Report on Business

1. Provide a general overview and discussion of the development of the Issuer's business and operations over the previous month. Where the Issuer was inactive disclose this fact.

The Company worked towards completion of the definitive financing agreement for The Physician's Choice CBD LLC investment. It is anticipated that the transaction will close in June 2019.

Established in 2018, PCCBD has developed a suite of nine full spectrum CBD from hemp products ranging from pain/inflammation management to sleep and wellness supplements. In its first quarter of sales ended January 2019, the company booked approximately \$150,000 in sales. The products are available for purchase at the PCCBD website and distributed through health care providers across the United States. The Physicians Choice CBD offers complete wholesale programs as well as a referral program compensating health care providers on purchases from codes provided to their patients.

Chemistree continued the development process for its 9.55-acre Desert Hot Springs land package. The design team is currently in the process of finalizing the engineering and building plans for two 64,000-square-foot greenhouses and 40,000-square-foot manufacturing and distribution facility for submission to the City of Desert Hot Springs. The Company expects City review to be completed by the third quarter of this year. The project continues to track on schedule, with completion targeted for the first quarter of 2020.

The Company wishes to inform shareholders that there are significant legal restrictions and regulations that govern the cannabis industry in both Canada and the United States.

Cannabis-related practices or activities are illegal under U.S. federal laws

The concepts of "medical cannabis" and "recreational cannabis" do not exist under U.S. federal law. The Federal Controlled Substances Act classifies "marihuana" as a Schedule I drug. Under U.S. federal law, a Schedule I drug or substance has a high potential for abuse, no accepted medical use in the United States, and a lack of safety for the use of the drug under medical supervision. As such, cannabis-related practices or activities, including without limitation, the manufacture, importation, possession, use or distribution of cannabis are illegal under U.S. federal law. Strict compliance with state laws with respect to cannabis will neither absolve the company of liability under U.S. federal law, nor will it provide a defence to any federal proceeding which may be brought against the company. Enforcement of U.S. federal laws will be a significant risk to the business of the company following the completion of the acquisitions, and any such proceedings brought against the company, may adversely affect the company's operations and financial performance.

Further information regarding the legal status of cannabis-related activities and associated risk factors, including, but not limited to, risk of enforcement actions, risks that third party service providers, such as banking or financial institutions, cease providing services to the company, and the risk that Company may not be able to distribute profits, if any, from U.S. operations up to the Company, will be included in the Form 2A listing statement to be filed with the CSE. The Company is comfortable with its near-term cash position and it is confident that the broad acceptance of cannabis-focused companies as exciting investment opportunities in Canada will expand to include companies like Chemistree focused on the far larger market available in those individual American states where cannabis is

medically and/or recreationally legal. The Company's investigation into these opportunities continues, and, should any one of these opportunities mature, Chemistree may be required to make certain filings and changes to the company's listing disclosure under the requirements of Canadian Securities Exchange policies.

As announced, the Company sees the cannabis industry as a source of focus. The reason for this is simply that marketing of cannabis companies, their products as well as information about the industry itself is in its infancy. Initially, the Pacific Northwest will be the Company's main target geography, but this is expected to expand from British Columbia and Washington state into California.

The Company wishes to inform shareholders that there are significant legal restrictions and regulations that govern the cannabis industry in both Canada and the United States. Chemistree will at all times abide by and respect these laws and regulations in all its future potential business engagements.
