(Unaudited – Prepared by Management)

1. NATURE OF OPERATIONS

Aurwest Resources Corporation (the “Company” or “Aurwest”) was incorporated pursuant to the provisions of the Business Corporations Act (British Columbia) on April 17, 2008 and has been a reporting issuer in British Columbia, Alberta and Ontario, and whose shares have traded on the Canadian Securities Exchange since November 10, 2010 under stock symbol SRS. The Company’s registered and records office and corporate office address is Suite 650, 340 – 12th Avenue SW, Calgary, Alberta Canada T2R 1L5. On January 7, 2020, the Company completed a share consolidation on the basis of 4 old shares for 1 new share. The share consolidation has been retroactively presented in these financial statements and all share amounts, including per share amounts, reflect the share consolidation. The Company also changed its name to Aurwest Resources Corporation and on January 8, 2020, commenced trading under the stock symbol “AWR”.

On January 14, 2021, the Company changed its year end from May 31 to December 31. These financial statements reflect the nine months ended September 30, 2022 and 2021.

The Company is pursuing the acquisition, exploration and evaluation of mineral properties. At September 30, 2022, it had two 100% owned adjacent properties in British Columbia, being the Stellar Project and Stars Project. The Company also entered into option agreements to earn a 100% interest in the Paradise Lake, Miguels Lake and Stony Caldera properties in Newfoundland. The Company is in the process of exploring its mineral property interests and has not yet determined whether the properties contain reserves that are economically recoverable. The recoverability of amounts shown for mineral properties is dependent upon the discovery of economically recoverable reserves, confirmation of the Company’s interest in the underlying mineral properties in accordance with industry practice, the ability of the Company to obtain necessary financing to complete the development, and upon future profitable production.

Plan of Arrangement

On September 22, 2022, the Company received all necessary approval to complete a Plan of Arrangement to:

- Spin out the Stellar and Stars mining properties consisting of two parcels of adjoining land in British Columbia (Note 4) into a separate publicly listed company, Copper Star Exploration Ltd. (“Copper Star”) subject to a minimum of \$1,000,000 financing.
- Form five new reporting issuers which will be used for the purposes of evaluating future go public business opportunities (the “SpinCos” or in case of singular, “SpinCo”).

On September 23, 2022, the Record Date, Aurwest’s shareholders is entitled to receive 0.0051 shares of each of the five newly formed SpinCos for every one common share of Aurwest held.

On September 28, 2022, pursuant to the Plan of Arrangement, each Aurwest common shares were exchanged for (Note 6):

- One New Common Share;
- One Class A Preferred Shares. The Class A Preferred Shares would be exchanged for 29,961,488 shares of Copper Star for a total of \$2,605,000 being the fair value of the Stellar and Stars mining properties, subject to financing. In the event the financing is not completed within one year, the Class A Preferred Shares will be cancelled; and
- One Class B Preferred Shares which would be redeemed in exchange of 0.0051 SpinCos share for a total of 509,336 SpinCo shares at \$25,000 in each of the 5 SpinCos.

At September 30, 2022, the Class B Preferred Shares were redeemed and each Aurwest shareholder as of Record Date have received their pro-rata shares of each of the 5 SpinCos being: 1377314 B.C. Ltd., 1377319 B.C. Ltd., 1377326 B.C. Ltd., 1477331 B.C. Ltd. and 1377333 B.C. Ltd.

As of September 30, 2022, Aurwest had not completed the financing required to spin out the Stellar and Stars properties and accordingly, Copper Star remained as a subsidiary of Aurwest (Note 2).

2. BASIS OF PRESENTATION

Statement of compliance

These interim condensed consolidated financial statements have been prepared in accordance with International Financial Reporting Standards (“IFRS”) as issued by the International Accounting Standards Board (“IASB”) and interpretations of the International Financial Reporting Interpretations Committee (“IFRIC”) including International Accounting Standard (“IAS”) 34, Interim Financial Reporting. Since these interim condensed consolidated financial statements do not include all disclosures required by IFRS for annual financial statements, they should be read in conjunction with the Company’s audited financial statements for the year ended December 31, 2021.

These interim condensed consolidated financial statements were authorized for issue by the Board of Directors on November 29, 2022.

Basis of measurement

These financial statements have been prepared on a historical cost basis except for financial instruments that have been measured at fair value. In addition, these financial statements have been prepared, except for cash flow information, using the accrual basis of accounting. Unless otherwise noted, these financial statements are presented in Canadian dollars, the functional currency of the Company.

Basis of consolidation

These interim condensed consolidated financial statements include the financial statements of the Company and its wholly owned Canadian subsidiary Copper Star Exploration Ltd. (“Copper Star” or the “Subsidiary”). A subsidiary is an entity controlled by the Company. The Company controls an entity when it is exposed to, or has right to, variable returns from its involvement with the entity and has the ability to affect those returns through its power over the entity. The financial statements of the subsidiary are included in the interim condensed consolidated financial statements from the date that control commences until the date that control ceases.

Going concern

These financial statements have been prepared on the assumption that the Company will continue as a going concern, meaning it will continue in operation in the foreseeable future and will be able to realize assets and discharge liabilities in the ordinary course of operations. Different bases of measurement may be appropriate if the Company was not expected to continue operations for the foreseeable future. As at September 30, 2022, the Company had not yet achieved profitable operations, incurred a loss of \$633,086 (2021 - \$1,166,676), had a working capital of \$491,999 (December 31, 2021 - \$2,103,811) and a deficit of \$5,722,166 (December 31, 2021 - \$5,089,080) since inception and expects to incur further losses in the development of its business. The current challenging economic climate brought about by factors including the Coronavirus (“COVID-19”) may lead to adverse financing conditions, working capital levels and/or debt balances, which may also have an effect on the Company’s operating results and financial position. These circumstances comprise a material uncertainty which may cast significant doubt about the Company’s ability to continue as a going concern. The Company’s continuation as a going concern is dependent upon successful results from its exploration and evaluation activities, its ability to attain profitable operations to generate funds and/or its ability to raise equity capital or borrowings sufficient to meet its current and future obligations. Although the Company has been successful in the past in raising funds to continue operations, there is no assurance it will be able to do so in the future.

In March 2020, the World Health Organization declared COVID-19 a global pandemic. The COVID-19 outbreak has resulted in social and economic disruption and had a resultant impact on the mining and exploration industries and capital markets. As at the date of this report, the Company has not been significantly impacted by the spread of COVID-19. However, the duration and impact of the COVID-19 pandemic, as well as the effectiveness of

government and central bank responses, remains unclear at this time and could have a material impact on the Company's future financial position, results of operation and cash flows. The Company's liquidity and ability to continue as a going concern may also be impacted.

Critical accounting estimates and judgements

The Company makes estimates and assumptions about the future that affect the reported amounts of assets and liabilities. Estimates and judgments are continually evaluated based on historical experience and other factors, including expectations of future events that are believed to be reasonable under the circumstances. Actual experience may differ from these estimates and assumptions.

The effect of a change in accounting estimate is recognized prospectively by including it in comprehensive income in the period of the change, if the change affects that period only, or in the period of the change and future periods, if the change affects both.

Information about critical accounting estimates and judgments in applying accounting policies that have the most significant risk of causing material adjustment to the carrying amounts of assets and liabilities recognized in the financial statements are discussed below:

Judgements

Exploration and evaluation expenditures

The application of the Company's accounting policy for exploration and evaluation expenditure requires judgment in determining whether it is likely that future economic benefits will flow to the Company, which may be based on assumptions about future events or circumstances. Estimates and assumptions made may change if new information becomes available. If, after an expenditure is capitalized, information becomes available suggesting that the recovery of the expenditure is unlikely, the amount capitalized is written off in the profit or loss in the period the new information becomes available.

Title to mineral property interests

Although the Company has taken steps to verify title to mineral properties in which it has an interest, these procedures do not guarantee the Company's title. Such properties may be subject to prior agreements or transfers and title may be affected by undetected defects.

Going concern

The assumption that the Company is a going concern and will continue in operation for the foreseeable future and at least one year.

Estimates

Share-based compensation and fair value of brokers' warrants

The Company measures the cost of equity-settled transactions with employees and consultants by reference to the fair value of the equity instruments at the date at which they are granted. Estimating fair value of share-based payment transactions requires determining the most appropriate valuation model, which is dependent on the terms and conditions of the grant. This estimate also requires determining the most appropriate inputs to the valuation model including the expected life of the share option, volatility and dividend yield and making assumptions about them. The assumptions and models use for estimating fair value for share-based payment transactions are disclosed in Note 6.

3. SIGNIFICANT ACCOUNTING POLICIES

New accounting standards and interpretations issued but not yet adopted

IAS 16 – Property, plant and equipment – Proceeds before intended use (“IAS 16”) has been amended to clarify the accounting for the net proceeds from selling any items produced while bringing an item of property, plant or equipment to the location and condition necessary for it to be capable of operating in the manner intended by management. The amendments prohibit a company from deducting from the cost of property, plant and equipment amounts received from selling items produced while the company is preparing the asset for its intended use. Instead, a company will recognize such sales proceeds and related cost in profit or loss. These amendments are effective for periods beginning on or after January 1, 2022. The impact of this amendment has no impact on the Company.

IAS 37–Provisions (“IAS 37”), has been amended to clarify (i) the meaning of “costs to fulfil a contract”, and (ii) that, before a separate provision for an onerous contract is established, an entity recognizes any impairment loss that has occurred on assets used in fulfilling the contract, rather than on assets dedicated to that contract. These amendments are effective for periods beginning on or after January 1, 2022. The impact of this amendment on the Company is minimal.

IAS 1 –Presentation of Financial Statements (“IAS 1”), has been amended to clarify how to classify debt and other liabilities as either current or non-current. The amendment to IAS 1 is effective for the years beginning on or after January 1, 2023. The Company is currently assessing the impact of this amendment.

Paradise Lake Project, Newfoundland

On November 6, 2020, the Company entered into an option agreement with Tenacity Gold Mining Company Ltd., to acquire a 100% interest in 824 claims on the Paradise Lake property located in Newfoundland, Canada.

To earn the 100% interest in the property, the Company is required to make cash payments of \$400,000 and issue 5,000,000 units over the course of four years. Each unit will consist of one common share and one-half share purchase warrant. Each whole warrant is exercisable for a period of three years at a price equal to a 10% premium to the closing price of the common shares on the Canadian Stock Exchange (“CSE”) on the day prior to the date of issuance. The consideration will be paid as follows:

- \$50,000 cash and 300,000 units on November 20, 2020 (paid and issued (Note 6));
- \$50,000 cash and 500,000 units on or before November 20, 2021 (paid and issued (Note 6));
- \$75,000 cash and 700,000 units on or before November 20, 2022;
- \$100,000 cash and 1,500,000 units on or before November 20, 2023; and
- \$125,000 cash and 2,000,000 units on or before November 20, 2024.

In addition, the Company is required to incur \$4,000,000 in exploration expenditures on the property over the next four years as follows:

- \$400,000 on or before November 20, 2021 (criteria met);

As of September 30, 2022, there were two executive employment agreement contracts for two directors and officers for an annual salary of \$120,000 each.

9. CAPITAL MANAGEMENT

The Company's primary source of funds comes from the issuance of share capital. The Company defines its capital as all components of shareholders' equity. Capital requirements are driven by the Company's planned exploration and evaluation activities and general and administrative expenses. To effectively manage the Company's capital requirements, the Company has a planning and budgeting process in place to ensure that adequate funds are available to meet its strategic goals. The Company monitors actual expenses to budget on all exploration projects and overhead to manage costs, commitments and exploration activities. Although the Company has been successful at raising funds in the past through the issuance of share capital, there can be no assurance that it will continue to be able to do so in the future. There were no changes in the Company's approach to capital management during the period ended September 30, 2022. The Company is not subject to externally imposed capital requirements.

10. FINANCIAL INSTRUMENTS AND RISK MANAGEMENT

Financial Instruments

Fair values have been determined for measurement and/or disclosure purposes based on the following methods. When applicable, further information about the assumptions made in determining fair values is disclosed in the notes specific to that asset or liability.

Fair Value Hierarchy

Financial instruments that are measured subsequent to initial recognition at fair value are grouped in Levels 1 to 3 based on the degree to which the fair value is observable:

- Level 1 – Applies to assets or liabilities for which there are unadjusted quoted prices in active markets for identical assets or liabilities.
- Level 2 – Applies to assets or liabilities for which there are inputs other than quoted prices included in Level 1 that are observable for the asset or liability, either directly such as quoted prices for similar assets or liabilities in active markets or indirectly such as quoted prices for identical assets or liabilities in markets with insufficient volume or infrequent transactions.
- Level 3 – Applies to assets or liabilities for which there is no unobservable market data.

The fair value hierarchy level at which a fair value measurement is categorized is determined on the basis of the lowest level input that is significant to the fair value measurement in its entirety.

The fair value of cash and cash equivalents is measured using level 1 fair value inputs. Accounts payable and accrued liabilities, loans payable and due to related parties approximate their carrying values due to the short-term nature of these instruments.

Risk Management

The Company's financial instruments are exposed to certain financial risks which are in common with all other businesses, the Company is exposed to risks that arise from its use of financial instruments. The following note describes the Company's objectives, policies and processes for managing those risks and the methods used to measure them.

General Objectives, Policies

The Board of Directors have overall responsibility for the determination of the Company's risk management objectives and policies and have delegated the authority for designing and operating processes that ensure the effective implementation of the objectives and policies to the Company's finance function. The Board of Directors are kept apprised on the process and would monitor the effectiveness of the processes put in place and the appropriateness of the objectives and policies it sets.

The overall objective of the Board is to set policies that seek to reduce risk as far as possible without unduly affecting the Company's competitiveness and flexibility.

AURWEST RESOURCES CORPORATION
NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS
For the nine months ended September 30, 2022 and 2021
(expressed in Canadian dollars)
(Unaudited – Prepared by Management)

The Company's risk exposures and the impact on the Company's financial statements are summarized below:

Credit risk

Credit risk is the risk of potential loss to the Company if the counterparty to a financial instrument fails to meet its contractual obligations. Financial instruments that potentially subject the Company to a significant concentration of credit risk consist primarily of cash. The Company limits its exposure to credit loss by holding its cash with major financial institutions.

Interest rate risk

Interest rate risk is the risk that future cash flows of a financial instrument will fluctuate because of changes in market interest rates. The risk the Company will realize such as a loss is limited because the loans payable bear interest at fixed rates.

Liquidity risk

Liquidity risk is the risk that the Company will not be able to meet its financial obligations as they come due. All of the Company's financial liabilities are classified as current and are anticipated to mature within the next fiscal period. Management monitors the Company's contractual obligations and other expenses to ensure adequate liquidity is maintained.

11. SEGMENTED INFORMATION

The Company primarily operates in one reportable operating segment, being the acquisition and development of exploration and evaluation assets in Canada.

12. FLOW-THROUGH SHARE PREMIUM LIABILITY

A summary of the changes in the Company's flow-through share premium liability is as follows:

Flow-Through Share Premium Liability		
	September 30, 2022	December 31, 2021

13. SUBSEQUENT EVENT

On November 28, 2022, the Company announced that pursuant to the recent closing of the Plan of Arrangement and spin out of its Copper Stars property in British Columbia to Copper Star Exploration Ltd. (“Copper Star”), Copper Star is planning a non-brokered private placement of subscription receipts to raise aggregate proceeds of up to \$1,025,000 through the issuance of up to 5,000,000 flow-through Subscription Receipt units (“FT Units”) at a price of \$0.10 per FT Unit for gross proceeds of up to \$500,000 and up to 7,000,000 non-flow through Subscription Receipt units (“NFT Units”) at a price of \$0.075 per NFT Unit for gross proceeds of up to \$525,000.

Each FT Unit will consist of one flow-through share at a price of \$0.10 and one half of one share purchase warrant (“FT Warrant”). Each whole FT Warrant will entitle the subscriber to purchase one additional common share of Copper Star at a price of \$0.15 per share for 24 months from the date of issuance.

Each NFT Unit will consist of one common share at a price of \$0.075 and one half of one share purchase warrant (“NFT Warrant”). Each whole NFT Warrant will entitle the subscriber to purchase one additional common share at a price of \$0.125 per share for 24 months from the date of issuance.

A finder’s fee of 7% cash and 7% FT/NFT Units may be paid on completed subscriptions.
