Since July of 2020 the price of gold has traded near or above its 10-year high of US \$1,770 per troy ounce established in October of 2012. This prolonged period (+18 months) of a strong gold price has generated a sustained interest in the sector. Gold closed out 2021 at over \$1,800 and the outlook for a continuing strong gold price remains positive which is expected to sustain interest in the sector.

The market for exploration companies can prove challenging in terms of raising sufficient capital to fund exploration activities. There is no guarantee that fundraising efforts will be successful on a continuing basis.

The Issuer's near-term strategy to advance its assets is not currently being impacted by the remaining COVID-19 travel and quarantine restrictions.
