NEWS RELEASE

ARCTURUS HIRES CONSULTANT TO PROVIDE CORPORATE SECRETARIAL AND REGULATORY SERVICES

September 23, 2016 – Vancouver, British Columbia – Arcturus Growthstar Technologies Inc. (the “Company” or “Arcturus”) (CSE: AGS) (OTC: AGSTF) is pleased to announce it has contracted with Ms. Belinda Tyldesley to provide professional corporate secretarial and regulatory compliance services for the Company. Ms. Tyldesley brings with her more than 15 years experience as a paralegal with law firms in Melbourne, London and Vancouver, which has helped her to gain an in-depth understanding of the dynamics of dealing with various regulatory and legal bodies. She has worked with numerous public companies trading on the TSX, TSX-V and CSE in the resource and technology sectors. Her services include corporate secretarial, governance and regulatory compliance services, overseeing capital pool companies' qualifying transactions, IPO's and diverse transactions in corporate environments.

“We are pleased that Belinda has agreed to join our team. Her experience working with technology companies such as Arcturus and her familiarity with the CSE’s regulatory requirements will be of great benefit to the Company,” states William Gildea, Chairman & CEO of Arcturus Growthstar Technologies Inc.

“I’m excited to be working with a rapidly-growing company and management team that offers such depth of experience and opportunity,” states Belinda Tyldesley.

For further information, contact William Gildea, Chairman & CEO, at 617.834.9467.

On behalf of the Board,

Arcturus Growthstar Technologies Inc.

William Gildea, Chairman & CEO

About Arcturus

The Company’s business model includes developing and acquiring technologies that will position it as a leader in the evolution of Controlled Environment Agriculture (CEA) for the global production of various types of plants. Arcturus provides scalable, indoor CEA systems that utilize minimal land, water and energy regardless of climate, location or time of year and are customized to grow an abundance of crops close to consumers, therefore minimizing food miles and its impact to the environment. The Company holds an exclusive, worldwide license to use a patented vertical farming technology that, when compared to traditional plant production methods, generate yields up to 10 times greater per square foot of land. The contained system provides many other benefits including *seed to sale security, scalability, consistency due to year-round production, cost control, product safety and purity by eliminating environmental variability.*

The Company is also in the business of designing and distributing LED lighting solutions utilizing the COB and MCOB technology. The Company is focused on delivering cost efficient lighting to North America via advanced e-commerce sites the Company owns and operates. LEDCanada.com, which caters to B2B customers is a supplier of the newest and highest demand LED solutions. The Company also owns and operates COBGrowlights.com, which caters to both large and small agriculture green houses and controlled cultivation centers.
