Name of CSE Issuer: Blueberries Medical Corp. (the "Company or "Issuer").

Trading Symbol: BBM

Number of Outstanding Listed Securities: 495,090,087

Date: **APRIL 2026**

Report on Business

1. Provide a general overview and discussion of the development of the Issuer's business and operations over the previous month. Where the Issuer was inactive disclose this fact.

Blueberries Medical Corp. ("Blueberries") continues to advance its strategy to become a high-quality, large-scale and highly efficient producer of naturally grown premium quality cannabis ingredients. The Company is positioning itself as a leading Latin American supplier of standardized medicinal-grade cannabis extracts, active pharmaceutical ingredients (APIs) and related products, with its core operations based in the Bogotá Savannah in central Colombia.

Blueberries remains focused on optimizing operational efficiency through cost reductions and disciplined capital allocation. Targeted investments are being made to expand production capacity, enhance manufacturing standards, and improve the quality of its transformation processes. The Company has refined its strategic focus by shifting from full vertical integration across the value chain to the specialized production of high-value, functional cannabis-derived ingredients. To accelerate access to GACP-certified biomass and flower for internal use and resale, Blueberries continues to operate under third-party cultivation agreements with established Colombian growers.

In April 2026, Blueberries confirmed two new THC orders from Peru, further evidencing growing demand from the Peruvian pharmaceutical channel and continued commercial traction in the market.

In parallel, Blueberries made positive progress toward finalizing a distribution agreement with one of the principal clients in its Peruvian pipeline. April activities were focused on advancing the commercial and operational terms of the arrangement, which is expected to help consolidate demand and support cost

competitiveness while preserving the Company's margin profile.

Taken together, these developments indicate continued momentum in the Peruvian pharmaceutical channel, reflected both in confirmed THC order flow and in the advancement of a strategically important distribution relationship. The Company believes these factors support the ongoing development of recurrent demand in Peru during 2026.

2. Provide a general overview and discussion of the activities of management.
See item #1
3. Describe and provide details of any new products or services developed or offered. For resource companies, provide details of new drilling, exploration or production programs and acquisitions of any new properties and attach any mineral or oil and gas or other reports required under Ontario securities law.
N/A
