

Digital Commodities Announces Execution of Bitcoin Purchase Facility with Vancrypto Tech

Building on the Previously Announced LOI, this Agreement Offers Digital Commodities a Flexible Pathway to Accumulate Bitcoin

Vancouver, British Columbia--(Newsfile Corp. - June 20, 2025) - Digital Commodities Capital Corp. (CSE: DIGI) (OTCQB: DGCMF) (FSE: W040) ("**Digital Commodities**" or the "**Company**") is pleased to announce that, further to its news release dated June 9, 2025, it has entered into a definitive Bitcoin purchase facility (the "**Facility**") with VanCrypto Tech LTD. ("**VanCrypto**"), establishing a flexible and non-exclusive framework under which Digital Commodities may acquire Bitcoin directly from VanCrypto at its discretion. VanCrypto, a privately held company, operates a cryptocurrency mine in Western Canada, powered entirely by renewable energy.

The Facility provides Digital Commodities with the ability to acquire Bitcoin in exchange for any combination of cash, common shares, or common share purchase warrants, subject to mutual agreement on pricing and timing, and compliance with applicable securities laws and CSE policies.

"VanCrypto is an exceptional strategic partner, and we are thrilled to formalize our relationship through this agreement," said Brayden Sutton, CEO of Digital Commodities. "This facility provides a unique, accretive way to add Bitcoin to our balance sheet without relying on leverage, debt, or traditional financing—an approach that reflects our commitment to prudent capital management while maximizing long-term Bitcoin exposure. Its flexibility gives us a strategic advantage in navigating market conditions and executing our strategy with focus and transparency."

Each drawdown will be initiated by Digital Commodities through a purchase request and, where securities are issued, will be subject to all applicable disclosure obligations, including the issuance of a press release and the filing of a CSE Form 9, followed by a five-business-day waiting period.

Key Highlights of the Facility Include:

- **Term:** 24 months ending June 18, 2027
- **Due Diligence:** Digital Commodities retains discretion to conduct full diligence on each transaction, including verification of ownership, AML checks, and sanctions compliance
- **Security of Supply:** VanCrypto has agreed to notify Digital Commodities as additional Bitcoin becomes available
- **Transparency:** Digital Commodities retains the right to disclose acquisitions and strategic use of the Facility to the market

The Facility provides Digital Commodities with an innovative and non-traditional mechanism to gain Bitcoin exposure over time while preserving capital structure integrity and regulatory compliance.

Any securities issued in connection with the Facility will be subject to a statutory four-month-and-one-day hold period, in accordance with applicable securities laws, and a concurrent four month hold period imposed under CSE policies, in each case, commencing on the date of issuance.

Forward-Looking Statements

This release includes certain statements and information that may constitute forward-looking information within the meaning of applicable Canadian securities laws. Forward-looking statements relate to future events or future performance and reflect the expectations or beliefs of management of the Company regarding future events. Generally, forward-looking statements and information can be identified by the use of forward-looking terminology such as "intends" or "anticipates", or variations of such words and phrases or statements that certain actions, events or results "may", "could", "should", "would" or "occur". This information and these statements, referred to herein as "forward-looking statements", are not historical facts, are made as of the date of this news release and include without limitation, statements relating to the Facility with VanCrypto; that future drawdowns will be subject to customary due diligence and comply with all securities laws and CSE policies; that the Facility will give the Company a strategic advantage in navigating market conditions and executing its capital strategy with discipline and transparency; that the Facility will provide Digital with an innovative and non-traditional mechanism to gain Bitcoin exposure over time while preserving capital structure integrity and regulatory compliance; and the term of the Facility.

In making the forward-looking statements in this news release, the Company has applied certain material assumptions, including without limitation, that the Facility with VanCrypto will result in the expected benefits; that the Company will complete customary due diligence prior to each drawdown; that the Facility will not be terminated early; that the Facility will give the Company a strategic advantage in navigating market conditions and executing its capital strategy; and that the Facility will provide Digital with an innovative and non-traditional mechanism to gain Bitcoin exposure over time while preserving capital structure integrity and regulatory compliance.

These forward-looking statements involve numerous risks and uncertainties, and actual results might differ materially from results suggested in any forward-looking statements. These risks and uncertainties include, among other things that the Facility will fail to result in the expected benefits; that the Company will fail to complete due diligence prior to each drawdown, which may result in compliance issues with its Bitcoin purchases under the Facility; that the Facility is terminated early; that the Facility will fail to give the Company a strategic advantage in navigating market conditions and executing its capital strategy; that the Facility will fail to provide Digital with an innovative and non-traditional mechanism to gain Bitcoin exposure over time while preserving capital structure integrity and regulatory compliance; adverse changes to the cryptocurrency industry; adverse changes to cryptocurrency regulations; general economic, market or business conditions; uninsured risks; other regulatory changes; and other risks detailed herein and from time to time in the filings made by the Company with securities regulators. Accordingly, readers should not place undue reliance on the forward-looking statements and information contained in this news release. Readers are cautioned

that the foregoing list of factors is not exhaustive. Although management of the Company has attempted to identify important factors that could cause actual results to differ materially from those contained in forward-looking statements or forward-looking information, there may be other factors that cause results not to be as anticipated, estimated or intended. There can be no assurance that such statements will prove to be accurate, as actual results and future events could differ materially from those anticipated in such statements. Accordingly, readers should not place undue reliance on forward-looking statements and forward-looking information. Readers are cautioned that reliance on such information may not be appropriate for other purposes. The Company does not undertake to update any forward-looking statement, forward-looking information or financial out-look that are incorporated by reference herein, except in accordance with applicable securities laws.

Neither the CSE nor its Regulation Services Provider (as that term is defined in the policies of the CSE) accepts responsibility for the adequacy or accuracy of this release.
