- (b) The term “Issuer” includes the Issuer and any of its subsidiaries.
- (c) Terms used and not defined in this form are defined or interpreted in Policy 1 – Interpretation and General Provisions.

REPORT ON BUSINESS

1. Provide a general overview and discussion of the development of the Issuer’s business and operations over the previous month. Where the Issuer was inactive disclose this fact.

Alliance Growers is a diversified global cannabis company driven by the Company's four pillars business plan -- Cannabis Biotech Complex, strategic Licensed Producer investments, CBD oil supply & distribution, and research & development.

Cannabis Biotech Complex - Alliance Growers had entered into a Option Agreement with WFS Pharmagreen Inc. (“Pharmagreen”) and its subsidiary, 1155097 BC Ltd. (1155097), to create a strategic relationship, together with equity participation by Alliance Growers and Pharmagreen, whereby Alliance Growers will acquire up to a 30% non-dilutive equity interest in Pharmagreen’s subsidiary 1155097.

Alliance Growers and Pharmagreen are jointly working to develop and operate a 62,000-square foot facility to be the first of its kind in Western Canada to house a DNA Botany lab, extraction facility and Tissue Culture Plantlet Production facility to service the Cannabis market and agriculture market in general. The proposed Cannabis Biotech Complex will grow Cannabis plantlets using B.R.I.M.’s proprietary tissue culture

propagation, specifically the “Chibafreen Invitro Plant Production System”, which assures consistent composition and purity of each plantlet for the growers.

In July, 2018 Pharmagreen announced it is currently completing its pre-construction phase of its 62,000 square foot Cannabis Biotech Complex. Pharmagreen has filed for regulatory approval from Health Canada for the cannabis biotech complex. The facility will supply over ten million cannabis tissue culture starter plantlets on an annual basis, operating at full capacity. The Company’s plan is reach over ninety percent of production capacity in the first year.

Strategic Licensed Producer Investments - Through a series of strategic investments under negotiation with Licensed Producers at various stages in the Health Canada Regulations license process, Alliance Growers is focused on securing long term plantlet sale contracts for the Cannabis Biotech Complex and off-take agreements at wholesale cost for flower to be acquired by Alliance Growers for CBD oil extraction.

The Company is a medical cannabis company first, as it has been confirmed that medical cannabis has a global reach and is politically stable. With the roll-out of recreational use or adult-use of cannabis, Alliance Growers anticipates a significant change in the current informal medical cannabis dispensary model. It is expected that most of the existing un-licensed dispensaries, operating in the grey area, will be replaced by the more traditional clinic-pharmacy model, whereby patients will see their doctor or a new doctor and are able to fill their prescriptions either in-store or online with Alliance and Pharmagreen proprietary products, for example.

To that end Alliance Growers has, for several months now, been developing its plan to embrace the inevitable change by looking at partnerships with companies with existing clinics and by searching for clinic-pharmacies to acquire, whereby Alliance Growers will provide its jointly developed proprietary medical cannabis products such as the CBD Dana strain. Meetings with several industry experts on our road trips in Vancouver, Montreal and Toronto have essentially confirmed that Alliance Growers is on the right path for success in the medical cannabis sector beyond owing Cultivation and Sale licenses.

CBD Oil Supply and Distribution - Alliance Growers has completed an agreement with Pharmagreen and B.R.I.M. to build and operate a world-class Biotech Complex, which will include an extraction and processing of CBD oil.

Research and Development - The Company intends to form partnerships with world class R&D cannabis specialists, such as certain companies in Israel, and through its association with Pharmagreen and B.R.I.M.

Cannabis Market Place Platform - The Company co-developing a Cannabis App for use by the cannabis industry and its market participants.

As the business model for Alliance Growers evolves from just being a producer of medical marijuana to one of being a developer and distributor of a much wider range of related products, both within the jurisdictions where marijuana is permitted, and non-cannabis products in those areas not yet approved by the regulators, management continues to identify opportunities to make this transition under its Four Pillars organization Plan.

2. Provide a general overview and discussion of the activities of the management.

Pursuant to the Option Agreement with Pharmagreen, the Company acquired eight shares of 1155097 B.C. Ltd. on January 25, 2019, through the investment of \$1,350,000. 1155097 plans to purchase the land and build and operate a 62,000 square foot growing facility called the Biotech Complex. 1155097 will require a Cultivation License. Dennis Petke, the CEO of the Company was appointed to the board of directors of 1155097.

The parties have agreed to an addendum to the Option Agreement to be signed on or before June 30, 2019 setting out the terms of a second option to earn an additional 20% interest (the “Second Option”). The purchase price of the 20% interest would be a price equal to 30% of the costs of construction and equipment costs of the

Biotech Complex minus \$1,350,000 (“Construction and Equipment Costs”) estimated to be around \$30,000,000. In the event the Second Option is not exercised, the Company’s 10% interest will be subject to dilution to a percentage equal to \$1,350,000 divided by the final Construction and Equipment Costs.

The Cannabis Biotech Complex, being jointly developed by WFS Pharmagreen Inc., the wholly owned Canadian Subsidiary of Pharmagreen Biotech Inc. (OTC Venture: PHBI) and Alliance Growers, is in the construction phase, forecast for completion in 2021. Alliance Growers has been and continues to be a strategic investor in the development of the Biotech Complex at Deroche, BC. The funds advanced to date, by Alliance have been instrumental in the completion of the project design and engineering stage including permit application approvals from municipal and regional districts.

The migration to Health Canada's Cannabis Tracking and Licensing System, or CTLS has been completed. The CTLS is Health Canada’s worldwide web portal that enables the submission of new license applications, request for amendments and license renewals in addition to submission of monthly tracking reports.

On March 6, 2019, the Company announced the execution of a Share Purchase Agreement with a US Family Office, Global Corporate Finance (“GCF”). New York, NY, USA. Total gross proceeds from the Offering for the Company are expected to be CAD \$4 million, before deducting fees and expenses, over several months, being drawn down in multiple tranches at progressively higher prices.

The CAD \$4 million equity facility offered by GCF, is structured such that it allows the Company, solely at its request, to draw down on the facility equity over a period of up to 30 months subject to certain pre-agreed floor pricing at progressively higher prices. This commitment from GCF will contribute toward our financial obligations for the acquisition of a 30% interest in the Cannabis Biotech Complex, advancing the Biocannatech Cannabis application and our other projects.

The Company also is preparing a Short Form Base Shelf Prospectus, Audit Review and AIF for filing by April 2019.
