FOR IMMEDIATE RELEASE

LETTER OF INTENT ON A DISTRIBUTION AGREEMENT

Vancouver (Canada), August 11, 2020 – Affinor Growers Inc. (“AFI” or the “Company”) (CSE:AFI, OTC:RSSFF, Frankfurt:1AF) is pleased to announce that the Company has entered into a letter of intent (“LOI”) with Four Our Future Indigenous Economics Ltd. (“FOFIE”) to develop a distribution agreement whereby FOFIE will distribute Affinor products, technologies and/or services to:

- 1) Indigenous communities, Indigenous governments, and Indigenous corporations and organizations;
- 2) Canadian, provincial and municipal Governments in partnerships or with collaborative, service or protocol agreements with Indigenous communities;
- 3) Corporations or Industry organizations in partnership or with collaborative or protocol agreements with Indigenous communities; and
- 4) The distribution of Affinor products would be limited to sales in regions currently not covered by Affinor’s current licensing partners.

The LOI is for a period of 12 months and may be cancelled at any time by either party. The parties will work to move to a definitive distribution agreement over the 12-month period.

In addition to the LOI with Affinor, FOFIE also entered into a similar agreement with BW GLOBAL Structures Inc. (“BW GLOBAL”). Collectively, the three companies will collaborate on projects across Canada using BW GLOBAL’s technologically advanced greenhouse structures and Affinor’s patented vertical farming technology to help solve the food security issues plaguing the First Nations.

FOFIE is headed by Co-founder and President Chief Gilbert Jacob, more commonly known as Chief Gibby. Chief Gibby is a member of the Squamish Nation located in North Vancouver, British Columbia, Canada. He is one of the most influential Native leaders in Canada. He has been twice recognized as a significant member of society and honored with Vancouver Magazine's Power 50 Award. He is also the recipient of the Queen’s Diamond Jubilee Medal (in 2011), BC Aboriginal Business Award (in 2017), and Senate 150 Anniversary Medal (in 2018)

Chief Gibby commented “This tripartite agreement will facilitate the opportunity for Indigenous Peoples to grow, harvest and potentially sell their produce. A key component of Four Our Future’s mandate is to provide technologies and opportunities for our Indigenous Communities to have access to pure and healthy food to support the health and wellness of their people.”

Randy Minhas commented, “I am very excited to begin working with Chief Gibby, his team, and the BW GLOBAL team to help resolve one of the larger issues facing Indigenous peoples in Canada – food quality and food security. In November 2019, a Global BC article highlighted the results of a 10-year study on Indigenous diet and nutrition (<https://globalnews.ca/news/6136161/first-nations-food-insecurity-study/>). Among the findings, were some very disheartening statistics:

- 48% of First Nations family struggle to put food on the table;
- 82% of all Indigenous adults are either overweight or obese;
- Nearly 20% of Indigenous adults suffer from diabetes;
- Growing concern for juvenile diabetes in Indigenous Communities

Providing Indigenous communities with the ability to access clean, healthy food in an economical manner is a key factor in changing the above-mentioned stats. I believe this agreement with FOFIE, and the partnership with BW GLOBAL, is the first step in helping affect such change.”

President & Chief Designer of BW GLOBAL, Timothy Kendrick added, “Food security and food sovereignty for First Nations has been a critical issue for decades. While BW GLOBAL has worked on over forty indigenous food projects within Canada to date, we see the partnership with FOFIE, along with the technology from Affinor, as one of the most meaningful ways to help countless First Nations communities across the country. This partnership will help these communities develop greater self-sufficiency while providing a platform for deeper education, better health outcomes and intergenerational engagement – these will strengthen all members of these communities.”

About Four Our Future Indigenous Economics Corporation Ltd.

FOFIE is an Indigenous-owned corporation founded by Indigenous leaders in Canada. Four Our Future specializes in developing and implementing sustainably focused strategic plans, business plans and community economic development models. Four Our Future has developed the Indigenous Economics Lens© to guide their work. This lens focuses on generational wellness by providing the services as well as the technologies to care for the land and the people.

Their team identifies and addresses the dichotomy between Western-corporate business models and then develops more ‘holistic’ Indigenous/community development models. They draw from their collective experiences living, working and learning from over 300 of Canada’s 630+ Indigenous governments.
