company that is working to sustainably supplying the world's increasing demand for precious, critical, and strategic metals by profitably reclaiming metals from mine wastes. The Issuer leverages proprietary and conventional technology and superior operationalized knowledge to recover valuable metals (focusing on VMS deposits), reduce environmental liabilities, and accelerate the world's transition to a sustainable circular resource economy.
- 2. Provide a general overview and discussion of the activities of management.

During the month of November 2023, the Issuer's principal activities consisted of attending to:

- presenting at the Global SMID Cap Opportunities Virtual Conference on Thursday, November 16th, 2023;
- the preparation and filing of the Issuer's unaudited financial statements and accompanying management discussion and analysis (the "MD&A") for the 3rd quarter ended September 30, 2023;
- announce the successful completion of initial test work for a nickel tailings project with a major global mining company;
- granting an aggregate of 1,191,277 restricted share units ("RSUs") to certain directors of the Issuer; and
- general management and administrative matters.

3. Describe and provide details of any new products or services developed or offered. For resource companies, provide details of new drilling, exploration or production programs and acquisitions of any new properties and attach any mineral or oil and gas or other reports required under Ontario securities law.

During the month of November 2023, the Issuer announced the successful completion of initial test work for a nickel tailings project with a major global mining company. The initial test work, conducted by the dedicated team of experts, in conjunction with SGS Lab in Vancouver, focused on optimizing nickel, copper, cobalt, and PGM recovery processes from nickel mine tailings, a byproduct of previous mining operations. The results demonstrate a step change in efficiency in extracting critical metals from these waste materials. The test results confirmed excellent liberation of critical and precious metals using the Issuer's proprietary hydrometallurgical process and support moving towards phase 2 testing. The Issuer expects to further optimize these results in the phase 2 test work while also looking to recover iron ore and sulphur from residue. Phase 2 testing is expected to be completed in Q1 2024. With success in phase 2, the Issuer may or expect to start pre-pilot plant testing.

4. Describe and provide details of any products or services that were discontinued. For resource companies, provide details of any drilling, exploration or production programs that have been amended or abandoned.
