Name of Listed Issuer: Deveron UAS Corp (the "Issuer" or "Company").

Trading Symbol: DVR

Number of Outstanding Listed Securities: 23,633,650

Date: September 2017

This Monthly Progress Report must be posted before the opening of trading on the fifth trading day of each month. This report is not intended to replace the Issuer's obligation to separately report material information forthwith upon the information becoming known to management or to post the forms required by Exchange Policies. If material information became known and was reported during the preceding month to which this report relates, this report should refer to the material information, the news release date and the posting date on the Exchange website.

This report is intended to keep investors and the market informed of the Issuer's ongoing business and management activities that occurred during the preceding month. Do not discuss goals or future plans unless they have crystallized to the point that they are "material information" as defined in the Policies. The discussion in this report must be factual, balanced and non-promotional.

General Instructions

The answers to the items must be in narrative form. State when the answer to any item is negative or not applicable to the Issuer. The title to each item must precede the answer.
- (b) The term "Issuer" includes the Issuer and any of its subsidiaries.
- (c) Terms used and not defined in this form are defined or interpreted in Policy 1 – Interpretation and General Provisions.

Report on Business

1. Provide a general overview and discussion of the development of the Issuer's business and operations over the previous month. Where the Issuer was inactive disclose this fact.

During the month of September 2017, the Company continued to develop the drone service business and its benefits for growers as it applies to agriculture in Ontario, areas of western Canada and select opportunities in the United States.

The Issuer report that a trial program of drone-data collection for one of Canada's largest and most progressive agricultural producers has commenced. The drone data collected by Deveron, specifically focused on higher-value crops, will be used to support its customer's research opportunities in western and Atlantic Canada. Deveron is providing various layers of data, including thermal, to help drive more informed decisions in crop production.

The Company continues to expand its on-demand data solutions to support the decision-making of companies that are integrating drone technology in precision agriculture.

2. Provide a general overview and discussion of the activities of management.

During the month of September 2017, management focused on developing the drone service business through reaching out to current and future channel partners for future drone data sales. These include leading agri-retailers, crop protection, seed and equipment companies.

3. Describe and provide details of any new products or services developed or offered. For resource companies, provide details of new drilling, exploration or production programs and acquisitions of any new properties and attach any mineral or oil and gas or other reports required under Ontario securities law.
