### MONTHLY PROGRESS REPORT

Name of Issuer: **TANTALEX RESOURCES CORPORATION** (the "Issuer").

Trading Symbol: **TTX**\_\_\_\_\_

Number of Outstanding Listed Securities: **116,986,206**\_\_\_\_\_

Date: **December 4, 2017**\_\_\_\_\_

**Report on Business for month ending November 30, 2017.**

#### **Report on Business**

1. Provide a general overview and discussion of the development of the Issuer's business and operations over the previous month. Where the Issuer was inactive disclose this fact.
  - **Received the final maps and a first interpretation of the airborne magnetic and radiometric surveys flown over the entire 920km<sup>2</sup> of its Buckell Lithium Project;**
  - **Tantalex held meetings to source financing and with strategic partners.**
2. Provide a general overview and discussion of the activities of management.

**Management was responsible for items described in 1, and continued general corporate matters.**

3. Describe and provide details of any new products or services developed or offered. For resource companies, provide details of new drilling, exploration or production programs and acquisitions of any new properties and attach any mineral or oil and gas or other reports required under Ontario securities law.

**Initial interpretation of the results had indicated that the major SW geologic trend which hosts the lithium bearing spodumene pegmatites known as Manono and Kitotolo adjacent to the east of the Buckell Property, extends on strike into and through the Buckell Property. Within this follow-up review, special attention has been paid to the anomaly on strike from the known Manono-Kitotolo pegmatites to the east of the Buckell property that was reported on in the previous press release.**

**The corrected and refined, higher resolution final maps permitted better definition of the anomaly on the K- (potassium) radiometric map. The anomaly is tabular in geometry and measures approximately 700m wide and 3.5km long oriented southwesterly.**

Radiometric survey anomalies are detectable only where the geology is exposed at the surface, either as outcrop or weathered surface soil and debris of former outcrop. The 3.5km strike length is therefore a minimum length of this feature. A study of the final magnetic vertical component map over the same area as the radiometric anomaly, revealed detail of the south-westerly continuation of the “fabric”, reflecting the regional strike of the sedimentary host rock belt that contains the Manono-Kitotolo pegmatites. Of particular importance, a narrower corridor reflected in the magnetic pattern containing this prime anomaly continues deep into the centre of the Buckell property and a wider corridor of potential interest encloses that.

4. Describe and provide details of any products or services that were discontinued. For resource companies, provide details of any drilling, exploration or production programs that have been amended or abandoned.

**None**

5. Describe any new business relationships entered into between the Issuer, the Issuer’s affiliates or third parties including contracts to supply products or services, joint venture agreements and licensing agreements etc. State whether the relationship is with a Related Person of the Issuer and provide details of the relationship.

**None.**

6. Describe the expiry or termination of any contracts or agreements between the Issuer, the Issuer’s affiliates or third parties or cancellation of any financing arrangement that have been previously announced.

**Not Applicable**

7. Describe any acquisitions by the Issuer or dispositions of the Issuer’s assets that occurred during the preceding month. Provide details of the nature of the assets acquired or disposed of and provide details of the consideration paid or payable together with a schedule of payments if applicable, and of any valuation. State how the consideration was determined and whether the acquisition was from or the disposition was to a Related Person of the Issuer and provide details of the relationship.

**Not Applicable**

8. Describe the acquisition of new customers or loss of customers.

**Not Applicable**

9. Describe any new developments or effects on intangible products such as brand names, circulation lists, copyrights, franchises, licenses, patents, software, subscription lists and trade-marks.

**Not Applicable**

10. Report on any employee hirings, terminations or lay-offs with details of anticipated length of lay-offs.

**Not Applicable**

11. Report on any labour disputes and resolutions of those disputes if applicable.

**Not Applicable**

12. Describe and provide details of legal proceedings to which the Issuer became a party, including the name of the court or agency, the date instituted, the principal parties to the proceedings, the nature of the claim, the amount claimed, if any, if the proceedings are being contested, and the present status of the proceedings.

**Not Applicable**

13. Provide details of any indebtedness incurred or repaid by the Issuer together with the terms of such indebtedness.

**Not Applicable**

14. Provide details of any securities issued and options or warrants granted.

**875,000 common shares were issued on the exercise of warrants for gross proceeds of \$48,125.**

15. Provide details of any loans to or by Related Persons.

**Not Applicable**

16. Provide details of any changes in directors, officers or committee members.

**No changes.**

17. Discuss any trends which are likely to impact the Issuer including trends in the Issuer's market(s) or political/regulatory trends.

**The Issuer's level of activity during a specific quarter are influenced by the availability of working capital, the availability of additional external financing, the time required to gather, analyze and report on geological data related to mineral properties, the results of the Company's prior activities on its properties and the amount required to advance its projects.**
