

News Release

Advantagewon Oil Corp., Provides an Operational Update for its Black & Morris Property

FOR IMMEDIATE RELEASE

Sept 20th, 2017

Toronto, Ontario, September 20th, 2017 – Advantagewon Oil Corp., (CSE: AOC), (the “Corporation”, “Advantagewon”) announced today that it is seeing positive results on its Black & Morris lease wells located in the LaVernia Oil field, in the State of Texas.

The Corporation is very pleased to report that all three wells recently fraced are producing oil. All three are producing a total of approximately 2 barrels of oil per day at an approximate 10% oil cut as the well continues to recover injected frac fluid. Once that fluid has been recovered, and the well has been producing for a period of time, the Corporation will provide a secondary update including an internal reserve estimate.

The Corporation plans to provide updates on its other recent workover efforts, and new wells drilled in the near future.

About Advantagewon Oil Corp.

Advantagewon is focused on building consistent cash flow from low cost, low risk oil wells in the State of Texas. AOC applies specialized expertise to increase oil recovery from 10-15% to up to 75% for each well. Once the enhanced recovery strategy is successfully applied, AOC will repeat the process throughout the oil pool to maximize output and minimize cost and risk.
