Management Commentary:

Revenue for the second quarter was \$9.4 million, an increase of 15% from Q1. The Nevada retail operations generated a record run-rate for the quarter, up 23% from the previous quarter. Gross Margin of \$4.8 million this quarter represented a 65% improvement from Q1. This was driven largely by higher sales, lower delivery costs as the business was able to resume in-store operations, and the substantial efficiency gains achieved in the Oregon operations.

Adjusted EBITDA¹ was \$3.0 million in the quarter – a 32% EBITDA Margin. In addition to strong revenues, the quarter benefited significantly from the cost reduction efforts over the last 12 months. Q2 SG&A expenses were down more than 50% from a year ago. The consolidation and streamlining of the Oregon operations resulted in this segment delivering its first positive adjusted EBITDA quarter.

Cash Flow from Operations of \$4.2 million is up 200% from the previous quarter. For the first six months, Cash Flow from Operations of \$5.6 million surpassed the amount generated for the previous fiscal year.

President and CEO, Sonny Newman: “C21 has achieved a critical milestone this quarter as evidenced by the significant cash flow generated and our positive earnings per share. Our focus and hard work over the last twelve months have paid off and we are now in a strong position to capitalize on the next phase of business growth. Our Nevada dispensaries continue to impress

with the record retail revenue achieved this quarter. We are confident in our plans to scale and replicate our highly successful operating model as we continue to advance through the process of finalizing our debt facility.”

C21’s Nevada operations remained one of the most profitable in the cannabis sector, with the segment delivering \$2.6 million in Net Income Before Tax in the quarter. The Nevada dispensaries generated a record \$8.5 million in revenue in Q2, a 23% increase from Q1. This includes July as the first month reporting over \$3 million in retail sales.

Subsequent to the quarter, the Company continued to pay down its debt, reducing the principal amount of its notes payable by an additional \$1.2 million, bringing the year-to-date total to \$4.8 million. On August 18th, C21 announced existing director, Bruce Macdonald, as non-Executive Chair of the Board (see corresponding release). During the month of August, the Nevada dispensaries generated their second consecutive month of sales over \$3 million.

In September, the wildfires damaged the outdoor farm in Oregon. Although the property was protected by a fire break, the plants experienced extreme heat and smoke damage. While the harvest will likely produce no saleable cannabis as flower, it is anticipated that value will be captured through extraction of the biomass, the amount of which is undetermined at this time. The biological assets were valued at \$288,446 as at July 31, 2020. The Company will recognize any loss related to the damaged crop during the three months ended October 31, 2020.
