

THE ANONYMOUS INTELLIGENCE COMPANY

ANONYMOUS INTELLIGENCE COMPANY INC. PROVIDES CORPORATE UPDATE

News Release – Vancouver, British Columbia, April 30, 2026 – Anonymous Intelligence Company Inc. (CSE: ANON) (OTC: ANICF) (FRANKFURT: 1JIO) (the “**Company**” or “**ANON**”) is pleased to provide shareholders with a corporate update regarding its ongoing technology development initiatives.

Over the past six months, the Company has continued to advance its research and development activities across its core technology verticals, including blockchain, artificial intelligence, and digital asset infrastructure.

The Company’s flagship blockchain initiative, **SimpliiCrypto**, is currently in development and is at the Pre-Token Generation Event (TGE) stage. The project is developing its blockchain infrastructure on a high-performance network, Solana, with ongoing technical development and testing. The Company intends to explore several decentralized finance (“**DeFi**”) applications; however, the scope, functionality, and commercial viability of such applications remain subject to technical feasibility and regulatory considerations. The Company is targeting a potential token generation event (“**TGE**”) in the fourth quarter of 2026, however, there can be no assurance as to the exact timing, completion or launch. Additional information is available at www.simpliicrypto.com

In keeping with our commitment to privacy, the Company is developing the **Anon Crypto Cold Wallet**, a hardware-based solution designed to enable offline storage of digital assets. The product is intended to enhance security by reducing exposure to risks associated with internet-connected wallets and exchanges referred to as “**Hot Wallets**”. Development is currently ongoing and is subject to testing, regulatory considerations and market acceptance. The Company is targeting a potential launch in the third quarter of 2026.

The Company continues to develop its artificial intelligence platform, **SimpliiAi**, which is designed to support content generation across multiple formats, including text-to-image, image-to-video and animation applications. The platform is intended for use in digital media, marketing and enterprise applications.

The Company also notes that it has been able to advance the development of its various technology initiatives while utilizing less than approximately 20% of the proceeds raised from its prior year financings, demonstrating a disciplined approach to capital allocation.

Further to the Company’s news release dated December 15, 2025, the Company is progressing its planned acquisition of cryptocurrency mining equipment to be hosted at a data centre in Southern Alberta. Completion of the acquisition remains subject to customary conditions, and the acquisition is anticipated in early Q3 2026.

The Company also announces that its Chief Executive Officer, Denis Franks, has further invested into Anonymous Intelligence by purchasing one million (1,000,000) common share purchase warrants from an existing shareholder. The warrants were acquired on their existing terms and were fully exercised

in April 2026, prior to their expiry. The transaction was conducted at arm's length and reflects management's alignment with shareholder interests.

The Company will continue to provide updates as material developments occur.

On Behalf of the Board,
ANONYMOUS INTELLIGENCE COMPANY INC.

Denis Franks
CEO

Forward-Looking Statements

This news release contains certain forward-looking statements within the meaning of applicable securities laws. Forward-looking statements are frequently characterized by words such as "plan," "expect," "project," "intend," "believe," "anticipate," "estimate," and other similar words, or statements that certain events or conditions "may," "will," "could," or "should" occur. Forward-looking statements in this news release include, but are not limited to, statements regarding the development of SimpliiCrypto, the potential use of specific blockchain infrastructure, the timing and completion of a token generation event, the development and launch of the Anon Crypto Cold Wallet, the development of the SimpliiAi platform, and the completion of the Company's planned acquisition of cryptocurrency mining equipment.

These forward-looking statements are based on management's current expectations and assumptions, including assumptions regarding technological feasibility, market conditions, regulatory developments, and the availability of financing and other resources. Forward-looking statements are subject to a number of risks and uncertainties, many of which are beyond the Company's control, including risks related to technology development, regulatory approval, market adoption, and general economic conditions. There can be no assurance that such statements will prove to be accurate, and actual results and future events could differ materially from those anticipated in such statements.

Readers are cautioned not to place undue reliance on forward-looking statements. The Company undertakes no obligation to update or revise any forward-looking statements, except as required by applicable securities laws.
