MONTHLY PROGRESS REPORT

Name of Listed Issuer: **Goldseek Resources Inc.** (the "Issuer" or "Company").

Trading Symbol: **GSK**

Number of Outstanding Listed Securities: **32,958,062**

Date: **April 2021**

Report on Business

1. Provide a general overview and discussion of the development of the Issuer's business and operations over the previous month. Where the Issuer was inactive disclose this fact.

Goldseek Resources Inc. is a Canadian exploration company with a portfolio of assets in Ontario and Quebec, Canada. By identifying six projects in world-class mining locations, Goldseek is poised to deliver shareholder value through rigorous exploration and development on these properties. Our mission is to find the next major discovery in the mining camps of Urban Barry, Quevillon, Val D'Or and Detour Gold Trend in Quebec and Hemlo in Ontario.

2. Provide a general overview and discussion of the activities of management.

In a press release dated April 6, 2021, the Company announced that its common shares are now listed on the Frankfurt Stock Exchange ("FSE") under the trading symbol 4KG.

The Company has been assigned a German Securities Identification Number (WKN: A2P1L9) and an International Identification Number (ISIN: CA38150J1066).

In a press release dated April 20, 2021, the Company announced partial results from the completed soil (till) survey on its recently acquired Val-d'Or North Property (see news release dated November 10th, 2020). The best results include a succession of 5 samples containing gold anomalies (gold grain count and ppb Au equivalent) identified as Target 3. The Company is currently waiting for the heavy mineral concentrate assay results, which will allow the Company to better interpret the potential source of the anomalies found on the Property. The survey generated a total of 4 Targets which will be subject to a follow-up program this summer.

Goldseek's President & CEO Jon Deluce states, "We are very encouraged to report our strong maiden till results and the identification of 4 Targets at our Val D'Or North Project. For a cost-efficient first pass of the Project, these

initial results exceeded our expectations, and we look forward to our follow-up program this summer to better define the targets in this area of the Val D'Or district that is very underexplored. This shows the depth of our asset portfolio besides our new advanced stage flagship Beschefer."

In a press release dated April 27, 2021, the Company announced the MMI soil survey results from its' 2020 program at the Horizon (Hemlo) Property. The Company is excited to announce it has identified a 5th target (Target D) on the Property's south border, which is shared with Barrick Gold's Hemlo mining lease.

The MMI survey was completed on top of two magnetic anomalies located on Target B, and the newly identified Target D, respectively named the North and South grids (See news release dated July 31st 2020). The assessment of the data indicates that the Au-Cu-(Mo) and Pd areas on the North Grid and the Pb-Zn-Co-(Mo-Ni-Sb) anomaly on the South grid are well defined, sub-circular anomalies with sharp lateral boundaries and are prime targets using the MMI data. Both anomalies are open laterally and along strike, as shown in Figures 1 and 2 below.

Goldseek's President & CEO Jon Deluce states, "We are encouraged with the results of our MMI survey and identifying a new target on the Goldseek / Barrick Gold border. The anomalies are still open, and therefore we will complete a survey this summer to better interpret the results and extend the known anomalies to plan a follow-up drill program."

3. Describe and provide details of any new products or services developed or offered. For resource companies, provide details of new drilling, exploration or production programs and acquisitions of any new properties and attach any mineral or oil and gas or other reports required under Ontario securities law.

None

4. Describe and provide details of any products or services that were discontinued. For resource companies, provide details of any drilling, exploration or production programs that have been amended or abandoned.

None

5. Describe any new business relationships entered into between the Issuer, the Issuer's affiliates or third parties including contracts to supply products or services, joint venture agreements and licensing agreements etc. State whether the relationship is with a Related Person of the Issuer and provide details of the relationship.

None

6. Describe the expiry or termination of any contracts or agreements between the Issuer, the Issuer's affiliates or third parties or cancellation of any financing arrangements that have been previously announced.

None

7. Describe any acquisitions by the Issuer or dispositions of the Issuer's assets that occurred during the preceding month. Provide details of the nature of the assets acquired or disposed of and provide details of the consideration paid or payable together with a schedule of payments if applicable, and of any valuation. State how the consideration was determined and whether the acquisition was from or the disposition was to a Related Person of the Issuer and provide details of the relationship.

None

8. Describe the acquisition of new customers or loss of customers.

None

9. Describe any new developments or effects on intangible products such as brand names, circulation lists, copyrights, franchises, licenses, patents, software, subscription lists and trade-marks.

None
