

## **NEWS RELEASE**

### **HealthSpace Signs Contract with Indigenous Services Canada**

**VANCOUVER, BC – December 11, 2018** - HealthSpace Data Systems Ltd. (“HealthSpace”) (CSE:HS) (Frankfurt:38H) (OTC:HDSLFF) announces that the Company has signed a contract with Indigenous Services Canada to provide support and maintenance services for the Environmental Health Information System (EHIS). The contract is for one year with two option years.

EHIS, built by HealthSpace, is a knowledge management tool for Environmental Health Officers, Environmental Health Managers and program support staff serving First Nations communities across Canada. This contract serves as a replacement for the contract the Company had with the First Nations and Inuit Health Branch of Health Canada (FNIHB). The new agreement, including the two option years, maintains the same pricing originally structured with FNIHB and is worth CAD\$500,148.

HealthSpace CEO, Silas Garrison stated “We are pleased that HealthSpace will be able to continue to provide service to the First Nations communities across Canada. While we are working to migrate existing customers to our HSCloud platform, we are committed first and foremost to ensuring our customers’ satisfaction. This contract allows us to continue to support and maintain EHIS which has become a valuable tool in providing environmental health information to First Nations communities and the federal government.”

### **HealthSpace Data Systems Ltd.**

HealthSpace is an industry leading technology company currently providing inspection, information, communication and data management systems for federal, state, county and municipal governments. Over the last decade, HealthSpace has successfully developed both enterprise and mobile internet-based applications currently serving over 300 state and local government organizations across North America. HealthSpace currently offers the only integrated inspection, administration and analytics product suite across all platforms in North America. Further, HealthSpace now delivers its government grade technologies to private businesses enabling them to gain visibility and predictability into their own organizations and move from a reactive to a proactive operational status. HealthSpace continues to deliver focused service and innovative solutions to government organizations, while expanding into commercial enterprise verticals to enable new customers with proactive environmental health best practices and policies.

### **Forward-Looking Statements**

This release may contain forward-looking statements. Forward-looking statements are statements that are not historical facts and are generally, but not always, identified by the words "expects", "plans", "anticipates", "believes", "intends", "estimates", "projects", "potential" and similar expressions, or that events or conditions "will", "would", "may", "could" or "should" occur. Although HealthSpace believes the expectations expressed in such forward-looking statements are based on reasonable assumptions, such statements are not guarantees of future performance and actual results may differ materially from those in

forward looking statements. HealthSpace expressly disclaims any intention or obligation to update or revise any forward-looking statements whether as a result of new information, future events or otherwise.
