

FOR IMMEDIATE RELEASE

**CANADIAN PALLADIUM RESUMES DRILLING ON TARGETS TO EXPAND
PALLADIUM RESOURCE AT EAST BULL**

Vancouver, British Columbia, June 2, 2020 – Canadian Palladium Resources Inc. (formerly 21C Metals Inc.) (the "Company") (CSE: BULL) (OTCQB: DCNNF) (FSE: DCR1) has recommenced its diamond drilling program on its East Bull Palladium Property, 90 kilometres west of Sudbury, Ontario. Prior to suspension of the program in light of COVID-19, hole EB-20-11 has been completed, and targets the east Valhalla Zone. Two more holes will be completed on the east before moving to the west end of the Valhalla Zone and the ~ 250 metre gap to the Garden Zone. There is only one historical (from 2000) diamond drill hole in the gap between the Valhalla Garden Zone and Garden Zone where surface sampling by Canadian Palladium has identified additional mineralization in this Palladium rich zone.

The Company has received preliminary interpretation data from the recently completed MT survey which is now being compiled for comparison to the airborne EM conductors. Rhodium results for the Palladium mineralized zones within holes EB-20-01 to 10 have been received and are currently being incorporated with additional precious and base metals to determine Palladium equivalent values.

A prospecting and sampling program on the 100% owed Agnew Lake Intrusion claims will commence in a week to evaluate its Palladium potential.

Mr. Garry Clark, P. Geo., of Clark Exploration Consulting, is the “Qualified Person” as defined in NI 43-101, who has reviewed and approved the technical content in this press release.

Wayne Tisdale commented, “Canadian Palladium is excited to get back to the exploration of East Bull. The program is fully funded and we look forward to positive results allowing us to continue to expand the resource at East Bull and explore promising zones.”

Reader Advisory

This news release contains certain "forward-looking information" within the meaning of applicable securities law. Forward-looking information is frequently characterized by words such as "plan", "expect", "project", "intend", "believe", "anticipate", "estimate" and other similar words, or statements that certain events or conditions "may" or "will" occur. In particular, forward-looking information in this press release includes, but is not limited to, statements with respect to the re-commencement of drilling and the anticipated drill program. Although we believe that the

expectations reflected in the forward-looking information are reasonable, there can be no assurance that such expectations will prove to be correct. We cannot guarantee future results, performance or achievements. Consequently, there is no representation that the actual results achieved will be the same, in whole or in part, as those set out in the forward-looking information.

Forward-looking information is based on the opinions and estimates of management at the date the statements are made, and are subject to a variety of risks and uncertainties and other factors that could cause actual events or results to differ materially from those anticipated in the forward-looking information. Some of the risks and other factors that could cause the results to differ materially from those expressed in the forward-looking information include, but are not limited to: general economic conditions in Canada and globally; industry conditions, including governmental regulation and environmental regulation; failure to obtain industry partner and other third party consents and approvals, if and when required; the availability of capital on acceptable terms; the need to obtain required approvals from regulatory authorities; stock market volatility; liabilities inherent in water disposal facility operations; competition for, among other things, skilled personnel and supplies; incorrect assessments of the value of acquisitions; geological, technical, processing and transportation problems; changes in tax laws and incentive programs; failure to realize the anticipated benefits of acquisitions and dispositions; and the other factors. Readers are cautioned that this list of risk factors should not be construed as exhaustive.

The forward-looking information contained in this news release is expressly qualified by this cautionary statement. We undertake no duty to update any of the forward-looking information to conform such information to actual results or to changes in our expectations except as otherwise required by applicable securities legislation. Readers are cautioned not to place undue reliance on forward-looking information.

Neither the Canadian Securities Exchange nor its Regulation Services Provider accepts responsibility for the adequacy or accuracy of this release.
