Graphic design work would be a new offering from Chemistree and the service is currently in its infancy at the Company, having been requested repeatedly by existing and potential clients.

As announced, the Company sees the cannabis industry as a source of focus. The reason for this is simply that marketing of cannabis companies, their products as well as information about the industry itself is in its infancy. Initially, the Pacific Northwest will be the Company's main target geography, but this is expected to expand from British Columbia and Washington state into Oregon and eventually California.

The Company wishes to clearly state that it is not, or proposing to be, in the cannabis production business in the United States or Canada. It also wishes to inform shareholders that there are significant legal restrictions and regulations that govern the cannabis industry in both Canada and the United States. Chemistree will at all times abide by and respect these laws and regulations in all its future potential business engagements.

Cannabis-related Practices or Activities are Illegal Under U.S. Federal Laws

The concepts of “medical cannabis” and “retail cannabis” do not exist under U.S. federal law. The Federal Controlled Substances Act classifies “marihuana” as a Schedule I drug. Under U.S. federal law, a Schedule I drug or substance has a high potential for abuse, no accepted medical use in the United States, and a lack of safety for the use of the drug under medical supervision. As such, cannabis related practices or activities, including without limitation, the manufacture, importation, possession, use or distribution of cannabis are illegal under U.S. federal law. Strict compliance with state laws with respect to cannabis will neither absolve the Company of liability under U.S. federal law, nor will it provide a defense to any federal proceeding which may be brought against the Company. Any such proceedings brought against the Company may adversely affect the Company’s operations and financial performance.
