1.0 GLOSSARY OF TERMS

Unless otherwise indicated, the following terms used in this Listing Statement and the Schedules hereto shall have the meanings ascribed to them as set forth below:

“**BCBCA**” means the *Business Corporations Act* (British Columbia), as amended, including all regulations promulgated thereunder;

“**Belgravia Hartford**” means Belgravia Hartford Capital Inc. (“**Belgravia**” or the “**Company**”)

“**Belgravia Hartford Gold Assets**” means Belgravia Hartford Gold Assets Corp., a wholly-owned subsidiary of Belgravia Hartford formerly Intercontinental Potash Corp. (“**ICP Canada**”);

“**Belgravia Hartford Real Estates**” means Belgravia Hartford Real Estates Corp., a wholly-owned subsidiary of Belgravia Hartford, formerly Trigon Exploration Utah Inc.

“**Cartesian**” means Cartesian Capital Group, LLC;

“**Company**” or “**BLGV**” or “**Belgravia Hartford**” or “**Belgravia**” means Belgravia Hartford Capital Inc.;

“**Control Person**” means any Person or Company that holds or is one of a combination of Persons or Companies that holds a sufficient number of any of the securities of an Issuer so as to affect materially the control of that Issuer, or that holds more than 20% of the outstanding voting securities of an Issuer except where there is evidence showing that the holder of those securities does not materially affect the control of BLGV;

“**CSE**” means the Canadian Securities Exchange Inc.;

“**Definitive Agreement**” means the agreement dated September 11, 2017 governing the sale of the Company’s interest in ICP(USA);

“**ICP Canada**” means Intercontinental Potash Corp., a wholly-owned subsidiary of Belgravia Hartford renamed Belgravia Hartford Gold Assets Corp.;

“**ICP(USA)**” means Intercontinental Potash Corp. (USA) renamed PolyNatura;

“**Listing Statement**” means this Listing Statement of the Corporation including the Appendices hereto;

“**Ochoa project**” means the polyhalite mine over which Belgravia holds a Water Royalty and Mining Royalty and is operated by PolyNatura;

“**Person**” means an individual, partnership, unincorporated association, unincorporated syndicate, unincorporated organization, trust, trustee, executor, administrator or other legal representative;

“**Personal Information**” means any information about an identifiable individual;

“**PolyNatura**” means Ochoa project mine operator, formerly ICP(USA).

Words importing the singular number only include the plural and vice versa, and words importing any gender include all genders.

SPECIAL NOTE REGARDING FORWARD LOOKING STATEMENTS

This Listing Statement and the documents incorporated by reference herein contain or may contain certain statements or disclosures concerning BLGV that constitute forward-looking information under applicable securities laws. All statements and disclosures, other than those of historical fact, about possible events, conditions, results of operations, activities, events, outcomes, results or developments based on assumptions about future economic conditions and courses of action that BLGV anticipates or expects may or will occur in the future (in whole or in part) should be considered forward-looking information. In some cases, forward-looking information can be identified by terms such as “anticipate”, “continue”, “estimate”, “expect”, “may”, “will”, “project”, “should” or “believe”.

The forward-looking statements included in this Listing Statement expressly qualified by this cautionary statement and are made as of the date of this Listing Statement. BLGV undertakes no obligation to publicly update or revise any forward-looking statements, except as required by applicable securities laws.

2.0 CORPORATE STRUCTURE

2.1 Corporate Name

The full corporate name of the issuer is Belgravia Hartford Capital Inc. (the “Company” or “BLGV”). The head office and registered office of Belgravia are located at #3-3185 Via Centrale, Kelowna, British Columbia, V1V 2A7.

2.2 Incorporation

The Company was incorporated under the *Canada Business Corporation Act* (the “CBCA”) on November 8, 2002. On December 20, 2019, the Company changed its name to Belgravia Hartford Capital Inc. and continued into the Province of British Columbia under the *Business Corporations Act* (British Columbia) (the “BCBCA”).

2.3 Inter-corporate Relationships

The following chart illustrates the Company’s intercorporate relationships and each of its subsidiaries. All subsidiaries are wholly-owned by the Company either directly or indirectly.

Name of subsidiary	Place of incorporation	Percentage ownership
Belgravia Hartford Gold Asset Corp. (formerly Intercontinental Potash Corp.)	Canada	100%
Belgravia Hartford Estates Corp. (formerly Trigon Exploration Utah Inc.)	USA	100%

2.4 Fundamental Change

The Company is not requalifying for listing following a fundamental change.

2.5 Non-Corporate Issuer

This section is not applicable to the Company.

3.0 GENERAL DEVELOPMENT OF THE BUSINESS

3.1 General Business Development of the Company

The Company is focused on passive as well as hands-on subsidiary investments. Belgravia is focused on its three core business divisions: Incubation, Investments, and Royalty & Management Services. Belgravia's Incubation division will develop new companies in specific sectors. Belgravia Holdings, the Investments division, provides merchant banking services and invests in a portfolio of private and public companies with a focus on mining and resources, technology, and healthcare. The Royalty and Management Services division has developed a targeted royalty and fee income model and will provide services to support the development of early-stage companies, while taking steps to ensure it receives the water royalties owned by the Company.

Incubation Division

The Incubator division provides capital to support the development of early stage companies in the biotech/healthcare, technology, mining and resource and real estate sectors.

The Company will focus on developing various passive and active investment opportunities in publicly-traded and private companies that are expected to go public in the near-term in the resource exploration and development, and technology areas with the intention of expanding into artificial intelligence, information technology, and other synergistic market sectors.

Investments Division

Belgravia Holdings, the Investments division, invests in various private and public companies with a focus on value.

The Company made investments in private companies and publicly traded companies listed on either the TSX Venture Exchange (TSX-V) or the Canadian Securities Exchange (CSE). These investments are in the resource exploration and technology sectors.

Royalty and Management Services Division

Belgravia Royalty and Management Services has a royalty and fee income model. The cash and investment asset base provides capital to support international expansion on a selective basis.

Water Royalty

- PolyNatura Ochoa polyhalite project
- 75% of gross revenue from the sale of water or water rights
- Royalty proceeds of up to US\$12.2 million

The initial royalty will be composed of a water royalty equal to seventy-five per cent (75%) of proceeds from the sale of Ochoa water or water rights to a maximum value of US\$12.2M. The Cartesian Group of Companies and PolyNatura has agreed to use commercially best efforts to develop and sell the water resources in order to realize the full value of the resource.

The water supply will be sourced from the Capitan Reef aquifer, located in the Delaware basin, a subsidiary basin of the Permian basin. Water wells WS-01 and WS-02 containing impure water (permitted for use by oil and gas (O&G) companies for fracking), have been drilled and are available for use; located approximately 13 miles northeast of the Ochoa Polyhalite mine site.

On December 15, 2020, the New Mexico State Land Office issued an order halting commercial sale of freshwater for use by O&G companies. Freshwater from state land will no longer be sold to the oil and gas industry for fossil fuel development in New Mexico. Much of New Mexico's O&G drilling uses [hydraulic fracturing, or fracking](#), which involves pumping a mixture of water, sand and chemicals

underground to break up rock formations and extract crude oil and natural gas. Water use data reported by companies showed about 14 billion gallons of water were used in oil and gas production in New Mexico in 2019. (Source: Carlsbad Current Argus, Dec. 18, 2020).

Mining Royalty

- PolyNatura Ochoa project
- Ochoa project mine operator obligated to pay 1% NSR royalty on all production until the total US\$12.2 million has been paid in full

If the Water Royalty does not generate the full value of US\$12.2M, the Company will retain a mining royalty sufficient to realize the remaining royalty obligation. Under the Royalty Agreement, the Company is entitled to an undivided one percent (1%) of gross sales of minerals sold from the PolyNatura Ochoa Polyhalite mine.

In January 2019, PolyNatura has entered into an off-take agreement with Nitron Group LLC, a national fertilizer distribution company, to purchase 75% of its production (about 1.5 million tons annually at peak production).

Management Services

Belgravia provides business management and strategic capital advisory services to companies in early stage of development. Small new ventures lack managerial experience, internal processes and procedures. Belgravia provides business planning and corporate organizational structuring functions at a fraction of the cost of full-time employees and include:

- Financial, budgetary and cost accounting
- Corporate governance and related legal administration
- Financing strategy and capital markets expertise

The Company will continue to investigate new opportunities that have the potential to enhance both short term and long-term cash position. Belgravia may also make small investments in various private and public companies from time to time.

3.2 Significant Disposition

The Company has not made any significant dispositions since the previously filed Listing Statement.

4.0 NARRATIVE DESCRIPTION OF THE BUSINESS

4.1 General Business of Belgravia Hartford

This is a holding company which holds private and publicly-traded investments in various industries throughout North America.

Business Objectives

The Company consistently monitors investment opportunities focused on, but not limited to, artificial intelligence, information technology, healthcare, and mining resource exploration/development.

The growing business model includes Belgravia Hartford Estates Corp. authorized to do business in the States of Florida and Utah. This subsidiary will seek selective opportunities in the real estate market in the USA with expansion to further US States to be considered and Belgravia Hartford Gold Assets Corp., a Canadian company involved in resource exploration and mine development.

The Company is working with Cartesian Capital to establish a water distribution business in the state of New Mexico that will enable the Company to realize on its Water Royalty described in section 3.1. Water is in great demand by oil and gas companies in east New Mexico and West Texas for fracking. The water royalty (up to \$12.2USD) will be used to further fund further acquisitions and investments in secondary businesses targeted to bring revenue to the Company.

Operational Milestones

The Company has made 14 investments in the desired sectors of information technology, mining and natural resources.

BLGV will continue working to establish a water distribution business in the state of New Mexico. BLGV retained the Water Royalty in the Ochoa Project. Water is in great demand by the fracturing business of oil and gas companies in east New Mexico and West Texas. Water wells WS-01 and WS-02 have been drilled and are available for use.

The Company will also continue to seek out synergistic sectors in which to expand its business through a formally developed investment strategy.

Available Funds

The following outlines the funds available to the Company:

As at December 31, 2020, the Company had working capital of \$15,339,980.

Principal Products and Market

The Company is an investment company and therefore does not market any products.

Specialized Knowledge

The Company has employees, directors and consultants with knowledge of finance, investing, and the capital markets and through their networks has access to various investment and exit opportunities. Additional consultants and advisors will be retained as needed.

Raw Materials

The Company does not currently produce any products and does not use raw materials.

Seasonality

While the capital markets exhibit some seasonality with respect to liquidity and valuation of public and privately traded companies and access to capital, these are not always predictable in the future.

Employees

The Company currently has 5 employees.

Geographic Location

Administrative and management operations will be based out of Canada. Initially, the focus will be on North American markets but the Company may choose to expand into other markets where it would be legal and economic to do so.

Competition

Various investment companies and other public companies are competing for investors, capital, and investment opportunities. The Company will utilize its team to obtain capital and identify investment opportunities that it believes will allow it to achieve attractive returns.

5.0 SELECTED CONSOLIDATED FINANCIAL INFORMATION

During March 2021, the Company completed a share consolidation on the basis of one (1) post-Consolidation Share for every ten (10) pre-Consolidation Shares (the “Consolidation”). All share and per share amounts have been restated to reflect the consolidation.

Fully diluted income (loss) per share	\$ (0.03)	\$ 0.02	\$ (0.02)	\$ 0.03

5.3 Dividends

There are no restrictions on the Company's ability to pay dividends. The Company has never declared or paid cash dividends on the Common Shares. Any future dividend payment will be made at the discretion of the board of directors, and will depend on the Company's financial needs to fund its research projects and its future growth, and any other factor that the board deems necessary to consider in the circumstances.

5.4 Foreign GAAP

The financial statements for the Company are prepared in accordance with IFRS.

6.0 MANAGEMENT'S DISCUSSION AND ANALYSIS

6.1 – 6.14 Annual MD&A

Please see the Company's Management Discussion and Analysis for the year ended December 31, 2020 as filed on SEDAR on April 21, 2021 and are attached as [Schedule "A"](#).

6.15 – 6.21 Interim MD&A

Please see the Company's Management Discussion and Analysis for the nine months ended September 30, 2020 as filed on SEDAR on November 25, 2020 and are attached as [Schedule "B"](#).

7.0 MARKET FOR SECURITIES

7.1 Listings

N/A

8.0 CONSOLIDATED CAPITALIZATION

8.1 Consolidated Capitalization

The following table sets forth the capitalization of the Company as of the date hereof:

Security	Authorized	Outstanding as at the date hereof
Common Shares	Unlimited	39,829,248
Stock Options	3,990,000	3,990,000

9.0 STOCK OPTIONS TO PURCHASE SECURITIES

There are currently 3,990,000 stock options outstanding under the Plan, and nil options are available to be granted under the Plan. The details of the stock options granted under the Plan that remain outstanding are as follows:

Name and Position	Common Shares Under Option	Exercise Price Range (per Common Share)	Expiry Date
Former Directors	2,500,000	\$0.80	June 6, 2021
Directors and officers	590,000	\$0.50	October 1, 2022
Directors and officers	3,150,000	\$0.50	October 1, 2025
TOTAL	3,990,000		

10.0 DESCRIPTION OF SECURITIES

10.1 General

The Company is authorized to issue an unlimited number of Common Shares.

On March 5, 2021 the Company announced that the Company's common shares ("Shares") would be consolidated on the basis of one (1) post-Consolidation Share for every ten (10) pre-Consolidation Shares (the "Consolidation"). No fractional Shares were issued pursuant to the Consolidation. Any fractional Shares equal to or greater than one-half resulting from the Consolidation were rounded up to the next whole number of Shares, and any fractional Shares less than one-half resulting from the Consolidation were rounded down to the nearest whole number. This reduced the number of issued and outstanding common shares of the company from 401,792,516 to 40,179,248 effective March 8, 2021.

On February 23, 2021, the Company initiated its Normal Course Issuer Bid ("NCIB") to repurchase up to 2,008,963 post-Consolidation shares, representing 5% of the issued and outstanding common shares. As of March 31, 2021, the Company has purchased a total of 350,000 common shares for a total of \$73,810 at an average price of \$0.21/share under the NCIB. The NCIB will terminate on the earlier of February 23, 2022 and the date on which the maximum number of Common Shares that can be acquired pursuant to the NCIB have been purchased. Any common shares purchased pursuant to the NCIB will be cancelled by the Company.

As at April 21, 2021 there were 39,829,248 issued and outstanding Common Shares. Holders of Common Shares are entitled to receive notice of any meetings of shareholders of the Company, and to attend and to cast one vote per Common Share held at all such meetings. Holders of Common Shares do not have cumulative voting rights with respect to the election of directors and, accordingly, holders of a majority of the Common Shares entitled to vote in any election of directors may elect all directors standing for election. Holders of Common Shares are entitled to receive on a pro rata basis such dividends, if any, as and when declared by the Company's board of directors at its discretion from funds legally available therefor, and upon the liquidation, dissolution or winding up of the Company are entitled to receive on a pro rata basis the net assets of the Company after payment of debts and other liabilities, in each case subject to the rights, privileges, restrictions and conditions attaching to any other series or class of shares ranking senior in priority to or on a pro rata basis with the holders of Common Shares with respect to dividends or liquidation. The Common Shares do not carry any pre-emptive, subscription, redemption or conversion rights, nor do they contain any sinking or purchase fund provisions.

10.2 - 10.5 Miscellaneous Securities Provisions

None of the matters set out in Sections 10.2 to 10.5 of CSE Form 2A are applicable to the Company's securities.

10.6 Other Attributes

N/A

During the twelve months period ended December 31, 2020, the Company issued nil common shares.

10.8 Stock Exchange Price

The Common Shares of the Issuer are listed on the CSE under the symbol "BLGV". In March 2021, the Company completed a share consolidation 10:1; all share and per share amounts have been restated to reflect the consolidation. The following table sets forth the high, low and closing prices and volumes of the Common Shares as traded on the CSE for the periods indicated:

Period	High	Low	Close	Total Volume
Quarter ended December 31, 2020	\$0.30	\$0.15	\$0.25	4,881,368

Period	High	Low	Close	Total Volume
Quarter ended September 30, 2020	\$0.45	\$0.10	\$0.30	8,057,706
Quarter ended June 30, 2020	\$0.15	\$0.05	\$0.10	3,612,389
Quarter ended March 31, 2020	\$0.15	\$0.05	\$0.05	2,149,196
Quarter ended December 31, 2019	\$0.20	\$0.05	\$0.10	1,841,769
Quarter ended September 30, 2019	\$0.40	\$0.15	\$0.15	4,110,640
Quarter ended June 30, 2019	\$0.35	\$0.20	\$0.20	2,857,103
Quarter ended March 31, 2019	\$0.40	\$0.15	\$0.25	5,239,168

11.0 ESCROWED SECURITIES

11.1 Escrow of Principal's Securities

No Shares are currently subject to escrow.

12.0 PRINCIPAL SHAREHOLDERS

To the knowledge of the directors and officers of BLGV, as of the date hereof, no shareholder beneficially owns or exercises control or direction over BLGV Shares carrying more than 10% of the votes attached to such shares.

13.0 DIRECTORS AND OFFICERS

13.1 – 13.5 Directors and Officers

The names, positions or offices held with the Company, province/state and country of residence of each director and executive officer of the Company as at April 21, 2021 are set forth below. In addition, principal occupations of each of the Company's directors and executive officers within the five preceding years.

As of April 21, 2021, directors and executive officers of the Company, as a group, beneficially owned, directly or indirectly, or exercised control or direction over 2,505,045 common shares of the Company, representing approximately 6.29% of all issued and outstanding common shares.

Each of the directors of the Company will hold office until the next annual meeting of shareholders and until such director's successor is elected and qualified, or until the director's earlier death, resignation or removal. Typically, on an annual basis after the annual general meeting of the Company, the directors pass resolutions to appoint officers and committees.

- (4) Chair of the Nominating, Governance and Compensation Committee.

13.6 Corporate Cease Trade Orders or Bankruptcies

No director or executive officer of the Company is, as of the date hereof, or was within ten years before the date hereof, a director, chief executive officer or chief financial officer of any company (including the Company), that:

- (a) was subject to a cease trade order, an order similar to a cease trade order, or an order that denied the relevant company access to any exemption under securities legislation, that was in effect for a period of more than 30 consecutive days that was issued while the director or executive officer was acting in the capacity as director, chief executive officer or chief financial officer; or
- (b) was subject to a cease trade order, an order similar to a cease trade order, or an order that denied the relevant company access to any exemption under securities legislation, that was in effect for a period of more than 30 consecutive days, that was issued after the director or executive officer ceased to be a director, chief executive officer or chief financial officer and which resulted from an event that occurred while that person was acting in the capacity as director, chief executive officer or chief financial officer.

13.7 Penalties and Sanctions

No director or executive officer of the Company, or a shareholder holding a sufficient number of securities of the Company to affect material the control of the Company, has been subject to:

- (a) any penalties or sanctions imposed by a court relating to securities legislation or by a securities regulatory authority or has entered into a settlement agreement with a securities regulatory authority; or
- (b) any other penalties or sanctions imposed by a court or regulatory body that would likely be considered important to a reasonable investor in making an investment decision.

13.8 Personal Bankruptcies

No director or executive officer of the Company, or a shareholder holding a sufficient number of securities of the Company to affect materially the control of the Company:

- (a) is, as of the date hereof, or has been within the ten years before the date hereof, a director or executive officer of any company (including the Company) that, while that person was acting in that capacity, or within a year of that person ceasing to act in that capacity, became bankrupt, made a proposal under any legislation relating to bankruptcy or insolvency or was subject to or instituted any proceedings, arrangement or compromise with creditors or had a receiver, receiver manager or trustee appointed to hold its assets; or
- (b) has, within the ten years before the date hereof, become bankrupt, made a proposal under any legislation relating to bankruptcy or insolvency, or become subject to or instituted any proceedings, arrangement or compromise with creditors, or had a receiver, receiver manager or trustee appointed to hold the assets of the director, executive officer or shareholder.

13.9 Conflicts of Interest

Circumstances may arise where officers or members of the board of directors of the Company are directors or officers of corporations that are in competition to the interests of the Company. No assurances can be given that opportunities identified by such board members will be provided to the Company. Pursuant to Division 3 of the BCBCA, directors who have a disclosable interest in a proposed transaction upon which the board of directors is voting are required to disclose their interests and refrain from voting on the transaction. See also “Risk Factors – Potential Conflicts of Interest.”

13.10 Other Reporting Issuer Experience

The following directors, officers or promoters of the BLGV or directors or officers of the BLGV are, or within the past five (5) years have been, directors, officers or promoters of the following reporting issuers:

Name	Issuer
John Stubbs	Lydian International Limited (2016-2018)
Honourable Pierre Pettigrew P.C.	Black Iron Inc. (since 2010) Sulliden Mining Capital Ltd. (2014-2020) Blue Sky Energy Inc. (2017-2020) Africa Gold Group (since 2017) Troilus Gold Corp (since 2017)\

MEHDI AZODI	PRESIDENT & CHIEF EXECUTIVE OFFICER, DIRECTOR
	<p>Mr. Mehdi Azodi is the President and CEO of Belgravia Hartford Capital Inc. Mr. Azodi has over 20 years' capital markets experience, including acting in senior executive and advisory roles on equity and debt offerings as well as acquisition mandates at various companies listed on the TSX/NYSE prior to joining Belgravia. As President and Chief Executive Officer, Mr. Azodi is responsible for leadership and overall management of the Company, including developing and executing on current and long-term objectives, fostering a high-performance culture and acting as a key corporate representative in dealing with stakeholders.</p> <p>Mr. Azodi serves as a member of the Nominating, Governance and Compensation Committee.</p>
KNUTE H. LEE, JR.	INDEPENDENT DIRECTOR
	<p>Mr. Lee has been a member of the American Association of Professional Landmen (AAPL) Board of Directors for over 35 years. He has earned the AAPL Certified Professional Landman (CPL) designation and served as President of AAPL in 2006. He has worked extensively in the oil and gas and mining industries, serving as a director of the Independent Petroleum Association of New Mexico and Trustee at the Mountain States Legal Foundation. Mr. Lee is owner of KHL Inc., an oil and gas company, and as a Principal in Westward Energy. Mr. Lee has also served on numerous boards of directors, including Santa Fe Trust, Zia Title, New Mexico Fellowship of Christian Athletes, Hoffmantown Church and the New Mexico Baptist Foundation.</p> <p>Mr. Lee is the Chair of the Nominating, Governance and Compensation Committee.</p>

HONOURABLE PIERRE PETTIGREW, P.C. | **INDEPENDENT DIRECTOR**

Pierre Pettigrew holds a Bachelor of Arts in Philosophy from the University of Quebec at Trois-Rivieres and a Masters in Philosophy in International Relations from Balliol College at Oxford University. He is the former Minister of International Cooperation, of Human Resources Development, of International Trade, of Health of Intergovernmental Affairs, of Official Languages and of Foreign Affairs in Canada. The Honourable Pierre Pettigrew is currently the Executive Advisor of Deloitte & Touche LLP, Canada since 2006. Pierre has also been appointed Special Envoy of the Government of Canada for the Canada-European Union Comprehensive economic and Trade agreement (CETA). In July 2019, The Honourable Pierre Pettigrew was appointed Chairman of the Board of Asia Pacific Foundation of Canada.

Hon. Pettigrew serves as a member of the Audit, Disclosure and Finance Committee and the Nominating, Governance and Compensation Committee.

ERNEST ANGELO, JR. | **INDEPENDENT DIRECTOR**

Mr. Angelo holds a Bachelor of Science in Petroleum Engineering from Louisiana State University. He is a member of the Society of Petroleum Engineers and the Texas Society of Professional Engineers. Mr. Angelo is currently a Managing Partner of Discovery Exploration, an oil and gas investment company. Mr. Angelo has a distinguished public service career and was appointed to the National Petroleum Council. Mr. Angelo was Permian Basin Engineer of the Year in 1973 and received the National Public Service Award from the Society of Petroleum Engineers in 1996. Mr. Angelo has received the John Ben Sheppard Leadership Foundation Texas Leader Award. He was elected Mayor of Midland, Texas in 1972 and served four terms. He was appointed by Governor George W. Bush to the Texas Parks and Wildlife Commission in March 1996 and served as Vice Chairman of the Commission for nearly three years. Mr. Angelo was appointed by Governor Rick Perry to the Public Safety Commission in January 2005 and subsequently became Chairman of the Commission. He retired from the Public Safety Committee in 2008.

Mr. Angelo serves as a member of the Audit, Disclosure and Finance Committee and the Nominating, Governance and Compensation Committee.

PAUL KANIA | **CHIEF FINANCIAL OFFICER**

Mr. Kania is a financial professional with over 13 years' experience providing CFO, controller and financial reporting and consulting services to public and privately held businesses in various sectors in both Canada and the U.S. In addition to his Certified Public Accountant (CPA) designation, he holds an HBA, Economics and Philosophy from the University of Toronto, and an Accounting and Finance certificate from Ryerson University.

DEENA SIBLOCK

CHIEF OPERATING OFFICER AND DIRECTOR

Ms. Deena Siblock has served as Chief Operating Officer and Director of Belgravia Hartford Capital Inc., since July 2020, appointed Director in May 2020 and previously served as Vice President, Corporate Affairs, since July 2016. She also serves as Vice President, Corporate Development of Nexus Gold Corp. since October 2020. Ms. Siblock brings over 20 years of experience and has distinguished herself as a leader in corporate governance, communications, and risk management, demonstrating exceptional commitment and passion throughout her career.

Ms. Siblock has previously held various roles in the mining sector with copper, aluminum, molybdenum, and potash mining and exploration companies and has acted as corporate secretary for several private and public companies.

Ms. Siblock will serve as a member of the Nominating, Governance and Compensation Committee.

15.0 EXECUTIVE COMPENSATION

15.1 Compensation of Executive Officers

Please see attached as [Schedule “C”](#).

16.0 INDEBTEDNESS OF DIRECTORS AND EXECUTIVE OFFICERS

No director nor executive officer of the Company is indebted to the Company.

17.0 RISK FACTORS

17.1 Risk Factors relating to its business

The following discussion summarizes the principal risk factors that apply to the Company’s business and that may have a material adverse effect on its business, financial condition and results of operations, or the trading price of the Common Shares.

COVID-19 (Coronavirus) Risk

On March 11, 2020 the World Health Organization (WHO) declared COVID-19 (Coronavirus) outbreak as a “pandemic”, namely, the worldwide spread of a new disease. The Government of Ontario [announced](#) on March 17, 2020 that it made an order declaring a state of emergency in response to coronavirus (COVID-19) (the “**Government Order**”). All provinces in Canada have now declared a state of emergency and/or state of public health emergency. On March 31, 2020 the Premier of Ontario announced that an order was made that all schools remain closed through to the end of April and most recently advised the province’s public schools will not be reopening on May 4, 2020 amid the coronavirus pandemic. Further COVID-19 measures are expected to last until July 2020.

The outbreak and ensuing government restrictions raise corporate governance concerns and come with inherent commercial and operational risks due to potential disruptions to investee companies’ supply

chains, instances of high absenteeism, and/or travel risks. These effects are exacerbated now that the WHO raised its classification of the coronavirus to “pandemic” level. With three of the Company’s directors currently residing outside of Canada, in the short term, the Company has decided to hold all board and committee meetings via telephone conference.

Ever-expanding governmental restrictions on travel, movement, and large gatherings have resulted in significant business interruptions and widespread event and travel cancellations, with a particularly salient impact on the stock markets and the Company’s carrying values in investee companies in the mining resource and other sectors, resulting in a detrimental effect to the performance of Belgravia’s stock liquidity and price, and ability to engage in management services. Further, there is no assurance that the ripple effect of COVID-19 will not continue to affect the performance of Belgravia for a considerable period of time in the future.

Stage of Development

The Company has a limited history of operations and no material earnings to date and there can be no assurance that its business will be successful or profitable.

No History of Operations

The Company has sold its interest in the Ochoa Project and is moving to diversify its business, there can be no guarantee that the proposed business model will be successful or will generate revenue.

Contingent Payments

Pursuant to the terms of the Definitive Agreement with respect to the sale of the Ochoa Project, USD\$12.2 million is to be paid to the Company by way of Royalties generated on the sale of water and mineral resources on the PolyNatura Ochoa Project. There can be no guarantee that the water and mineral resources on the PolyNatura Ochoa project will ever be monetized which will limit the Company’s available capital.

Acquisition and Integration Risks

As part of its business strategy, Belgravia Hartford has sought and will continue to seek new development opportunities. In pursuit of such opportunities, we may fail to select appropriate acquisition candidates or negotiate acceptable arrangements, including arrangements to finance acquisitions or integrate the acquired businesses and their personnel into Belgravia Hartford. The Company cannot assure that it can complete any acquisition nor business arrangement that it pursues, or is pursuing, on favourable terms, if at all, or that any acquisition or business arrangement completed will ultimately benefit its business. Such acquisitions may be significant in size, may change the scale of the Company’s business and may expose the Company to new geographic, political, operating, or financial risks. Further, any acquisition the Company makes will require a significant amount of time and attention of the Belgravia Hartford management. In addition, the Company may need additional capital to finance an acquisition. Debt financing related to any acquisition may expose the Company to the risks related to increased leverage, while equity financing may cause existing shareholders to suffer dilution. There can be no assurance that any businesses or assets acquired in the future will prove to be profitable or that the Company will identify all potential liabilities during the course of due diligence. Any of these factors could have a material adverse effect on the Company’s business, expansion, and financial condition.

Research and Development Activities

There is no assurance that the results of the Company’s research and product development activities will be successful. The Company may abandon or modify its research and/or development efforts for many reasons including, but not limited to, changes in corporate business strategy, competition, lack of capital resources, inability to obtain necessary licenses or find partners with licenses necessary to do the remaining research and development work, unfavourable changes to regulation, negative changes in consumer attitudes towards the Company’s products being developed, problems obtaining its own intellectual property or licenses

necessary to produce its products, or unfavourable results of any research or development or clinical trial activities undertaken (i.e. the product does not appear to have the efficacy necessary to treat the condition).

Licenses, Patents and Proprietary Rights

The Company's success could depend on its ability to protect its intellectual property, including trade secrets, and continue its operations without infringing the proprietary rights of third parties and without having its own rights infringed.

Investment Risk

Investment risk is the level of uncertainty that any particular financial investment's value will achieve expected returns as a result of changes in market conditions. Those changes may be caused by factors specific to the individual investment or factors affecting all investments traded in the market. Investment risk includes the risk that the fair value or future cash flows of a financial investment will fluctuate because of changes in the market interest rates. Other aspects of investment risk include the risk of unexpected loss arising if a counterpart, with which the Company has entered into transactions, fails to meet its contractual obligations or the risk that the Company has entered into an investment that cannot be closed out quickly. Such factors that affect investment risk are outside the Company's control, and the Company limits investment risk by limiting its investment exposure and being selective of investments.

Joint Ventures

The Company is pursuing and may enter into business arrangements or joint ventures in the future with third parties. Belgravia Hartford's interest in any future partnership or joint venture is subject to the risks normally associated with joint ventures including disagreement with joint venture partners on the management of the venture properties and inability to exert influence over certain strategic decisions made in respect of joint venture properties; inability of joint venture partners to meet their obligations to the joint venture or third parties; and litigation between joint venture partners regarding joint venture matters. The existence or occurrence of one or more of these circumstances or events could have a material adverse impact on the Company's profitability or the viability of its interests held through joint ventures, which could have a material adverse impact on the Company's finance cash flows, earnings, and financial condition.

Portfolio Exposure

Given the nature of the Company's proposed business model, its results of operations and financial condition will be at least partially dependent upon the value of the shares of entities in which it has an interest. Initially, the Company's activities will be focused in only a few sectors. There are various factors that could have a negative impact on the Company's performance. Investments made in other entities with a limited history of operations may never generate positive cash flow or any return for the Company or it may take much longer than anticipated for the business to develop. This can create uncertainty around the timing and amount of revenue that can be generated from entities in which the Company has an interest.

Illiquid Securities

The Company may acquire minority interests in private companies. Investments in private companies cannot be resold without ensuring compliance with applicable securities laws and there is a limited market in which to sell these types of investments. This illiquidity will make it difficult for the Company to quickly dispose of investments that no longer meet its business objectives or which have been adversely impacted by changing market conditions.

Non-Controlling Interests

The Company may take minority interests in various entities that it will not control. Any minority interest is subject to a risk that the entity may make business, financial or management decisions with which the Company does not agree. This could negatively impact that value of the Company's investment in such entities as well as impact the Company's results of operations.

Environmental Regulation and Risks

Various aspects of the Company's or entities in which it has an interest may be subject to environmental regulation in the various jurisdictions in which it operates. Environmental legislation is evolving in a manner which will require stricter standards and enforcement, increased fines and penalties for non-compliance, and a heightened degree of responsibility for companies and their officers, directors and employees. To the extent such approvals are required and not obtained, the Company may be curtailed or prohibited from continuing its operations. Failure to comply with applicable laws and regulations may result in enforcement actions thereunder, including orders issued by regulatory or judicial authorities causing operations to cease or be curtailed, and may include corrective measures requiring capital expenditures, installation of additional equipment, or remedial actions. Amendments to current environmental laws and regulations impacts the Company's business model, or more stringent implementation thereof, could have a material adverse impact on the Company and cause increases in expenses, capital expenditures or operating/production costs.

Requirement for Permits and Licenses

Some of the Company's operations may require it to obtain licences, permits, and in some cases, renewals of existing licences and permits from applicable authorities. The Company believes that it currently holds or has applied for all necessary licences and permits to carry on the activities which it is currently conducting under applicable laws and regulations and also believes that it is complying in all material respects with the terms of such licences and permits. However, the Company's ability to obtain, sustain or renew any such licences and permits on acceptable terms is subject to changes in regulations and policies and to the discretion of the applicable authorities or other governmental agencies in foreign jurisdictions. The failure to obtain such permits or licenses, or delays in obtaining such permits or licenses, could increase the Company's costs and delay its activities, and could adversely affect the business or operations of the Company. Government approvals, approval of members of surrounding communities and permits and licenses are currently and will in the future be required in connection with the operations of the Company. To the extent such approvals are required and not obtained, the Company may be curtailed or prohibited from proceeding with planned exploration or development of exploration and evaluation assets.

Government Regulation

The activities that may be undertaken by the Company are subject to various laws governing the Company's business investments, taxes, labour standards and occupational health. Activities may also be affected in varying degrees by government regulations with respect to, but not limited to, restrictions on price controls, export controls, currency availability, foreign exchange controls, income taxes, delays in obtaining or the inability to obtain necessary permits, limitations on foreign ownership, expropriation of property, ownership of assets, environmental legislation, labour relations, limitations on repatriation of income and return of capital, high rates of inflation and increased financing costs, safety. This may affect the Company's ability to implement its business model.

No assurance can be given that new rules and regulations will not be enacted or that existing rules and regulations will not be applied in a manner which could limit or curtail the Company's business model. Amendments to current laws and regulations could have a substantial adverse impact on the Company.

Political Risks

Future political actions cannot be predicted and may adversely affect the Company. Changes, if any, in mining or investment policies or shifts in political attitude in the countries in which the Company holds property interests in the future may adversely affect the Company's business, results of operations and financial condition.

Key Executives

The Company is dependent upon the services of key executives, including the directors of the Company, and will be dependent on a small number of highly skilled and experienced executives and personnel. Due to the relatively small size of the Company, the loss of these persons or the inability of the Company to attract and retain additional highly-skilled employees may adversely affect its business and future operations.

Potential Conflicts of Interest

There are potential conflicts of interest to which some of the Company's directors and officers will be subject in connection with its operations. Some of the directors and officers are engaged and will continue to be engaged in the search of mineral resource interests on their own behalf and on behalf of other companies, and situations may arise where the directors and officers will be in direct competition with the Company. Conflicts of interest, if any, which arise will be subject to and be governed by procedures prescribed by the BCBCA which require a director or officer of a corporation who is a party to or is a director or an officer of or has a disclosable interest in any person who is a party to a material contract or proposed material contract with the Company to disclose his interest and to refrain from voting on any matter in respect of such contract unless otherwise permitted under the BCBCA. Any decision made by any of such directors and officers involving the Company should be made in accordance with their duties and obligations to deal fairly and in good faith with a view to the Company's best interests and its shareholders.

Labour and Employment Matters

While the Company has good relations with its employees, these relations may be impacted by changes in the scheme of labour relations which may be introduced by the relevant governmental authorities in whose jurisdictions it carries on business. Adverse changes in such legislation may have a material adverse effect on the Company's business, results of operations and financial condition.

Difficulties in Effecting Service of Process

It may be difficult to effect service of process on the Company's directors, officers and others, from time to time, to the extent that they reside outside of Canada. Three of the Company's directors currently reside outside of Canada. Substantially all of the assets of these persons are located outside of Canada. It may also not be possible to enforce against certain of the Company's directors, officers, and experts, judgments obtained in Canadian courts predicated upon the civil liability provisions of applicable securities laws in Canada, to the extent that such persons reside outside of Canada.

Competition

The Company will compete with other entities for potential investment targets. Many of these companies have greater financial resources, operational experience and technical capabilities than the Company. As a result of this competition, the Company may be unable to maintain or acquire attractive assets on terms it considers acceptable or at all. Consequently, the consolidated revenues, operations and financial condition of the Company could be materially adversely affected. Advanced and sustained marketing effort and sales strategy will be necessary to position as a premium brand fertilizer.

Litigation

Defense and settlement costs of legal claims can be substantial, even with respect to claims that have no merit. Like most companies, the Company is subject to the threat of litigation and may be involved in disputes with other parties in the future which may result in litigation or other proceedings. The results of litigation or any other proceedings cannot be predicted with certainty. If the Company is unable to resolve these disputes favorably, it could have a material adverse effect on our financial position, results of operations or the Company's property development.

Insurance and Uninsured Risks

The Company's business is subject to a number of risks and hazards generally, including adverse environmental conditions, industrial accidents, labour disputes, unusual or unexpected geological conditions, ground or slope failures, cave-ins, changes in the regulatory environment and natural phenomena such as inclement weather conditions, floods and earthquakes. Such occurrences could result in damage to assets or facilities, personal injury or death, environmental damage to assets of the Company or others, monetary losses and possible legal liability. Although the Company may maintain insurance to protect against certain risks in such amounts as it considers to be reasonable, its insurance will not cover all the potential risks associated with a mining Company's operations. The Company may also be unable to maintain insurance to cover these risks at economically feasible premiums. Insurance coverage may not be available or may not be adequate to cover any resulting liability. Moreover, insurance against risks such as environmental pollution or other hazards is not generally available to the Company on acceptable terms. The Company might also become subject to liability for pollution or other hazards which it may not be insured against or which the Company may elect not to insure against because of premium costs or other reasons. Losses from these events may cause the Company to incur significant costs that could have a material adverse effect upon its business, consolidated financial performance and results of operations.

Dividend Policy

The Company has not paid dividends on the Common Shares to date. Payment of any future dividends, if any, will be at the discretion of the Company's board of directors after taking into account many factors, including the Company's consolidated operating results, financial condition, and current and anticipated cash needs.

Potential Volatility of Market Price of Common Shares

Securities of various publicly listed companies have, from time to time, experienced significant price and volume fluctuations unrelated to the operating performance of particular companies. These broad market fluctuations may adversely affect the market price of the Common Shares. In addition, the market price of the Common Shares is likely to be highly volatile. Factors such as the average volume of shares traded, announcements by competitors, changes in stock market analyst recommendations regarding the Company and general market conditions and attitudes affecting other exploration and mining companies may have a significant effect on the market price of the Company's shares. Moreover, it is likely that during future quarterly periods, the Company's results and exploration activities may fluctuate significantly or may fail to meet the expectations of stock market analysts and investors and, in such event, the market price of the Common Shares could be materially adversely affected. In the past, securities class action litigation has often been initiated following periods of volatility in the market price of a company's securities. Such litigation, if brought against the Company, could result in substantial costs and a diversion of management's attention and resources, which could have a material adverse effect on the Company's business, financial position and results of operations.

Future Sales of Common Shares by Existing Shareholders

Sales of a large number of Common Shares in the public markets, or the potential for such sales, could decrease the trading price of the Common Shares and could impair the Company's ability to raise capital

through future sales of Common Shares. The Company has previously completed private placements at prices per share which may be, from time to time, lower than the market price of the Common Shares. Accordingly, a significant number of the Company's shareholders at any given time may have an investment profit in the Common Shares that they may seek to liquidate.

Global Financial Conditions

Financial markets globally have been subject to increased volatility. Access to financing has been negatively impacted by liquidity crises and uncertainty with respect to sovereign defaults throughout the world. These factors may impact the ability of the Company to secure financing in the future and, if obtained, on terms favorable to the Company. If these levels of volatility and market turmoil continue, the Company may not be able to secure appropriate debt or equity financing, any of which could affect the trading price of the Company's securities in an adverse manner.

Additional Capital

The Company's business activities in the future, may require substantial additional financing. Failure to obtain sufficient financing may result in a delay or indefinite postponement of acquisitions or the development of accrued interests. Additional financing may not be available when needed. Even if such additional financing is available, the terms of the financing might not be favorable to the Company and might involve substantial dilution to existing shareholders or sale of other disposition of an interest in any of the Company's assets. Failure to raise capital when needed could have a material adverse effect on the Company's business, financial condition and results of operations.

Equity Price Risk

The Company holds investments in private and public traded equity securities. Market prices for equity securities are subject to fluctuation and consequently the amount realized in the subsequent sale of an investment may significantly differ from the reported market value.

Exchange Rate Fluctuations

The Company's functional currency is the Canadian dollar; however, there are transactions and investments in U.S. dollars and the Company keeps some of its cash in U.S. currency. The Company is exposed to financial risk arising from fluctuations in foreign exchange rates and the degree of volatility in these rates. The Company does not use derivative instruments to reduce its exposure to foreign currency risk.

18.0 PROMOTERS

Mehdi Azodi may be considered a promoter of BLGV. He has been and is currently involved in seeking new business opportunities and investors.

19.0 LEGAL PROCEEDINGS

19.1 Material legal proceedings

Belgravia owns 1,425,000 shares of Zonetail Inc., representing approximately 1% of the outstanding common shares. On September 20, 2019 Belgravia filed an Application for a Bankruptcy Order against Zonetail Inc. in the Ontario Superior Court of Justice on the basis that Zonetail has ceased to have met its liabilities as they become due including Belgravia's unsecured promissory note. On December 10, 2019, Zonetail commenced an action against Belgravia alleging damages in excess of \$6 million. Belgravia regards these Zonetail claims as completely specious; designed to delay payment of its debt. On December 18, 2019 Belgravia filed a Notice of Intent to Defend in the Ontario Superior Court of Justice (Commercial List). On January 28, 2021 Zonetail filed a Reply to Statement of Defence and Defence to

Counterclaim. On February 10, 2021, Belgravia served Zonetail with a Reply to the Defence to Counterclaim. On March 12, 2021, Belgravia served a motion for summary judgment to be heard in the Ontario Superior Court of Justice (Commercial List), seeking payment from Zonetail Inc. (TSX-V:Zone) on its promissory note in the amount of \$325,000 plus accumulating interest of 18% annually. Belgravia's legal position is that Zonetail has no right of set-off against amounts owed.

Belgravia continues its litigation against Tartisan Nickel Corp. ("Tartisan"), a company in which Belgravia currently holds nil common shares, and D. Mark Appleby. In the lawsuit, Belgravia claims for damages in the amount of \$750,000 for negligent misrepresentation and breach of contract. Belgravia entered into a management services agreement with Tartisan (the "MSA") to provide services and for which Tartisan was required to pay Belgravia amounts totalling \$150,000. Tartisan has paid only \$50,000 of this amount in breach of the MSA. These services included, but were not limited to, adding one board member, capital markets advisory, digital marketing, and corporate governance. A statement of defence and counterclaim seeking \$1,050,000 in damages plus costs of the action was received by the Company on July 19, 2018. Currently, the Company has requested for the examination of the discovery. Based upon the answers received from Tartisan, the Company is confident that Tartisan's claims are without merit.

19.2 Regulatory actions

There are none.

20.0 INTEREST OF MANAGEMENT AND OTHERS IN MATERIAL TRANSACTIONS

No director or executive officer of the Issuer or any person or company that is the direct or indirect beneficial owners of, or who exercises control or direction over, more than 10 percent of any class of the Issuer's outstanding voting securities, or an associate or affiliate of any persons or companies referred to in this paragraph, has any material interest, direct or indirect, in any transaction within the three years before the date of this Listing Statement, or in any transaction, that has materially affected or will materially affect the Issuer or a subsidiary of the Issuer.

21.0 AUDITORS, TRANSFER AGENT AND REGISTRAR

21.1-Auditors

Davidson & Company LLP Chartered Professional Accountants, 1200-609 Granville Street, Vancouver, B.C. V7Y 1G6 are the auditors of the Company.

21.2-Transfer Agent and Registrar

The transfer agent and registrar for BLGV's securities is Computershare Trust Company of Canada, 9th Floor, 100 University Avenue, Toronto, Ontario M5J 2Y1.

22.0 MATERIAL CONTRACTS

All Material Contracts have been filed on SEDAR.

23.0 INTEREST OF EXPERTS

The following opinions or reports have been described or included in this Listing Statement:

The annual financial statements of BLGV included in this listing statement have been audited by Davidson & Company LLP, Chartered Professional Accountants, as set forth in their audit report. Davidson & Company LLP are the independent auditors of BLGV and is independent within the meaning of the Code of Professional Conduct of the Chartered Professional Accountants of British Columbia.

No person or Company who is named as having prepared or certified a part of this Listing Statement or prepared or certified a report or valuation described or included in this Listing Statement has any direct or indirect interest in the BLGV.

There are no other expert reports other than those contained herein.

24.0 OTHER MATERIAL FACTS

There are no other material facts that are not elsewhere disclosed herein and which are necessary in order for this document to contain full, true and plain disclosure of all material facts relating to BLGV and its securities.

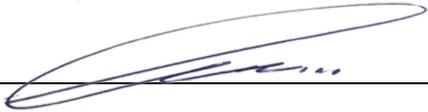

25.0 FINANCIAL STATEMENTS

See [Schedule "D"](#) and [Schedule "E"](#).

CERTIFICATE OF THE ISSUER

Pursuant to a resolution duly passed by its Board of Directors, Belgravia Hartford Capital Inc. hereby applies for the listing of the above-mentioned securities on the Canadian Securities Exchange. The foregoing contains full, true and plain disclosure of all material information relating to Belgravia Hartford Capital Inc. It contains no untrue statement of a material fact and does not omit to state a material fact that is required to be stated or that is necessary to prevent a statement that is made from being false or misleading in light of the circumstances in which it was made.

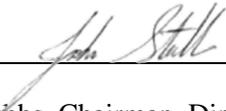

Dated at Toronto, Ontario this 21st day of April 2021.

Management’s Discussion and Analysis

Belgravia Hartford Capital Inc.

Hereinafter called “Belgravia” or the “Company”

(Containing information up to and including April 21, 2021)

Description of Management’s Discussion and Analysis

This Management’s Discussion and Analysis (“MD&A”) should be read in conjunction with the audited consolidated financial statements of the Company for the year ended December 31, 2020 and December 31, 2019. This MD&A was prepared as at April 21, 2021. This MD&A contains forward-looking information and statements, which are based on the conclusions of management. The forward-looking information and statements are only made as of the date of this MD&A.

All financial information is presented in Canadian dollars unless otherwise stated. All references to a year refer to the year-ended on December 31 of that year, and all references to a quarter refer to the quarter ended on December 31st of that year. The Company is a reporting issuer in Alberta, British Columbia, Ontario, Saskatchewan, Manitoba, New Brunswick, Nova Scotia, Prince Edward Island, Newfoundland and the Northwest Territories.

During March 2021, the Company completed a share consolidation on the basis of one (1) post-Consolidation Share for every ten (10) pre-Consolidation Shares (the “Consolidation”). All share and per share amounts have been restated to reflect the consolidation.

Unless otherwise noted, financial results are reported in accordance with International Financial Reporting Standards (“IFRS”). Further details are included in Note 2 of the consolidated financial statements for the year ended December 31, 2020.

Additional information related to the Company is available on SEDAR at www.sedar.com and on the Company’s website at www.belgraviahartford.com.

Company Overview

Belgravia Hartford Capital Inc. (“Belgravia” or the “Company”) formerly Belgravia Capital International Inc., was incorporated under the Canada Business Corporations Act on November 8, 2002 and has continued into British Columbia from the jurisdiction of Canada on December 20, 2019. Belgravia focused on its three core business divisions: Incubation, Investments, and Royalty & Management Services. All three divisions are high risk and expose the Company’s shareholders to significant risk. Belgravia’s Incubation division will develop new companies in specific sectors. Belgravia Holdings, the Investments division, provides merchant banking services and invests in a portfolio of private and public companies with a focus on resources, technology, and healthcare. The Royalty and Management Services division has developed a targeted royalty and fee income model and will provide services to support the development of early-stage companies, while taking steps to ensure it receives the water royalties owned by the Company. Belgravia is a corporation governed by the Business Corporation Act (British Columbia). The shares of the Company are listed on the Canadian Securities Exchange (“CSE”) under the ticker symbol BLGV. The Company’s registered office is located at #3-3185 Via Centrale, Kelowna, BC V1V 2A7.

The Company may obtain financing through access to public and private equity markets, debt and partnerships or joint ventures.

Belgravia owns 100% of Belgravia Hartford Gold Assets Corp. (formerly Intercontinental Potash Corp.) (“ICP”), a Canadian company involved in resource exploration and mine development. On November 30, 2009, the Company completed a reverse-takeover (“RTO”) with ICP. Legally, Belgravia is the parent of ICP, but for financial reporting purposes, Belgravia is considered to be a continuation of ICP. Belgravia was consolidated commencing on December 1, 2009.

Forward-Looking Statements

This MD&A includes certain statements that may be deemed “forward-looking statements” as defined under applicable securities law. Other than statements of historical facts, statements in this discussion including, but not limited to, statements that address future research and investment plans and expected or anticipated events or developments are forward-looking statements. Factors that could cause actual results to differ materially from those in forward-looking statements include, but are not limited to, market prices, continued availability of capital and financing, general economic, market or business conditions, statements regarding planned investment activities & related returns, trends in the markets, research and development activities, the potential value of royalties from water and other resources, technological advancement, competition, other statements that are not historical facts, and the risk factors identified herein. These forward-looking statements are subject to numerous risks and uncertainties, certain of which are beyond the control of the Company, including, but not limited to, changes in market trends, capital markets, the completion, results and timing of research undertaken by the Company, risks associated with natural resource assets and investments, commodity prices, industry conditions, dependence upon regulatory, environmental, and governmental approvals, the uncertainty of obtaining additional financing. Other risks that could impact the Company’s performance are described within this MD&A. These factors could also impact the Company’s performance in the future and cause variances from period to period. Although the Company believes the expectations expressed in any forward-looking statement are based on reasonable assumptions, investors are cautioned that any such statements are not guarantees of future performance and those actual results or developments may differ materially from those projected in the forward-looking statements.

Management's Responsibility for Financial Statements

The Company's management is responsible for the presentation and preparation of consolidated financial statements and the MD&A. The consolidated financial statements have been prepared in accordance with IFRS. The MD&A has been prepared in accordance with the requirements of securities regulators, including National Instrument 51-102 of the Canadian Securities Administrators.

Fully diluted income (loss) per share	\$ (0.02)	\$ 0.02	\$ (0.02)	\$ 0.03

Results of Operations for the Quarter ended December 31, 2020

The Company did not generate operating revenue during the quarter ended December 31, 2020. The Company earned investment and interest income.

Office and Administration Expenses

Administration and related costs amounted to \$181,368 (2019 – \$74,399) for the quarter. This included director fees, annual general meeting, insurance, telephone, postage and courier, dues and subscriptions, stationery, repairs and maintenance, utilities and related costs.

Business development and market development spending for the quarter was \$nil (2019 - \$184,137). Due to COVID-19, no business development costs were incurred this quarter. Business developments costs usually include activities related to exploring new investment strategies.

Consulting fees in the quarter were \$70,872 (2019 – \$84,021); this was mostly in respect of strategy, management and capital markets consulting.

Depreciation during the quarter amounted to \$331 (2019 - \$674). This relates to depreciation of computer equipment.

Investor relations cost in the quarter was \$21,307 (2019 – \$133,135). This amount is for expenses related to offsite events, conferences and roadshows, meetings with shareholders and potential shareholders, and other investor relations activities.

Professional fees of \$47,829 (2019 – \$54,874) for the quarter were incurred in respect of auditing costs, other accounting costs, and legal costs.

Regulatory fees including transfer agent and filing fees and CSE fees were \$3,477 (2019 - \$9,635). This is for transfer agent and other stock exchange listing fees and securities filings.

Rent and storage in the quarter were \$16,680 (2019 - \$30,180). This is for rental offices in Toronto and Kelowna. It is reduced because the Company received a special rent discount due to COVID-19.

Travel, including related costs, for the quarter amounted to \$7,953 (2019 – \$22,564) and were composed of such costs not specifically related to investor relations and business development.

Wages and benefits for the quarter amounted to \$289,657 (2019 – \$224,307). This amount included the compensation and employment related costs of the President and Chief Executive Officer, Chief Financial Officer, Chief Operating Officer, Controller, management and administrative staff. The increase is from bonuses that were made during the quarter.

Management services revenue for the quarter was \$Nil (2019 - \$59,800).

Interest income for the quarter was \$4,178 (2019 - \$246).

Selected Annual Information

Selected audited financial information of the Company for the years ended December 31, 2017, 2018, 2019 and 2020 is as follows:

	December 31 2020	December 31 2019	December 31 2018	December 31 2017
Total assets	\$ 15,533,053	\$ 8,519,224	\$ 8,655,163	\$ 4,100,279
Property, plant and equipment	\$ 4,151	\$ 4,333	\$ 7,031	\$ 1,266
Working capital	\$ 15,339,980	\$ 8,136,958	\$ 8,073,081	\$ 3,476,189
Shareholders' equity (deficiency)	\$ 15,348,160	\$ 8,218,871	\$ 8,457,526	\$ 3,477,455
Interest income	\$ 5,456	\$ 3,228	\$ 88,349	\$ 4,363
Net income (loss)	\$ 6,203,162	\$ (238,655)	\$ (7,033,652)	\$ (8,406,651)
Basic income (loss) per share	\$ 0.15	\$ (0.01)	\$ (0.17)	\$ (0.37)
Fully diluted income (loss) per share	\$ 0.15	\$ (0.01)	\$ (0.17)	\$ (0.37)

Results of Operations for the Year ended December 31, 2020.

The Company did not generate operating revenue during the year ended December 31, 2020 other than management services fees. The Company also earned investment and interest income.

Office and Administration Expenses

Administration and related costs amounted to \$519,018 (2019 - \$321,635) for the year. This included meeting costs, director fees, telephone, postage and courier, dues and subscriptions, stationery, repairs and maintenance, office security, utilities and related costs. The increase is due to the pay-back of director fees previously held in escrow and bonuses paid to directors as well as additional meeting-related and administrative costs related to COVID-19.

Business development and market development spending for the year was \$42,078 (2019 - \$313,508). The decrease is due to less activities related to the search for partners as well as exploring new investment strategies in 2020.

Consulting fees in the year were \$293,356 (2019 - \$287,149); this was mostly in respect of strategy, management and capital markets consulting. This is for consulting related to capital markets, investing and the new business model.

Depreciation during the year amounted to \$1,223 (2019 - \$2,698). This relates to depreciation in respect of computer equipment.

Investor relations cost in the year was \$50,211 (2019 - \$226,710). Investor relations costs include expenses related to offsite events, conferences and roadshows, meetings with shareholders and potential shareholders, and other investor relations activities. The decrease is due to Covid which limited activities in investor relations.

Professional fees of \$185,314 (2019 - \$164,261) for the year were incurred mostly in respect of auditing costs, other accounting costs, and legal costs.

Regulatory fees including transfer agent and filing fees and CSE listing fees were \$27,268 (2019 - \$42,773). The is for transfer agent and other stock exchange listing fees and securities filings. The decrease is due to eliminate listing in OTC Market Group in USA.

Rent and storage in the year were \$89,220 (2019 - \$120,720). This decrease is due to rent in Toronto was discounted due to Covid-19.

Share-based compensation for the year was \$926,127 (2019 - \$nil) due to stock options granted in 2020.

Travel, including related costs, for the year amounted to \$50,056 (2019 - \$142,668) and were composed of such costs not specifically related to investor relations and business development. This decrease is due to Covid and travel restriction in 2020.

Wages and benefits for the year amounted to \$1,331,597 (2019 - \$1,183,511). This amount included the salaries, bonuses, training and employment related costs of the President and Chief Executive Officer, Chief Financial Officer, Chief Operating Officer, Controller, management and administrative staff. Some bonuses were made to officers and staff based on performance in 2020.

Management services revenue for the year was \$143,600 (2019 - \$232,670). This decrease is due to Covid-19 slowing down most business.

Interest income for the year was \$5,456 (2019 - \$3,228).

Investment Portfolio

The Company invests in a diversified portfolio of private and public companies and money market & bond funds with a focus on healthcare/biotech, technology and, on an opportunistic basis, resources with a goal to provide a risk-appropriate return to its shareholders through capital gains in accordance with the Company's investment guidelines.

During the year ended December 31, 2020, the Company recorded an unrealized gain of \$6,537,925 (2019 - \$ 1,559,493) for equity and an unrealized gain of \$1,828,119 (2019 – \$319,970) for warrants.

During the year ended December 31, 2020, the Company sold certain of its investments for proceeds totalling \$4,548,424 (2019 - \$2,400,486) and recognized a gain of \$1,292,994 (2019 – \$360,424).

As at December 31, 2020, fair value of the investments was \$15,245,376 (2019 - \$7,513,855). This includes the value of equity investments of \$12,438,150 (2019 - \$6,633,126), debt instruments of \$325,000 (2019 - \$325,000), and value of warrants of \$2,482,226 (2019 - \$555,729). The Company has made diversified investments in the common shares of public and private companies in the areas of technology, blockchain, and mineral resources with a total approximate initial investment of \$4 million.

As at April 21, 2021, Belgravia currently holds eleven investments: ten public and four private companies. The value of the investments in private companies might only be realized if those companies are sold or if they go public to create liquidity.

Azincourt Energy Corp. (TSX-V: AAZ):

Belgravia owns 6,100,000 shares of Azincourt Energy Corp. (“Azincourt”) representing approximately 3% of its outstanding shares. Azincourt has uranium exploration projects in the Athabasca Basin, Saskatchewan, Canada, and lithium/uranium projects on the Picotani Plateau, Peru.

Blackrock Silver Corp. (TSX-V: BRC):

Belgravia owns 8,379,500 shares of Blackrock Silver Corp. (“Blackrock”) representing approximately 8% of the outstanding common shares. Blackrock’s main asset is the Silver Cloud and Tonopah West projects in Nevada.

Imperial Mining Group Ltd. (TSX-V: IPG):

Belgravia owns 15,000,000 shares of Imperial Mining Group Ltd. (“Imperial”) representing approximately 15% of its outstanding shares. Imperial holds immediate, high-impact, drill-ready gold, copper-zinc and scandium-niobium-tantalum deposit opportunities in Québec.

Nexus Gold Corp. (TSX-V:NXS):

Belgravia owns 13,009,091 shares of Nexus Gold Corp. (“Nexus”) representing approximately 7% of its outstanding shares. Nexus is operating three gold exploration projects in Burkina Faso, West Africa.

Zonetail Inc.:

Belgravia owns 1,425,000 shares of Zonetail Inc., representing approximately 1% of the outstanding common shares. On September 20, 2019 Belgravia filed an Application for a Bankruptcy Order against Zonetail Inc. in the Ontario Superior Court of Justice on the basis that Zonetail has ceased to have met its liabilities as they become due including Belgravia's unsecured promissory note. On December 10, 2019, Zonetail commenced an action against Belgravia alleging damages in excess of \$6 million. Belgravia regards these Zonetail claims as completely specious; designed to delay payment of its debt. On December 18, 2019 Belgravia filed a Notice of Intent to Defend in the Ontario Superior Court of Justice (Commercial List). On January 28, 2021 Zonetail filed a Reply to Statement of Defence and Defence to Counterclaim. On February 10, 2021, Belgravia served Zonetail with a Reply to the Defence to Counterclaim. On March 12, 2021, Belgravia served a motion for summary judgment to be heard in the Ontario Superior Court of Justice (Commercial List), seeking payment from Zonetail Inc. (TSX-V:Zone) on its promissory note in the amount of \$325,000 plus accumulating interest of 18% annually. Belgravia’s legal position is that Zonetail has no right of set-off against amounts owed.

Royalty & Management Services Division:

Year-to-date, under management service contracts of previous year, \$143,600 (2019 - \$232,670) has been recognized as revenue. These services are in respect to business strategy, capital markets, public disclosure, governance, accounting, finance, and corporate personnel. Belgravia generally offers these advisory services, mentoring, and access to the Belgravia’s network to its investees in order to help these companies succeed and develop, which results in increases to the value of Belgravia’s investment. The Company uses consultants as needed to provide services under these management services agreements.

There is no assurance that the Company will continue to earn management services revenue as each agreement is negotiated on a one-off basis and generally for a period of less than 12 months. These revenues come from high risk companies that may default on payments under the management services agreements.

The Company holds an interest in up to USD\$12.2 million of anticipated water and mineral royalties from its previously-owned Ochoa project. Belgravia is actively pursuing these royalties through the retention of a legal advisor. No royalties have been received to date and there is no assurance that these royalties will ever be received.

Financings

During the year ended December 31, 2020, the Company issued nil common shares.

During the year ended December 31, 2019, the Company issued nil common shares.

On February 23, 2021, the Company initiated its Normal Course Issuer Bid (“NCIB”) to repurchase up to 2,008,963 post-Consolidation shares, representing 5% of the issued and outstanding common shares. As of March 31, 2021, the Company has purchased a total of 350,000 common shares for a total of \$73,810 at an average price of \$0.21/share under the NCIB.

The NCIB will terminate on the earlier of February 23, 2022 and the date on which the maximum number of Common Shares that can be acquired pursuant to the NCIB have been purchased. Any common shares purchased pursuant to the NCIB will be cancelled by the Company.

On March 5, 2021 the Company announced that the Company’s common shares (“Shares”) would be consolidated on the basis of one (1) post-Consolidation Share for every ten (10) pre-Consolidation Shares (the “Consolidation”). No fractional Shares were issued pursuant to the Consolidation. Any fractional Shares equal to or greater than one-half resulting from the Consolidation were rounded up to the next whole number of Shares, and any fractional Shares less than one-half resulting from the Consolidation were rounded down to the nearest whole number. This reduced the number of issued and outstanding common shares of the company from 401,792,516 to 40,179,248 effective March 8, 2021.

Liquidity and Capital Resources

At December 31, 2020, the Company’s working capital was \$15,339,980 (2019 – \$8,136,958). Investments in private and junior public companies that are included in working capital may not be liquid in the short term and present greater risk to Belgravia and its shareholders. The sources of cash in the period included cash from the management services consulting fees, proceeds from the sale of investments, and interest earned on cash in the bank accounts.

The consolidated financial statements for the year ended December 31, 2020 have been prepared on a going concern basis, which contemplates the realization of assets and the discharge of liabilities in the normal course of business for the foreseeable future. This MD&A does not give effect to any adjustment which would be necessary should the Company be unable to continue as a going concern and therefore, be required to realize its assets and discharge its liabilities in other than the normal course of business and at amounts different from those reflected in this MD&A.

Transactions with Related Parties

During the year ended December 31, 2020, the Company entered into the following transactions with related parties:

- a) Paid or accrued short-term employee benefits \$825,000 (2019 - \$704,930), of which \$455,000 (2019 - \$465,000) was for Mehdi Azodi, \$200,000 (2019 - \$239,930) was for Paul Kania, and \$170,000 (2019 - \$nil) was for Deena Siblock.
- b) Paid or accrued directors’ fees, included in administrative costs, of \$405,000 (2019 - \$205,000), of which \$100,000 (2019 - \$50,000) was for Ernest Angelo, \$100,000 (2019 - \$50,000) was for Knute Lee, \$100,000 (2019- \$50,000) was for Pierre Pettigrew, and \$105,000 (2019 - \$55,000) was for John Stubbs.
- c) Included in accounts payable as at December 31, 2020 is \$85,920 (2019- \$82,053) due to key management personnel, which includes officers and directors and corporations controlled by officers and directors.

Key management personnel compensation (including senior officers and directors of the Company):

	Year ended	
	December 31, 2020	December 31, 2019
Short-term benefits *	\$ 825,000	\$ 704,930
Directors' fees **	405,000	205,000
Share-based compensation	657,213	-
Total remuneration	\$ 1,887,213	\$ 909,930

* Amounts are included within wages and benefits on the statement of loss and comprehensive loss.

** Amounts are included within administration on the statement of loss and comprehensive loss.

Financial Instruments

International Financial Reporting Standards 7, Financial Instruments: Disclosures, establishes a fair value hierarchy that reflects the significance of the inputs used in making the measurements. The fair value hierarchy has the following levels:

Level 1 - quoted prices (unadjusted) in active markets for identical assets or liabilities;

Level 2 - inputs other than quoted prices included in Level 1 that are observable for the asset or liability, either directly (i.e. as prices) or indirectly (i.e. derived from prices); and

Level 3 - inputs for the asset or liability that are not based on observable market data (unobservable inputs).

The Company's financial instruments include cash and cash equivalents, investments, receivables, accounts payable and accrued liabilities.

Cash is measured at fair value using level one as the basis for measurement in the fair value hierarchy. Investments in public companies, mutual funds, money market funds and fixed income funds are measured at level one while investments in warrants and private companies are measured at level three. The warrant liability and embedded derivative are categorized as level three. The carrying value of receivables, accounts payable and accrued liabilities and employment liability approximate fair value because of the short-term nature of these instruments.

Other

Outstanding Share data as April 21, 2021:

On March 5, 2021 the Company announced that the Company's common shares ("Shares") would be consolidated on the basis of one (1) post-Consolidation Share for every ten (10) pre-Consolidation Shares (the "Consolidation"). No fractional Shares were issued pursuant to the Consolidation. Any fractional Shares equal to or greater than one-half resulting from the Consolidation were rounded up to the next whole number of Shares, and any fractional Shares less than one-half resulting from the Consolidation were rounded down to the nearest whole number. This reduced the number of issued and outstanding common shares of the Company from 401,792,516 to 40,179,248 effective March 8, 2021.

On February 23, 2021, the Company initiated its Normal Course Issuer Bid (NCIB) to repurchase up to 2,008,963 post-Consolidation shares, representing 5% of the issued and outstanding common shares. As of March 31, 2021, the Company has purchased a total of 350,000 common shares at an average price of \$0.205 under the NCIB. The NCIB will terminate on the earlier of February 23, 2022 and the date on which the maximum number of Common Shares that can be acquired pursuant to the NCIB have been purchased. Any common shares purchased pursuant to the NCIB will be cancelled by the Company.

(a) Authorized and issued share capital at April 21, 2021:

Class	Par Value	Authorized	Issued Number
Common	No Par Value	Unlimited	39,829,248

(b) Summary of Options outstanding as at April 21, 2021:

Number of Options	Exercise Price	Expiry Date
250,000	\$0.80	June 6, 2021
590,000	\$0.50	October 1, 2022
3,150,000	\$0.50	October 1, 2025
3,990,000		

Accounting Principles

The financial statements have been prepared in accordance with IFRS.

The policies and estimates are considered appropriate under the circumstances but are subject to judgments and uncertainties inherent in the financial reporting process. See also Note 2 in the audited consolidated financial statements for the year ended December 31, 2020 and December 31, 2019 for additional detail on accounting principles.

Foreign currency translation

The consolidated financial statements are presented in Canadian dollars.

Transactions in foreign currencies are translated into the entity's functional currency at the exchange rates at the date of the transactions. Monetary assets and liabilities of the Company's operations denominated in a currency other than the Canadian dollar are translated using the exchange rates prevailing at the date of the statement of financial position. Non-monetary items that are measured in terms of historical cost in a foreign currency are translated using the exchange rates in effect at the date of the underlying transaction, except for depreciation related to non-monetary assets, which is translated at historical exchange rates. Exchange differences are recognized in the statements of loss and comprehensive loss in the year in which they occur.

Risks and Uncertainties

Credit risk

The Company's credit risk is primarily attributable to cash and cash equivalents and receivables. The Company has no significant concentration of credit risk arising from operations. Cash is held at reputable financial institutions, from which management believes the risk of loss to be remote. Receivables consist primarily of amounts due from government agencies, from loans outstanding to employees and consultants, and from management services clients, which the Company believes will be fully collected, however there is a risk of non-payment from the management services clients.

Liquidity risk

As at December 31, 2020, the Company had a cash balance of \$108,627 to settle current liabilities of \$184,893. The Company also has \$15,241,347 in current investments that can be easily liquidated to cash. The Company is not subject to liquidity risk.

Interest rate risk

The Company has cash balances subject to fluctuations in the prime rate. The Company's current policy is to invest some of excess cash in investment-grade highly liquid demand deposit certificates issued by its banking institutions. The Company periodically monitors the investments it makes and is satisfied with the credit ratings of its banks. Management believes that interest rate risk is remote as cash deposits are payable on demand and the Company currently does not carry interest bearing debt at floating rates. Fluctuations in interest rates may impact the value of the Company's investments in publicly traded common shares and investments in floating rate debt and deposits.

Foreign currency risk

The Company's functional currency is the Canadian dollar; however, there are few transactions in U.S. dollars and the Company keeps some of its cash in US currency. The Company is exposed to financial risk arising from fluctuations in foreign exchange rates and the degree of volatility in these rates. The Company does not use derivative instruments to reduce its exposure to foreign currency risk. A 10% change in the foreign exchange rate would have had an approximate \$7,800 impact on foreign exchange gain or loss.

Market and Investment risk

Market risk is the risk that the fair value of, or future cash flows from, the Company's financial instruments will fluctuate due to changes in market prices. The value of financial instruments can be affected by changes in interest rates, foreign exchange rates, and equity and commodity prices. The Company is exposed to market risk in trading its investments and unfavourable market conditions could result in dispositions of investments at less than favourable prices. The amounts at which the Company's publicly-traded investments could be disposed of currently may differ from their carrying values based on market quotes, as the value at which significant ownership positions are sold is often different than the quoted market price due to a variety of factors such as premiums paid for large blocks or discounts due to illiquidity. Additionally, current market prices may differ significantly from the historical prices used to calculate fair value for the purposes of the Company's financial statements. The Company's investments are accounted for at fair value and are sensitive to changes in market bid prices, such that market trends and changes in market prices result in a proportionate change in the carrying value of the Company's investments.

The Company's results of operations and financial condition are dependent upon the market value of the securities that comprise the Company's investment portfolio. Market value can be reflective of the actual or anticipated operating results of the Company's portfolio companies and/or the general market conditions that affect the sectors in which the Company invests. The Company's investments are primarily concentrated in the junior healthcare, natural resource, and technology industries, which results in exposure to higher volatility and risk than broader market investments and indexes. The value of any or all of the Company's investments could become zero in the future. There are various factors that could have a negative impact on investee companies and thereby have an adverse effect on the Company. Additionally, the Company's investments are mostly in small-cap businesses which the Company believes exhibit potential for growth and sustainable cash flows but which may not ever mature or generate the returns the Company expects or may require a number of years to do so. Technology and resource companies may never achieve success. This may create an irregular pattern in the Company's revenues (if any). Macro factors such as fluctuations in commodity prices and global political, economic and market conditions could have an adverse effect on one or more sectors to which the Company is exposed, thereby negatively impacting one or more of the portfolio companies concurrently. Company-specific risks could have an adverse effect on one or more of the Company's portfolio companies at any point in time. Company-specific and industry-specific risks which materially adversely affect the Company's investments may have a materially adverse impact on its operating results.

The Company holds investments in private and publicly-traded equity securities. Market prices for equity securities are subject to fluctuation and consequently the amount realized in the subsequent sale of an investment may significantly differ from the reported market value. Investments in securities of public companies are subject to volatility in the share prices of the companies. There can be no assurance that an active trading market for any of the subject shares is sustainable. The trading prices of the subject securities could be subject to wide fluctuations in response to various factors beyond the control of the Company, including quarterly variations in the subject entities' results of operations, changes in earnings (if any), estimates by analysts, conditions in the industry of the subject companies and general market or economic conditions. In recent years, equity markets have experienced extreme price and volume fluctuations. These fluctuations have had a substantial effect on market prices, often unrelated to the operating performance of the specific companies. Such market fluctuations could adversely affect the market price of the Company's investments and significantly negatively impact upon the Company's operating results.

Some investments may not be very liquid, and dispositions may take time or may be sold at less than market prices. The amounts at which the Company's private company investments could be disposed of currently may differ from their carrying values since there is no active market to dispose of these investments. Investments in private issuers cannot be resold without a prospectus, an available exemption or an appropriate ruling under relevant securities legislation and there may not be any market for such securities. These limitations may impair the Company's ability to react quickly to market conditions or negotiate the most favourable terms for exiting such investments. Investments in private issuers may offer relatively high potential returns but will also be subject to a relatively high degree of risk. There can be no assurance that a public market will develop for any of the Company's private company investments or that the Company will otherwise be able to realize a return on such investments. The Company also invests in illiquid securities of public issuers. A considerable period of time may elapse between the time a decision is made to sell such securities and the time the Company is able to do so, and the value of such securities could decline during such period. Illiquid investments are subject to various risks, particularly the risk that the Company will be unable to realize the Company's investment objectives by sale or other disposition at attractive prices or otherwise be unable to complete any exit strategy. In some cases, the Company may be prohibited by contract or by law from selling such securities for a period of time or otherwise be restricted from disposing of such securities. Furthermore, the types of investments made may require a substantial length of time to liquidate.

Investments may include debt instruments and equity securities of companies that Belgravia does not control. These instruments and securities may be acquired by the Company in the secondary market or through purchases of securities from the issuer. Any such investment is subject to the risk that the company in which the investment is made may make business, financial or management decisions with which the Company does not agree or that the majority stakeholders or the management of the company may take risks or otherwise act in a manner that does not serve the Company's interests. If any of the foregoing were to occur, the values of investments could decrease and the Company's financial condition, results of operations and cash flow could suffer as a result.

A 10% change in the fair values of the Company's investments at December 31, 2020 would have an \$1,525,000 impact on results from operations.

Operating History and Expected Losses

The Company has a limited history of operations and no material earnings to date and there can be no assurance that the business of the Company will be successful or profitable. No dividends have been paid to date. Payment of any future dividends, if any, will be at the discretion of the Company's board of directors.

The Company may need additional funding to complete its short and long-term objectives. The ability of the Company to raise such financing in the future will depend on the prevailing market conditions, as well as the business performance of the Company. Global financial conditions are subject to high volatility, thus access to public financing may be negatively impacted. There can be no assurances that the Company will be successful in its efforts to raise additional financing on terms satisfactory to the Company. The market price of the Company's shares at any given point in time may not accurately reflect the long-term value. If adequate funds are not available or not available on acceptable terms, the Company may not be able to take advantage of opportunities, to develop new projects or to otherwise respond to competitive pressures.

Growth Management

In executing the Company's business plan for the future, there will be significant pressure on management, operations and technical resources. The Company anticipates that its operating and personnel costs will increase in the future. In order to manage its growth, the Company will have to increase the number of its technical and operational employees and efficiently manage its employees, while at the same time efficiently maintaining a large number of relationships with third parties.

Regulatory & Legal Risks

The Company is subject to a number of technological challenges and requirements and can be subject to the regulations and standards imposed by applicable regulatory agencies.

Various federal, state or provincial and local laws govern the Company's business in the jurisdictions in which it operates or proposes to operate, or to which it exports or proposes to export our products, including laws and regulations relating to health and safety, conduct of operations and the production, management, transportation, storage and disposal of its products and of certain material used in its operations. Compliance with these laws and regulations requires concurrent compliance with complex federal, provincial or state and local laws. These laws change frequently and may be difficult to interpret and apply. Compliance with these laws and regulations requires the investment of significant financial and managerial resources, and a determination that it is not in compliance with these laws and regulations could harm its brand image and business. Moreover, it is impossible for the Company to predict the cost or effect of such laws, regulations or guidelines upon its future operations. Changes to these laws or regulations could negatively affect the Company's competitive position within our industry and the markets in which it operates

Reliance on Key Personnel and Advisors

The Company relies heavily on its officers and is dependent upon the services of key executives, including the Chief Executive Officer. The loss of their services may have a material adverse effect on the business of the Company. There can be no assurance that one or all of the employees of, and contractors engaged by, the Company will continue in the employ of, or in a consulting capacity to, the Company or that they will not set up competing businesses or accept positions with competitors. There is no guarantee that certain employees of, and contractors to, the Company who have access to confidential information will not disclose the confidential information.

Litigation

The Company may become party to litigation from time to time in the ordinary course of business which could adversely affect its business. Should any litigation in which the Company becomes involved be determined against the Company, such a decision could adversely affect the Company's ability to continue operating and the value of the common shares of the Company and could use significant resources. Even if the Company is involved in litigation and wins, litigation can redirect significant Company resources, including the time and attention of management and available working capital. Litigation may also create a negative perception of the Company's brand.

Belgravia continues its litigation against Tartisan Nickel Corp. ("Tartisan"), a company in which Belgravia currently holds nil common shares, and D. Mark Appleby. In the lawsuit, Belgravia claims for damages in the amount of \$750,000 for negligent misrepresentation and breach of contract. Belgravia entered into a management services agreement with Tartisan (the "MSA") to provide services and for which Tartisan was required to pay Belgravia amounts totalling \$150,000. Tartisan has paid only \$50,000 of this amount in breach of the MSA. These services included, but were not limited to, adding one board member, capital markets advisory, digital marketing, and corporate governance. A statement of defence and counterclaim seeking \$1,050,000 in damages plus costs of the action was received by the Company on July 19, 2018. Currently, the Company has requested for the examination of the discovery. Based upon the answers received from Tartisan, the Company is confident that Tartisan's claims are without merit.

COVID-19 (Coronavirus) Risk

On March 11, 2020 the World Health Organization (WHO) declared COVID-19 (Coronavirus) outbreak a "pandemic", namely, the worldwide spread of a new disease. The Government of Ontario announced on March 17, 2020 that it made an

order declaring a state of emergency in response to coronavirus (COVID-19) (the “Government Order”). All provinces in Canada have declared a state of emergency and/or state of public health emergency.

The outbreak and ensuing government restrictions raise corporate governance concerns and come with inherent commercial and operational risks due to potential disruptions to investee companies’ supply chains, instances of high absenteeism, and/or travel risks. Governmental restrictions on travel, movement, and large gatherings have resulted in significant business interruptions and widespread event and travel cancellations, with a particularly salient impact on the stock markets and the Company’s carrying values in investee companies in the mining resource and other sectors. A global travel advisory to avoid non-essential travel outside of Canada and the Government Order under the Quarantine Act remain in effect.

The Government of Canada advises that the pattern of disease is different in pandemics, which may have more than one wave of illness within the total duration of a pandemic. Accordingly, there is no assurance that the ripple effect of COVID-19 will not continue to affect Belgravia for a considerable period of time in the future. COVID-19 is a serious health risk, and the situation is evolving daily.

Other risks

To the extent of the holdings of the Company through its subsidiaries, the Company will be dependent on the cash flows of these subsidiaries to meet its obligations, which cash flows may be constrained by applicable taxation and other restrictions.

Certain of the directors and officers of the Company also serve as directors and/or officers of other companies and, consequently, there exists the possibility for such directors and officers to be in a position of conflict.

There are specific risks associated with some of the industries in which the Company invests, including healthcare, technology, blockchain and natural resources.

Corporate Governance Practices

The disclosure required pursuant to National Instrument 58-101-Disclosure of Corporate Governance Practices was made by the Company in its Management Information Circular which was mailed to shareholders and is accessible via the Internet for public viewing on the System for Electronic Document Analysis and Retrieval at www.sedar.com.

Critical Accounting Estimates

The preparation of financial statements in accordance with IFRS requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amount of revenues and expenses during the reported period. Actual results could differ from those estimates.

Other Information

The Company's website address is www.belgraviahartford.com. Other information relating to the Company may be found on SEDAR at www.sedar.com.

2020

2020

Management’s Discussion and Analysis

for the nine months ended September 30, 2020

Form 51-102F1 – For the Period ended September 30, 2020
Management’s Discussion and Analysis
Belgravia Hartford Capital Inc.
Hereinafter called “Belgravia” or the “Company”
(Containing information up to and including November 25, 2020)

Description of Management’s Discussion and Analysis

This Management’s Discussion and Analysis (“MD&A”) should be read in conjunction with the unaudited condensed consolidated interim financial statements of the Corporation for the period ended September 30, 2020 and audited consolidated financial statements of the year ended December 31, 2019. This MD&A was prepared as at November 25, 2020. This MD&A contains forward-looking information and statements, which are based on the conclusions of management. The forward-looking information and statements are only made as of the date of this MD&A.

All financial information is presented in Canadian dollars unless otherwise stated. All references to a year refer to the year-ended on December 31 of that year, and all references to a quarter refer to the quarter ended on September 30 of that year. The Company is a reporting issuer in Alberta, British Columbia, Ontario, Saskatchewan, Manitoba, New Brunswick, Nova Scotia, Prince Edward Island, Newfoundland and the Northwest Territories.

Unless otherwise noted, financial results are reported in accordance with International Financial Reporting Standards (“IFRS”). Further details are included in Note 2 of the condensed consolidated interim financial statements for the period ended September 30, 2020.

Additional information related to the Company is available on SEDAR at www.sedar.com and on the Company’s website at www.belgraviahartford.ca.

Company Overview

Belgravia Hartford Capital Inc. (“Belgravia” or the “Company”) formerly Belgravia Capital International Inc., was incorporated under the Canada Business Corporations Act on November 8, 2002 and has continued into British Columbia from the jurisdiction of Canada on December 20, 2019. Belgravia focused on its three core business divisions: Incubation, Investments, and Royalty & Management Services. All three divisions are high risk and expose the Company’s shareholders to significant risk. Belgravia’s Incubation division will develop new companies in specific sectors. Belgravia Holdings, the Investments division, provides merchant banking services and invests in a portfolio of private and public companies with a focus on resources, technology, and healthcare. The Royalty and Management Services division has developed a targeted royalty and fee income model and will provide services to support the development of early-stage companies, while taking steps to ensure it receives the water royalties owned by the Company. Belgravia is a corporation governed by the BC Business Corporation’s Act. The shares of the Company are listed on the Canadian Securities Exchange (“CSE”) and the OTC Market under the symbols BLGV and BLGVF respectively. The Company’s registered office is located at #3-3185 Via Centrale, Kelowna, BC V1V 2A7.

The Company may obtain financing through access to public and private equity markets, debt and partnerships or joint ventures.

Belgravia owns 100% of Intercontinental Potash Corp. (“ICP”), a Canadian company previously involved in resource exploration and mine development. On November 30, 2009, the Company completed a reverse-takeover (“RTO”) with ICP. Legally, Belgravia is the parent of ICP, but for financial reporting purposes, Belgravia is considered to be a continuation of ICP. Belgravia was consolidated commencing on December 1, 2009.

Forward-Looking Statements

This MD&A includes certain statements that may be deemed “forward-looking statements” as defined under applicable securities law. Other than statements of historical facts, statements in this discussion including, but not limited to, statements that address future research and investment plans and expected or anticipated events or developments are forward-looking statements. Factors that could cause actual results to differ materially from those in forward-looking statements include, but are not limited to, market prices, continued availability of capital and financing, general economic, market or business conditions, statements regarding planned investment activities & related returns, trends in the markets, research and development activities, the potential value of royalties from water and other resources, technological advancement, competition, other statements that are not historical facts, and the risk factors identified herein. These forward-looking statements are subject to numerous risks and uncertainties, certain of which are beyond the control of the Company, including, but not limited to, changes in market trends, capital markets, the completion, results and timing of research undertaken by the Company, risks associated with natural resource assets and investments, commodity prices, industry conditions, dependence upon regulatory, environmental, and governmental approvals, the uncertainty of obtaining additional financing. Other risks that could impact the Company’s performance are described within this MD&A. These factors could also impact the Company’s performance in the future and cause variances from period to period. Although the Company believes the expectations expressed in any forward-looking statement are based on reasonable assumptions, investors are cautioned that any such statements are not guarantees of future performance and those actual results or developments may differ materially from those projected in the forward-looking statements.

Management's Responsibility for Financial Statements

The Company's management is responsible for the presentation and preparation of consolidated financial statements and the MD&A. The consolidated financial statements have been prepared in accordance with IFRS. The MD&A has been prepared in accordance with the requirements of securities regulators, including National Instrument 51-102 of the Canadian Securities Administrators.

Summary of Quarterly Results

Selected quarterly financial information of the Company for the quarters ended September 30, 2020 is as follows:

Table of Results for the Quarters to September 30, 2020

	Sep 30 2020	June 30 2020	Mar 31 2020	Dec 31 2019
Total assets	\$ 16,627,389	\$ 9,480,890	\$ 6,193,678	\$ 8,519,224
Equipment	\$ 4,481	\$ 4,812	\$ 3,470	\$ 4,333
Working capital	\$ 16,421,168	\$ 9,263,463	\$ 5,892,486	\$ 8,136,958
Shareholders' equity	\$ 16,485,358	\$ 9,350,464	\$ 5,951,050	\$ 8,218,871
Interest income	\$ 5	\$ 31	\$ 1,242	\$ 246
Net income (loss)	\$ 7,134,894	\$ 3,399,414	\$ (2,267,821)	\$ (899,781)
Basic income (loss) per share	\$ 0.02	\$ 0.01	\$ (0.01)	\$ (0.00)
Fully diluted income (loss) per share	\$ 0.02	\$ 0.01	\$ (0.01)	\$ (0.00)

Selected quarterly financial information of the Company for the quarters ended September 30, 2019 is as follows:

Table of Results for the Quarters to September 30, 2019

	Sep 30	Jun 30	Mar 31	Dec 31
	2019	2019	2019	2018
Total assets	\$ 10,060,339	\$ 9,208,677	\$ 9,820,985	\$ 8,655,163
Property, plant and equipment	\$ 5,007	\$ 5,682	\$ 6,356	\$ 7,031
Working capital	\$ 9,201,070	\$ 8,435,635	\$ 8,749,805	\$ 8,073,081
Shareholders' equity	\$ 9,595,962	\$ 8,893,614	\$ 9,533,929	\$ 8,457,526
Interest income	\$ 2,077	\$ 569	\$ 336	\$ 33,309
Net income (loss)	\$ 702,348	\$ (640,315)	\$ 1,076,403	\$ (2,114,782)
Basic income (loss) per share	\$ 0.00	\$ (0.00)	\$ 0.00	\$ (0.01)
Fully diluted income (loss) per share	\$ 0.00	\$ (0.00)	\$ 0.00	\$ (0.01)

Results of Operations for the Quarter ended September 30, 2020

The Company did not generate operating revenue during the quarter ended September 30, 2020 other than management services fees. The Company also earned investment and interest income.

Office and Administration Expenses

Administration and related costs amounted to \$233,208 (2019 – \$88,730) for the quarter. This included director fees, annual general meeting, insurance, telephone, postage and courier, dues and subscriptions, stationery, repairs and maintenance, utilities and related costs.

Business development and market development spending for the quarter was \$nil (2019 - \$44,410). Due to COVID-19, no business development costs were incurred this quarter. Business developments costs usually include activities related to exploring new investment strategies.

Consulting fees in the quarter were \$71,226 (2019 – \$75,000); this was mostly in respect of strategy, management and capital markets consulting.

Depreciation during the quarter amounted to \$331 (2019 - \$675). This relates to depreciation of computer equipment.

Investor relations cost in the quarter was \$7,406 (2019 – \$40,848). This amount is for expenses related to offsite events, conferences and roadshows, meetings with shareholders and potential shareholders, and other investor relations activities.

Professional fees of \$64,479 (2019 – \$36,021) for the quarter were incurred in respect of auditing costs, other accounting costs, and legal costs.

Regulatory fees including transfer agent and filing fees and CSE fees were \$8,934 (2019 - \$9,575). This is for transfer agent and other stock exchange listing fees and securities filings.

Rent and storage in the quarter were \$16,680 (2019 - \$30,180). This is for rental offices in Toronto and Kelowna.

It is reduced because the Company got special rent discount due to COVID-19.

Travel, including related costs, for the quarter amounted to \$22,298 (2019 – \$42,789) and were composed of such costs not specifically related to investor relations and business development.

Wages and benefits for the quarter amounted to \$789,208 (2019 – \$240,809). This amount included the compensation and employment related costs of the President and Chief Executive Officer, Chief Financial Officer, Controller, Vice President, management and administrative staff. The increase is from bonuses that were made during the quarter.

Management services revenue for the quarter was \$33,400 (2019 - \$33,650).

Interest income for the quarter was \$5 (2019 - \$2,077).

Investment Portfolio

The Company invests in a diversified portfolio of private and public companies and money market & bond funds with a focus on healthcare/biotech, technology and, on an opportunistic basis, resources with a goal to provide a risk-appropriate return to its shareholders through capital gains in accordance with the Company's investment guidelines.

During the quarter ended September 30, 2020, the Company recorded an unrealized gain of \$ 6,685,075 (2019 – \$ 1,289,737) for equity, debt and mutual fund investments and an unrealized gain of \$ 701,235 (2019 – \$178,844) for warrants.

During the quarter ended September 30, 2020, the Company sold certain of its investments for proceeds totalling \$1,572,755 (2019 - \$656,502) and recognized a gain of \$933,983 (2019 – loss of \$204,090).

As at September 30, 2020, fair value of the investments was \$16,237,027 (2019 - \$7,922,858). This includes the value of equity investments of \$13,831,424 (2019 - \$6,696,514), debt instruments of \$325,000 (2019 - \$325,000), and value of warrants of \$2,080,603 (2019 - \$901,344). The Company has made diversified investments in the common shares of public and private companies in the areas of technology, blockchain, and mineral resources with a total approximate initial investment of \$4 million.

As at November 25, 2020, Belgravia currently holds thirteen investments: eight public and five private companies. The value of the investments in private companies might only be realized if those companies are sold or if they go public to create liquidity.

Blackrock Gold Corp. (TSX-V:BRC):

Belgravia owns 11,236,200 shares of Blackrock Gold Corp. (“Blackrock”) representing approximately 11% of the outstanding common shares. Blackrock's main asset is the Silver Cloud and Tonopah West projects in Nevada.

Nexus Gold Corp. (TSX-V:NXS):

Belgravia owns 1,752,000 shares of Nexus Gold Corp. (“Nexus”) representing approximately 1% of its outstanding shares. Nexus is operating three gold exploration projects in Burkina Faso, West Africa.

Azincourt Energy Corp. (TSX-V:AAZ):

Belgravia owns 7,000,000 shares of Azincourt Energy Corp. (“Azincourt”) representing approximately 4% of its outstanding shares. Azincourt has uranium exploration projects in the Athabasca Basin, Saskatchewan, Canada, and lithium/uranium projects on the Picotani Plateau, Peru.

Imperial Mining Group Ltd. (TSX-V: IPG):

Belgravia owns 10,392,181 shares of Imperial Mining Group Ltd. (“Imperial”) representing approximately 10% of its outstanding shares. Imperial holds immediate, high-impact, drill-ready gold, copper-zinc and scandium-niobium-tantalum deposit opportunities in Québec.

Zonetail Inc.:

Belgravia owns 2,137,500 shares of Zonetail Inc., representing approximately 2% of the outstanding common shares. On September 20, 2019 Belgravia filed an Application for a Bankruptcy Order against Zonetail Inc. in the Ontario Superior Court of Justice on the basis that Zonetail has ceased to have met its liabilities as they become due including Belgravia's unsecured promissory note. On December 10, 2019, Zonetail commenced an action against Belgravia alleging damages in excess of \$6 million. Belgravia regards these Zonetail claims as completely specious; designed to delay payment of its debt. On December 18, 2019 Belgravia filed a Notice of Intent to Defend in the Ontario Superior Court of Justice (Commercial List).

Royalty & Management Services Division:

Year-to-date, under management service contracts of previous year, \$143,600 (2019 - \$172,870) has been recognized as revenue. These services are in respect to business strategy, capital markets, public disclosure, governance, accounting, finance, and corporate personnel. Belgravia generally offers these advisory services, mentoring, and access to the Belgravia's network to its investees in order to help these companies succeed and develop, which results in increases to the value of Belgravia's investment. The Company uses consultants as needed to provide services under these management services agreements.

There is no assurance that the Company will continue to earn management services revenue as each agreement is negotiated on a one-off basis and generally for a period of less than 12 months. These revenues come from high risk companies that may default on payments under the management services agreements.

The Company holds an interest in up to USD\$12.2 million of anticipated water and mineral royalties from its previously-owned Ochoa project. Belgravia is actively pursuing these royalties through the retention of a legal advisor. No royalties have been received to date and there is no assurance that these royalties will ever be received.

Financings

During the period ended September 30, 2020, the Company issued nil common shares.

During the period ended September 30, 2019, the Company issued nil common shares.

Liquidity and Capital Resources

At September 30, 2020, the Company's working capital was \$16,421,168 (2019 – \$9,201,070). Investments in private and junior public companies that are included in working capital may not be liquid in the short term and present greater risk to Belgravia and its shareholders. The sources of cash in the period included cash from the management services consulting fees, proceeds from the sale of investments, and interest earned on cash in the bank accounts.

The condensed consolidated interim financial statements for the period ended September 30, 2020 have been prepared on a going concern basis, which contemplates the realization of assets and the discharge of liabilities in the normal course of business for the foreseeable future. This MD&A does not give effect to any adjustment which would be necessary should the Company be unable to continue as a going concern and therefore, be required to realize its assets and discharge its liabilities in other than the normal course of business and at amounts different from those reflected in this MD&A.

Transactions with Related Parties

During the nine-month period ended September 30, 2020, the Company entered into the following transactions with related parties:

- d) Paid or accrued short-term employee benefits \$660,000 (2019 - \$618,500), of which \$425,000 (2019 - \$418,500) was for Mehdi Azodi, \$140,000 (2019 - \$200,000) was for Paul Kania, and \$95,000 (2019 - \$0) was for Deena Siblock.
- e) Paid or accrued directors' fees, included in administrative costs, of \$253,750 (2019 - \$153,750), of which \$62,500 (2019 - \$37,500) was for Ernest Angelo, \$62,500 (2019 - \$37,500) was for Knute Lee, \$62,500 (2019- \$37,500) was for Pierre Pettigrew, and \$66,250 (2019 - \$41,250) was for John Stubbs.
- f) Included in accounts payable as at September 30, 2020 is \$45,947 (2019- \$261,625) due to key management personnel, which includes officers and directors and corporations controlled by officers and directors.

Key management personnel compensation (including senior officers and directors of the Company):

	Nine-month period ended	
	September 30, 2020	September 30, 2019

Total remuneration	\$ 913,750	\$ 772,250

* Amounts are included within wages and benefits on the statement of loss and comprehensive loss.

** Amounts are included within administration on the statement of loss and comprehensive loss.

Financial Instruments

International Financial Reporting Standards 7, Financial Instruments: Disclosures, establishes a fair value hierarchy that reflects the significance of the inputs used in making the measurements. The fair value hierarchy has the following levels:

Level 1 - quoted prices (unadjusted) in active markets for identical assets or liabilities;

Level 2 - inputs other than quoted prices included in Level 1 that are observable for the asset or liability, either directly (i.e. as prices) or indirectly (i.e. derived from prices); and

Level 3 - inputs for the asset or liability that are not based on observable market data (unobservable inputs).

The Company's financial instruments include cash and cash equivalents, investments, receivables, accounts payable and accrued liabilities.

Cash is measured at fair value using level one as the basis for measurement in the fair value hierarchy. Investments in public companies, mutual funds, money market funds and fixed income funds are measured at level one while investments in warrants and private companies are measured at level three. The warrant liability and embedded derivative are categorized as level three. The carrying value of receivables, accounts payable and accrued liabilities and employment liability approximate fair value because of the short-term nature of these instruments.

31,500,000	\$0.05	October 1, 2025
39,900,000		

Accounting Principles

The financial statements have been prepared in accordance with IFRS.

The policies and estimates are considered appropriate under the circumstances but are subject to judgments and uncertainties inherent in the financial reporting process. See also Note 2 in the condensed consolidated interim financial statements for the period ended September 30, 2020 and also the audited consolidated financial statements for the year ended December 31, 2019 for additional detail on accounting principles.

Foreign currency translation

The consolidated financial statements are presented in Canadian dollars.

Transactions in foreign currencies are translated into the entity's functional currency at the exchange rates at the date of the transactions. Monetary assets and liabilities of the Company's operations denominated in a currency other than the Canadian dollar are translated using the exchange rates prevailing at the date of the statement of financial position. Non-monetary items that are measured in terms of historical cost in a foreign currency are translated using the exchange rates in effect at the date of the underlying transaction, except for depreciation related to non-monetary assets, which is translated at historical exchange rates. Exchange differences are recognized in the statements of loss and comprehensive loss in the year in which they occur.

Risks and Uncertainties

Credit risk

The Company's credit risk is primarily attributable to cash and cash equivalents and receivables. The Company has no significant concentration of credit risk arising from operations. Cash is held at reputable financial institutions, from which management believes the risk of loss to be remote. Receivables consist primarily of amounts due from government agencies, from loans outstanding to employees and consultants, and from management services clients, which the Company believes will be fully collected, however there is a risk of non-payment from the management services clients.

Liquidity risk

As at September 30, 2020, the Company had a cash balance of \$219,358 to settle current liabilities of \$142,031. The Company is not subject to liquidity risk.

Interest rate risk

The Company has cash balances subject to fluctuations in the prime rate. The Company's current policy is to invest some of excess cash in investment-grade highly liquid demand deposit certificates issued by its banking institutions. The Company periodically monitors the investments it makes and is satisfied with the credit ratings of its banks. Management believes that interest rate risk is remote as cash deposits are payable on demand and the Company currently does not carry interest bearing debt at floating rates. Fluctuations in interest rates may impact the value of the Company's investments in publicly traded common shares and investments in floating rate debt and deposits.

Foreign currency risk

The Company's functional currency is the Canadian dollar; however, there are few transactions in U.S. dollars and the Company keeps some of its cash in US currency. The Company is exposed to financial risk arising from fluctuations in foreign exchange rates and the degree of volatility in these rates. The Company does not use derivative instruments to reduce its exposure to foreign currency risk. A 10% change in the foreign exchange rate would have had an approximate \$200 impact on foreign exchange gain or loss.

Market and Investment risk

Market risk is the risk that the fair value of, or future cash flows from, the Company's financial instruments will fluctuate due to changes in market prices. The value of financial instruments can be affected by changes in interest rates, foreign exchange rates, and equity and commodity prices. The Company is exposed to market risk in trading its investments and unfavourable market conditions could result in dispositions of investments at less than favourable prices. The amounts at which the Company's publicly-traded investments could be disposed of currently may differ from their carrying values based on market quotes, as the value at which significant ownership positions are sold is often different than the quoted market price due to a variety of factors such as premiums paid for large blocks or discounts due to illiquidity. Additionally, current market prices may differ significantly from the historical prices used to calculate fair value for the purposes of the Company's financial statements. The Company's investments are accounted for at fair value and are sensitive to changes in market bid prices, such that market trends and changes in market prices result in a proportionate change in the carrying value of the Company's investments.

The Company's results of operations and financial condition are dependent upon the market value of the securities that comprise the Company's investment portfolio. Market value can be reflective of the actual or anticipated operating results of the Company's portfolio companies and/or the general market conditions that affect the sectors in which the Company invests. The Company's investments are primarily concentrated in the junior healthcare, natural resource, and technology industries, which results in exposure to higher volatility and risk than broader market investments and indexes. The value of any or all of the Company's investments could become zero in the future. There are various factors that could have a negative impact on investee companies and thereby have an adverse effect on the Company. Additionally, the Company's investments are mostly in small-cap businesses which the Company believes exhibit potential for growth and sustainable cash flows but which may not ever mature or generate the returns the Company expects or may require a number of years to do so. Technology and resource companies may never achieve success. This may create an irregular pattern in the Company's revenues (if any). Macro factors such as fluctuations in commodity prices and global political, economic and market conditions could have an adverse effect on one or more sectors to which the Company is exposed, thereby negatively impacting one or more of the portfolio companies concurrently. Company-specific risks could have an adverse effect on one or more of the Company's portfolio companies at any point in time. Company-specific and industry-specific risks which materially adversely affect the Company's investments may have a materially adverse impact on its operating results.

The Company holds investments in private and publicly-traded equity securities. Market prices for equity securities are subject to fluctuation and consequently the amount realized in the subsequent sale of an investment may significantly differ from the reported market value. Investments in securities of public companies are subject to volatility in the share prices of the companies. There can be no assurance that an active trading market for any of the subject shares is sustainable. The trading prices of the subject securities could be subject to wide fluctuations in response to various factors beyond the control of the Company, including quarterly variations in the subject entities' results of operations, changes in earnings (if any), estimates by analysts, conditions in the industry of the subject companies and general market or economic conditions. In recent years, equity markets have experienced extreme price and volume fluctuations. These fluctuations have had a substantial effect on market prices, often unrelated to the operating performance of the specific

companies. Such market fluctuations could adversely affect the market price of the Company's investments and significantly negatively impact upon the Company's operating results. Some investments may not be very liquid, and dispositions may take time or may be sold at less than market prices. The amounts at which the Company's private company investments could be disposed of currently may differ from their carrying values since there is no active market to dispose of these investments. Investments in private issuers cannot be resold without a prospectus, an available exemption or an appropriate ruling under relevant securities legislation and there may not be any market for such securities. These limitations may impair the Company's ability to react quickly to market conditions or negotiate the most favourable terms for exiting such investments. Investments in private issuers may offer relatively high potential returns but will also be subject to a relatively high degree of risk. There can be no assurance that a public market will develop for any of the Company's private company investments or that the Company will otherwise be able to realize a return on such investments. The Company also invests in illiquid securities of public issuers. A considerable period of time may elapse between the time a decision is made to sell such securities and the time the Company is able to do so, and the value of such securities could decline during such period. Illiquid investments are subject to various risks, particularly the risk that the Company will be unable to realize the Company's investment objectives by sale or other disposition at attractive prices or otherwise be unable to complete any exit strategy. In some cases, the Company may be prohibited by contract or by law from selling such securities for a period of time or otherwise be restricted from disposing of such securities. Furthermore, the types of investments made may require a substantial length of time to liquidate.

Investments may include debt instruments and equity securities of companies that Belgravia does not control. These instruments and securities may be acquired by the Company in the secondary market or through purchases of securities from the issuer. Any such investment is subject to the risk that the company in which the investment is made may make business, financial or management decisions with which the Company does not agree or that the majority stakeholders or the management of the company may take risks or otherwise act in a manner that does not serve the Company's interests. If any of the foregoing were to occur, the values of investments could decrease and the Company's financial condition, results of operations and cash flow could suffer as a result.

A 10% change in the fair values of the Company's investments at September 30, 2020 would have an \$1,624,000 impact on results from operations.

Operating History and Expected Losses

The Company has a limited history of operations and no material earnings to date and there can be no assurance that the business of the Company will be successful or profitable. No dividends have been paid to date. Payment of any future dividends, if any, will be at the discretion of the Company's board of directors.

The Company may need additional funding to complete its short and long-term objectives. The ability of the Company to raise such financing in the future will depend on the prevailing market conditions, as well as the business performance of the Company. Global financial conditions are subject to high volatility, thus access to public financing may be negatively impacted. There can be no assurances that the Company will be successful in its efforts to raise additional financing on terms satisfactory to the Company. The market price of the Company's shares at any given point in time may not accurately reflect the long-term value. If adequate funds are not available or not available on acceptable terms, the Company may not be able to take advantage of opportunities, to develop new projects or to otherwise respond to competitive pressures.

Growth Management

In executing the Company's business plan for the future, there will be significant pressure on management, operations and technical resources. The Company anticipates that its operating and personnel costs will increase in the future. In order to manage its growth, the Company will have to increase the number of its technical and operational employees and efficiently manage its employees, while at the same time efficiently maintaining a large number of relationships with third parties.

Regulatory & Legal Risks

The Company is subject to a number of technological challenges and requirements and can be subject to the regulations and standards imposed by applicable regulatory agencies.

Various federal, state or provincial and local laws govern the Company's business in the jurisdictions in which it operates or proposes to operate, or to which it exports or proposes to export our products, including laws and regulations relating to health and safety, conduct of operations and the production, management, transportation, storage and disposal of its products and of certain material used in its operations. Compliance with these laws and regulations requires concurrent

compliance with complex federal, provincial or state and local laws. These laws change frequently and may be difficult to interpret and apply. Compliance with these laws and regulations requires the investment of significant financial and managerial resources, and a determination that it is not in compliance with these laws and regulations could harm its brand image and business. Moreover, it is impossible for the Company to predict the cost or effect of such laws, regulations or guidelines upon its future operations. Changes to these laws or regulations could negatively affect the Company's competitive position within our industry and the markets in which it operates

Reliance on Key Personnel and Advisors

The Company relies heavily on its officers and is dependent upon the services of key executives, including the Chief Executive Officer. The loss of their services may have a material adverse effect on the business of the Company. There can be no assurance that one or all of the employees of, and contractors engaged by, the Company will continue in the employ of, or in a consulting capacity to, the Company or that they will not set up competing businesses or accept positions with competitors. There is no guarantee that certain employees of, and contractors to, the Company who have access to confidential information will not disclose the confidential information.

Litigation

The Company may become party to litigation from time to time in the ordinary course of business which could adversely affect its business. Should any litigation in which the Company becomes involved be determined against the Company, such a decision could adversely affect the Company's ability to continue operating and the value of the common shares of the Company and could use significant resources. Even if the Company is involved in litigation and wins, litigation can redirect significant Company resources, including the time and attention of management and available working capital. Litigation may also create a negative perception of the Company's brand.

Belgravia continues its litigation against Tartisan Nickel Corp. ("Tartisan"), a company in which Belgravia currently holds nil common shares, and D. Mark Appleby. In the lawsuit, Belgravia claims for damages in the amount of \$750,000 for negligent misrepresentation and breach of contract. Belgravia entered into a management services agreement with Tartisan (the "MSA") to provide services and for which Tartisan was required to pay Belgravia amounts totalling \$150,000. Tartisan has paid only \$50,000 of this amount in breach of the MSA. These services included, but were not limited to, adding one board member, capital markets advisory, digital marketing, and corporate governance. A statement of defence and counterclaim seeking \$1,050,000 in damages plus costs of the action was received by the Company on July 19, 2018. Currently, the Company has requested for the examination of the discovery. Based upon the answers received from Tartisan, the Company is confident that Tartisan's claims are without merit.

COVID-19 (Coronavirus) Risk

On March 11, 2020 the World Health Organization (WHO) declared COVID-19 (Coronavirus) outbreak a "pandemic", namely, the worldwide spread of a new disease. The Government of Ontario announced on March 17, 2020 that it made an order declaring a state of emergency in response to coronavirus (COVID-19) (the "Government Order"). All provinces in Canada have declared a state of emergency and/or state of public health emergency.

The outbreak and ensuing government restrictions raise corporate governance concerns and come with inherent commercial and operational risks due to potential disruptions to investee companies' supply chains, instances of high absenteeism, and/or travel risks. Governmental restrictions on travel, movement, and large gatherings have resulted in significant business interruptions and widespread event and travel cancellations, with a particularly salient impact on the stock markets and the Company's carrying values in investee companies in the mining resource and other sectors. A global travel advisory to avoid non-essential travel outside of Canada and the Government Order under the Quarantine Act remain in effect.

The Government of Canada advises that the pattern of disease is different in pandemics, which may have more than one wave of illness within the total duration of a pandemic. Accordingly, there is no assurance that the ripple effect of COVID-19 will not continue to affect Belgravia for a considerable period of time in the future. COVID-19 is a serious health risk, and the situation is evolving daily.

Other risks

To the extent of the holdings of the Company through its subsidiaries, the Company will be dependent on the cash flows of these subsidiaries to meet its obligations, which cash flows may be constrained by applicable taxation and other restrictions.

Certain of the directors and officers of the Company also serve as directors and/or officers of other companies and, consequently, there exists the possibility for such directors and officers to be in a position of conflict.

There are specific risks associated with some of the industries in which the Company invests, including healthcare, technology, blockchain and natural resources.

Corporate Governance Practices

The disclosure required pursuant to National Instrument 58-101-Disclosure of Corporate Governance Practices was made by the Company in its Management Information Circular which was mailed to shareholders and is accessible via the Internet for public viewing on the System for Electronic Document Analysis and Retrieval at www.sedar.com.

Critical Accounting Estimates

The preparation of financial statements in accordance with IFRS requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amount of revenues and expenses during the reported period. Actual results could differ from those estimates.

Other Information

The Company's website address is www.belgraviacapital.ca. Other information relating to the Company may be found on SEDAR at www.sedar.com.

Schedule “C” Compensation of Executive Officers

The following table sets forth a summary of all compensation for the financial years ended December 31, 2018, 2019 and 2020 paid to the Company’s Named Executive Officers:

There were no Share-based awards, non-equity incentive plan or pension plan awards.

Name and Principal Position	Year Ended	Salary	Option-based awards ⁽⁴⁾	All other compensation	Total compensation
Mehdi Azodi ⁽¹⁾ President and Chief Executive Officer	Dec 31, 2020	\$357,248	\$179,557	\$97,752	\$634,557
	Dec 31, 2019	\$285,000	Nil	\$180,000	\$465,000
	Dec 31, 2018	\$318,000	\$578,193	\$83,000	\$979,193
Paul Kania ⁽²⁾ Chief Financial Officer	Dec 31, 2020	\$200,000	\$124,002	Nil	\$324,002
	Dec 31, 2019	\$219,930	Nil	\$20,000	\$239,930
	Dec 31, 2018	\$32,500	Nil	\$25,000	\$57,500
Deena Siblock ⁽³⁾ Chief Operating Officer and Corporate Secretary	Dec 31, 2020	\$120,000	\$124,002	\$100,000	\$344,002
	Dec 31, 2019	\$120,000	Nil	\$25,000	\$145,000
	Dec 31, 2018	\$120,000	\$117,024	\$1,000	\$238,024

Notes:

- (1) Mr. Azodi became CEO of the Company effective May 16, 2016. Mr. Azodi provides the services of President and CEO pursuant to a consulting agreement dated October 21, 2020 (the “**Azodi Agreement**”), to which he is entitled to annual fees of \$518,000.
- (2) Mr. Kania became CFO of the Company effective October 17, 2018. Mr. Kania provides the services of Chief Financial Officer pursuant to a consulting agreement dated October 17, 2018 (the “**Kania Agreement**”), to which he is entitled to annual fees of \$90,000.
- (3) Ms. Siblock became Chief Operating Officer effective July 21, 2020. Ms. Siblock provides the services of COO pursuant to a consulting agreement dated January 1, 2021 (the “**Siblock Agreement**”) pursuant to which she is entitled to annual fees of \$120,000.
- (4) The methodology used to calculate these amounts was the Black-Scholes model. This is consistent with the accounting values used in the Company’s financial statements. The Company selected the Black-Scholes model given its prevalence of use within North America. The key assumptions used under the Black-Scholes model that were used for the share option awards in the table above were the: (i) risk-free interest rate, (ii) expected option life, and (iii) expected volatility, each as calculated at the time of grant.

The Board, upon the recommendation of the Compensation Committee, has approved a bonus plan whereby executives are eligible for a bonus of up to 18% of NAV growth to recognize the considerable efforts of management since Q3 2017 through 2020. The bonus may be payable in shares or cash. No award has been made as of the date hereof.

for the year ended December 31, 2020

(Audited – Expressed in CAD dollars)

INDEPENDENT AUDITOR'S REPORT

To the Shareholders of
Belgravia Hartford Capital Inc.

Opinion

We have audited the accompanying consolidated financial statements of Belgravia Hartford Capital Inc. (the "Company"), which comprise the consolidated statements of financial position as at December 31, 2020 and 2019, and the consolidated statements of income (loss) and comprehensive income (loss), cash flows, and changes in shareholders' equity for the years then ended, and notes to the consolidated financial statements, including a summary of significant accounting policies.

In our opinion, these consolidated financial statements present fairly, in all material respects, the financial position of the Company as at December 31, 2020 and 2019, and its financial performance and its cash flows for the years then ended in accordance with International Financial Reporting Standards ("IFRS").

Basis for Opinion

We conducted our audits in accordance with Canadian generally accepted auditing standards. Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Consolidated Financial Statements section of our report. We are independent of the Company in accordance with the ethical requirements that are relevant to our audit of the consolidated financial statements in Canada, and we have fulfilled our other ethical responsibilities in accordance with these requirements. We believe that the audit evidence we have obtained in our audits is sufficient and appropriate to provide a basis for our opinion.

Other Information

Management is responsible for the other information. The other information obtained at the date of this auditor's report includes Management's Discussion and Analysis.

Our opinion on the consolidated financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the consolidated financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the consolidated financial statements or our knowledge obtained in the audit, or otherwise appears to be materially misstated.

We obtained Management's Discussion and Analysis prior to the date of this auditor's report. If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

Responsibilities of Management and Those Charged with Governance for the Consolidated Financial Statements

Management is responsible for the preparation and fair presentation of the consolidated financial statements in accordance with IFRS, and for such internal control as management determines is necessary to enable the preparation of consolidated financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the consolidated financial statements, management is responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so.

Those charged with governance are responsible for overseeing the Company's financial reporting process.

Auditor's Responsibilities for the Audit of the Consolidated Financial Statements

Our objectives are to obtain reasonable assurance about whether the consolidated financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with Canadian generally accepted auditing standards will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these consolidated financial statements.

As part of an audit in accordance with Canadian generally accepted auditing standards, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the consolidated financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Company's internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the consolidated financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Company to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the consolidated financial statements, including the disclosures, and whether the consolidated financial statements represent the underlying transactions and events in a manner that achieves fair presentation.
- Obtain sufficient appropriate audit evidence regarding the financial information of the entities or business activities within the Company to express an opinion on the consolidated financial statements. We are responsible for the direction, supervision and performance of the group audit. We remain solely responsible for our audit opinion.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

The engagement partner on the audit resulting in this independent auditor's report is Catherine Tai.

The accompanying notes are an integral part of these consolidated financial statements.

1. NATURE OF OPERATIONS AND GOING CONCERN

Belgravia Hartford Capital Inc. (“Belgravia” or the “Company”) was incorporated under the Canada Business Corporations Act on November 8, 2002 and has continued into British Columbia from the jurisdiction of Canada on December 20, 2019. The Company’s registered office is 3 - 3185 Via Central, Kelowna, BC V1V 2A7. The Consolidated Financial Statements (“Financial Statements”) are comprised of the Company and its subsidiaries.

The Company focuses on merchant banking and providing management services in the resources, technology, developing healthcare products, as well as pursuing the royalty streams from its previous potash project, equal to 75% of return from the sale of water or water rights from the potash project up to a maximum of US\$12.2 million.

During March 2021, the Company completed a share consolidation on the basis of one (1) post-Consolidation Share for every ten (10) pre-Consolidation Shares (the “Consolidation”). All share and per share amounts have been restated to reflect the consolidation.

The Company’s continuation as a going concern is dependent on cash flow from its investments, royalties, or operations and its ability to raise equity capital or borrowings sufficient to meet current and future obligations. While the Company currently has no source of operating revenue other than management services consulting fees, its working capital of \$15,339,980 at December 31, 2020 leads management to believe the Company has sufficient resources to fund its business activities for at least the next 12 months. The Company’s financial success is dependent on its ability to identify, evaluate, negotiate, and exit investments in assets or businesses. These consolidated financial statements have been prepared by management on a going concern basis which assumes that the Company will be able to realize its assets and discharge its liabilities in the normal course of business for the foreseeable future.

The Company is currently exploring alternatives to obtain financing. Such alternatives may involve debt, equity or alternative financing structures and may occur at the public company or subsidiary level.

2. SIGNIFICANT ACCOUNTING POLICIES

a) **Statement of compliance:**

These Financial Statements have been prepared in accordance with IAS 1 “Presentation of Financial Statements” (“IAS 1”) using accounting policies consistent with the International Financial Reporting Standards (“IFRS”) issued by the International Accounting Standards Board (“IASB”) and Interpretations of the International Financial Reporting Interpretations Committee (“IFRIC”).

The Financial Statements were authorized by the audit committee and board of directors of the Company on April 21, 2021.

b) **Basis of presentation:**

The Financial Statements have been prepared on the historical cost basis except for certain financial instruments, which are measured at fair value. In addition, these Financial Statements have been prepared using the accrual basis of accounting, except for cash flow information.

c) **Foreign currency translation**

The consolidated financial statements are presented in CAD dollar. The functional currency of the Company and its subsidiaries is the CAD dollar.

2. SIGNIFICANT ACCOUNTING POLICIES (cont'd...)

c) Foreign currency translation (cont'd...)

Transactions in foreign currencies are translated into the entities functional currency at the exchange rates at the date of the transactions. Monetary assets and liabilities of the Company's operations denominated in a currency other than the functional currency are translated using the exchange rates prevailing at the date of the statement of financial position. Non-monetary items that are measured in terms of historical cost in a foreign currency are translated using the exchange rates in effect at the date of the underlying transaction, except for depreciation related to non-monetary assets, which is translated at historical exchange rates. Exchange differences are recognized in profit or loss in the year in which they occur.

d) Basis of consolidation:

The Consolidated Financial Statements of the Company include the following subsidiaries:

Name of subsidiary	Place of incorporation	Percentage ownership
Belgravia Hartford Gold Asset Corp. (formerly Intercontinental Potash Corp.)	Canada	100%
Belgravia Hartford Estates Corp. (formerly Trigon Exploration Utah Inc.)	USA	100%

The Company consolidates the subsidiaries on the basis that it controls these subsidiaries when the Company possesses power over an investee, has exposure to variable returns from the investee, and has the ability to use its power over the investee to affect its returns. All intercompany transactions and balances are eliminated on consolidation.

e) Cash:

Cash is comprised of cash deposited at Canadian banks and secure, short-term, highly liquid demand deposits.

f) Financial Instruments

i) Classification and Measurement

On initial recognition, financial assets are recognized at fair value and are subsequently classified and measured at: (i) amortized cost; (ii) fair value through other comprehensive income ("FVOCI"); or (iii) fair value through profit or loss ("FVTPL"). The classification of financial assets is generally based on the business model in which a financial asset is managed and its contractual cash flow characteristics. A financial asset is measured at fair value net of transaction costs that are directly attributable to its acquisition except for financial assets at FVTPL where transaction costs are expensed. All financial assets not classified and measured at amortized cost or FVOCI are measured at FVTPL. On initial recognition of an equity instrument that is not held for trading, the Company may irrevocably elect to present subsequent changes in the investment's fair value in OCI.

The classification determines the method by which the financial assets are carried on the statement of financial positions subsequent to inception and how changes in value are recorded. Receivables are measured at amortized cost with subsequent impairments recognized in profit or loss. Cash and investments in equity instruments are measured at FVTPL with subsequent changes recognized in profit or loss. Investments in debt instruments and receivable are classified and measured at amortized cost using the effective interest rate method.

2. SIGNIFICANT ACCOUNTING POLICIES (cont'd...)

f) Financial Instruments (cont'd...)

i) Classification and Measurement (cont'd...)

Financial liabilities are designated as either: (i) fair value through profit or loss; or (ii) amortized cost. All financial liabilities are classified and subsequently measured at amortized cost except for financial liabilities at FVTPL. The classification determines the method by which the financial liabilities are carried on the statement of financial position subsequent to inception and how changes in value are recorded. Accounts payable and accrued liabilities are classified as amortized cost and carried on the statement of financial position at amortized cost.

ii) Impairment and uncollectibility of financial assets

An 'expected credit loss' impairment model applies which requires a loss allowance to be recognized based on expected credit losses. This applies to financial assets measured at amortized cost. The estimated present value of future cash flows associated with the asset is determined and an impairment loss is recognized for the difference between this amount and the carrying amount as follows: the carrying amount of the asset is reduced to estimated present value of the future cash flows associated with the asset, discounted at the financial asset's original effective interest rate, either directly or through the use of an allowance account and the resulting loss is recognized in profit or loss for the period.

In a subsequent period, if the amount of the impairment loss related to financial assets measured at amortized cost decreases, the previously recognized impairment loss is reversed through profit or loss to the extent that the carrying amount of the investment at the date the impairment is reversed does not exceed what the amortized cost would have been had the impairment not been recognized.

g) Investments:

All investments except investments in debt instruments are classified upon initial recognition at fair value through profit or loss ("FVTPL"), with changes in fair value reported in profit or loss. Purchases and sales of investments are recognized on the settlement date. Investments at FVPTL are initially recognized at fair value. Transaction costs are expensed as incurred in profit or loss. Investments in debt instruments are initially measured at fair value then subsequently measured at amortized cost using the effective interest rate method.

Subsequent to initial recognition, all investments are measured at fair value. Gains and losses arising from changes in the fair value of the FVTPL investments are recognized in profit or loss.

Investments in common shares of public companies are measured at fair value based on published market prices with unrealized gains and losses recognized through profit or loss. The valuation of these shares has been determined in whole by reference to the close price of the shares on the TSX, TSX Venture Exchange or Canadian Securities Exchange ("CSE") at each reporting date. Various warrants have been received as attachments to share purchase units and do not trade in an active market. At the time of purchase, the per unit cost is allocated to common shares and warrants using the residual value method. The value of the warrants is subsequently determined at the measurement date using the Black-Scholes option pricing model.

All privately held investments are initially recorded at the transaction price, being the fair value at the time of acquisition. Thereafter, at each reporting period, the fair value of an investment may, depending upon the circumstances, be adjusted with unrealized gains and losses recognized through profit or loss.

2. SIGNIFICANT ACCOUNTING POLICIES (cont'd...)

h) **Equipment:**

Equipment is stated at cost less accumulated depreciation and accumulated impairment losses. The cost of an item of equipment consists of the purchase price, any costs directly attributable to bringing the asset to the location and condition necessary for its intended use including associated borrowing costs and an initial estimate of the costs of dismantling and removing the item and restoring the site on which it is located.

Carrying amounts of equipment are depreciated to their estimated residual value over the estimated useful lives of the assets. Where an item of equipment is composed of major components with different useful lives, the components are accounted for as separate items of equipment.

An item of equipment is derecognized upon disposal or when no future economic benefits are expected to arise from the continued use of the asset. Any gain or loss arising on disposal of the asset, determined as the difference between the net disposal proceeds and the carrying amount of the asset, is recognized in profit or loss.

Depreciation is provided using the declining balance basis at the following annual rates:

Computer equipment	45% declining balance
--------------------	-----------------------

The Company conducts an annual assessment of the residual values, useful lives and depreciation methods being used for equipment and any impairment arising from the assessment is recognized in profit or loss.

An impairment loss is reversed if there is an indication that there has been a change in the estimates used to determine the recoverable amount. An impairment loss is reversed only to the extent that the asset's carrying amount does not exceed the carrying amount that would have been determined, net of depreciation, if no impairment loss had been recognized.

i) **Impairment:**

At the end of each reporting period, the carrying amounts of the Company's assets are reviewed to determine whether there is any indication that those assets are impaired. If any such indication exists, the recoverable amount of the asset is estimated in order to determine the extent of the impairment, if any. The recoverable amount is the higher of fair value less costs to sell and value in use. Fair value is determined as the amount that would be obtained from the sale of the asset in an arm's length transaction between knowledgeable and willing parties. In assessing value in use, the estimated future cash flows are discounted to their present value using a discount rate that reflects current market assessments of the time value of money and the risks specific to the asset. If the recoverable amount of an asset is estimated to be less than its carrying amount, the carrying amount of the asset is reduced to its recoverable amount and the impairment loss is recognized in profit or loss for the . For an asset that does not generate largely independent cash inflows, the recoverable amount is determined for the cash-generating unit to which the asset belongs. Following the recognition of an impairment loss, the depreciation charge applicable to the asset is adjusted prospectively in order to systematically allocate the revised carrying amount, net of any residual value, over the remaining useful life.

Where an impairment subsequently reverses, the carrying amount of the asset (or cash generating unit) is increased to the revised estimate and its recoverable amount, but to an amount that does not exceed the carrying amount that would have been determined had no impairment loss been recognized for the asset (or cash generating unit) in prior years. A reversal of an impairment loss is recognized immediately in profit or loss.

2. SIGNIFICANT ACCOUNTING POLICIES (cont'd...)

j) **Related party transactions:**

Parties are considered to be related if one party has the ability, directly or indirectly, to control the other party or exercise significant influence over the other party in making financial and operating decisions. Related parties may be individuals or corporate entities. A transaction is considered to be a related party transaction when there is a transfer of resources or obligations between related parties.

k) **Revenue recognition:**

Management services revenue is recognized when services are rendered, and the amount can be reasonably estimated and collected. Any amount received for future services is recorded as deferred revenue and recognized as revenue when the related services are performed.

l) **Significant accounting estimates and judgments:**

The preparation of these Financial Statements requires management to make judgments, estimates and assumptions about future events that affect the reported amounts of assets and liabilities and disclosure of contingent assets at the date of the financial statements and the reported amounts of revenues and expenses during the reporting year. Although these estimates are based on management's best knowledge of the amount, events or actions, actual results may differ from these estimates.

Critical judgments exercised in applying accounting policies that have the most significant effect on the amounts recognized in the consolidated financial statements are as follows:

Assessment of control and significant influence

Classification of investments requires judgment on whether the Company controls, has joint control or significant influence over the strategic financial and operating decisions relating to the activity of the investee. In assessing the level of control or influence that the Company has over an investment, management considers ownership percentages, board representation as well as other relevant provisions in shareholder agreements. If an investor holds 20% or more of the voting power of the investee, it is presumed that the investor has significant influence, unless it can be clearly demonstrated that this is not the case. Conversely, if the investor holds less than 20% of the voting power of the investee, it is presumed that the investor does not have significant influence, unless such influence can be clearly demonstrated.

Functional currency

The Company determined that the Canadian dollar is the functional currency of the Company and its subsidiaries. Determination of functional currency may involve certain judgments to determine the primary economic environment and the Company reconsiders the functional currency of its entities if there is a change in events and conditions which determined the primary economic environment.

Information about assumptions and estimation uncertainties that have a significant risk of resulting in material adjustments are as follows:

2. SIGNIFICANT ACCOUNTING POLICIES (cont'd...)

l) Significant accounting estimates and judgments (cont'd...)

Fair value of private company investments

Where the fair values of investments in private companies recorded on the statement of financial position cannot be derived from active markets, they are determined using a variety of valuation techniques. The inputs to these models are derived from observable market data where possible, but where observable market data is not available, judgment is required to establish fair value and this value may not be indicative of recoverable value.

Valuation of share-based payments and derivative financial assets

The Company uses the Black-Scholes Option Pricing Model for valuation of share-based payments and derivative financial assets (e.g. investments in warrants). Option pricing models require the input of subjective assumptions including expected price volatility, interest rates and forfeiture rates. Changes in the input assumptions can materially affect the fair value estimate and the Company's earnings and equity reserves.

Income taxes

In assessing the probability of realizing income tax assets, management makes estimates related to expectations of future taxable income, applicable tax opportunities, expected timing of reversals of existing temporary differences and the likelihood that tax positions taken will be sustained upon examination by applicable tax authorities. In making its assessments, management gives additional weight to positive and negative evidence that can be objectively verified.

Estimates of future taxable income are based on forecasted cash flows from operations and the application of existing tax laws in each jurisdiction. Weight is attached to tax planning opportunities that are within the Company's control and are feasible and implementable without significant obstacles. The likelihood that tax positions taken will be sustained upon examination by applicable tax authorities is assessed based on individual facts and circumstances of the relevant tax position evaluated in light of all available evidence. Where applicable tax laws and regulations are either unclear or subject to ongoing varying interpretations, it is reasonably possible that changes in these estimates can occur that materially affect the amounts of income tax assets recognized. At the end of each reporting year, the Company reassesses unrecognized income tax assets.

m) **Impact of COVID 19**

On March 11, 2020, the World Health Organization declared COVID-19 a global pandemic. The pandemic resulted in unprecedented actions by governments around the world to curtail the spread of the disease. These events have resulted in a high level of uncertainty and volatility in the financial markets in addition to disruptions to businesses worldwide. The pandemic has had an enormous impact on consumers in all sectors. Governments have responded with fiscal measures to curtail the adverse effects of the pandemic, though the outcome and timeframe remains highly unpredictable and as such, the financial impact cannot be estimated. Fluctuation in security prices, larger bid/ask spreads and lower liquidity caused by the pandemic may impact valuation of investments, classification of fair value hierarchy, and assumptions by the Company to make accounting estimates. The Company continues to closely monitor the impact of the COVID-19 pandemic and its effects on the investment's risk exposures.

2. SIGNIFICANT ACCOUNTING POLICIES (cont'd...)

n) **Share capital:**

Common shares are classified as share capital. Transaction costs directly attributable to the issue of common shares are recognized as a deduction from equity.

o) **Warrants issued in equity financing transactions:**

The Company engages in equity financing transactions to obtain the funds necessary to continue operations. These equity financing transactions may involve issuance of common shares or units. Each unit comprises a certain number of shares and a certain number of warrants. Depending on the terms and conditions of each equity financing transaction, the warrants are exercisable into additional common shares at a price prior to expiry as stipulated by the transaction. Warrants that are part of units are assigned a value based on the residual value, if any, and included in reserves.

Warrants that are issued as payment for agency fees or other transaction costs are assigned a value based on the Black-Scholes pricing model and included in reserves. When warrants are exercised, any reserves related to those warrants are reclassified from reserves to share capital.

p) **Share-based compensation:**

The Company's stock option plan allows eligible Company employees and consultants to acquire shares of the Company. The fair value of options granted is recognized as a share-based compensation expense with a corresponding increase in equity. An individual is classified as an employee when the individual is an employee for legal or tax purposes (direct employee) or provides services similar to those performed by a direct employee. Consideration paid on the exercise of stock options is credited to share capital and the fair value of the options is reclassified from reserves to share capital.

Equity-settled share-based payment transactions with parties other than employees and those providing similar services are measured at the fair value of the goods or services received, except where that fair value cannot be estimated reliably, in which case they are measured at the fair value of the equity instruments granted, measured at the date the entity obtains the goods or the counterparty renders the service.

The fair value is measured at grant date and each tranche is recognized over the period during which the options vest. The fair value of the options granted is measured using the Black-Scholes option pricing model taking into account the terms and conditions upon which the options were granted. At each financial position reporting date, the amount recognized as an expense is adjusted to reflect the number of stock options that are expected to vest.

q) **Income (loss) per share:**

The Company presents basic and diluted income (loss) per share data for its common shares, calculated by dividing the income (loss) attributable to common shareholders of the Company by the weighted average number of common shares outstanding during the period. Diluted income (loss) per share does not adjust the loss attributable to common shareholders or the weighted average number of common shares outstanding when the effect is anti-dilutive.

2. SIGNIFICANT ACCOUNTING POLICIES (cont'd...)

r) Income taxes:

Current tax is the expected tax payable or receivable on the local taxable income or loss for the year, using local tax rates enacted or substantively enacted at the financial position reporting date, and includes any adjustments to tax payable or receivable in respect of previous years.

Deferred income tax is recognized in respect of temporary differences between the carrying amounts of assets and liabilities for financial reporting purposes and the amounts used for taxation purposes. Deferred tax is measured at the tax rates that are expected to be applied to temporary differences when they reverse, based on the laws that have been enacted or substantively enacted by the financial position reporting date. Deferred tax is not recognized for temporary differences which arise on the initial recognition of assets or liabilities in a transaction that is not a business combination and that affects neither accounting, nor taxable profit or loss. A deferred tax asset is recognized for unused tax losses, tax credits and deductible temporary differences, to the extent that it is probable that future taxable profits will be available against which they can be utilized. Deferred tax assets are reviewed at each reporting date and are reduced to the extent that it is no longer probable that the related tax benefit will be realized.

3. RECEIVABLES AND LOAN RECEIVABLE

a) Receivables are comprised of:

	December 31, 2020	December 31, 2019
GST receivable ⁽ⁱ⁾	\$ 72,797	\$ 20,411
Management services fees receivable ⁽ⁱⁱ⁾	\$ Nil	\$ 106,030
Total	\$ 72,797	\$ 126,441

i) The Company had GST receivable of \$72,797 as of December 31,2020 (2019 - \$20,411).

ii) The Company provides management services to several companies. Pursuant to management services agreements, the Company is owed \$nil as of December 31, 2020 (2019 - \$106,030).

b) The Company advanced a total of \$52,000 to an arm's length party. The loan bears interest of 8%, is unsecured and the term is extended to December 11, 2021.

4. INVESTMENTS

The Company's investments include common shares and warrants of Canadian companies that are listed on various Canadian stock exchanges and investments in private Canadian and U.S. companies as well as certain investment funds, such as money market funds and bond funds, held through Canadian investment dealers and debt instruments. The fair values of the common shares of the publicly traded companies have been directly referenced to published price quotations in an active market. The fair value of investments in private companies is referenced to the most recent equity financing completed by each private company. The investments in unlisted warrants of companies that are publicly traded are valued using the Black-Scholes option pricing model, with the following weighted average assumptions:

	Year ended December 31, 2020	Year ended December 31, 2019
Risk-free interest rate	0.20%	1.71%
Expected life of warrants	1.61 years	1.17 years
Annualized volatility	132.74%	131.30%
Dividend rate	0.00%	0.00%

As at December 31, 2020, fair value of the investments was \$15,245,376 (2019 - \$7,513,855). This includes the value of equity investments of \$12,438,150 (2019 - \$6,633,126), debt instruments of \$325,000 (2019 - \$325,000), and value of warrants of \$2,482,226 (2019 - \$555,729).

During the year ended December 31, 2020, the Company recorded an unrealized gain of \$6,537,925 (2019 - \$1,559,493) for equity investments and an unrealized gain of \$1,828,119 (2019 - \$319,970) for warrants.

During the year ended December 31, 2020, the Company exercised certain investment warrants and recorded a gain of \$7,472 (2019 - \$165,910).

During the year ended December 31, 2020, the Company sold certain of its investments for proceeds totalling \$4,548,424 (2019 - \$2,400,486) and recognized a gain of \$1,292,994 (2019 - \$360,425).

7. SHARE CAPITAL AND RESERVES

Common shares

Authorized: The Company is authorized to issue an unlimited number of common shares without par value.

Refer to the Consolidated Statements of Changes in Shareholders' Equity for a summary of changes in share capital and reserves for the year ended December 31, 2020; Reserves relate to stock options and warrants that have been issued by the Company (note 8).

During the year ended December 31, 2020, the Company issued nil common shares.

During the year ended December 31, 2019, the Company issued nil common shares.

On March 5, 2021 the Company consolidated on the basis of one (1) post-Consolidation Share for every ten (10) pre-Consolidation Shares (the "Consolidation"). No fractional Shares were issued pursuant to the Consolidation. Any fractional Shares equal to or greater than one-half resulting from the Consolidation were rounded up to the next whole number of Shares, and any fractional Shares less than one-half resulting from the Consolidation were rounded down to the nearest whole number. This reduced the number of issued and outstanding common shares of the company from 401,792,516 to 40,179,248 effective March 8, 2021.

8. STOCK OPTIONS AND WARRANTS

Stock options

The Company has an incentive stock option plan (the "Plan") whereby the Company may grant stock options to eligible employees, officers, directors and consultants at an exercise price to be determined by the board of directors, provided the exercise price is not lower than the market value at time of issue less any discount allowed by the stock exchange upon which the common shares are listed. The Plan provides for the issuance of up to 10% of the Company's issued common shares as at the date of grant with each stock option having a maximum term of ten years. The board of directors has the exclusive power over the granting of options and their vesting and cancellation provisions.

As at December 31, 2020, the Company had stock options outstanding, enabling the holders to acquire the following number of common shares:

Number of Options	Exercise Price	Average Contractual Life Remaining (years)	Expiry Date
250,000	\$ 0.80	0.43	June 6, 2021
590,000	\$ 0.50	1.75	October 1, 2022
3,150,000	\$ 0.50	4.75	October 1, 2025
3,990,000			

8. STOCK OPTIONS AND WARRANTS (cont'd...)

Stock options (cont'd...)

Stock option transactions are summarized as follows:

	Number of Options	Weighted Average Exercise Price
Outstanding December 31, 2018	3,900,000	\$ 1.00
Cancelled	(3,650,000)	1.30
Outstanding December 31, 2019	250,000	0.80
Granted	3,740,000	0.50
Outstanding December 31, 2020	3,990,000	\$ 0.52
Number of options exercisable at December 31, 2020	3,990,000	\$ 0.52

During the year ended December 31, 2020, the Company granted 3,740,000 (2019 – nil) stock options to consultants, officers, employees and directors of the Company. All options vested at the grant date.

The fair value of the options granted during the year ended December 31, 2020, as determined by the Black-Scholes option pricing model, was \$926,127 (2019 - \$nil) or \$0.25 per option (2019 - \$nil).

Share-based compensation recognized during the year was \$926,127 (2019 - \$nil).

The following weighted-average assumptions were used for the Black-Scholes valuation of stock options granted during the year ended December 31, 2020:

	Year ended December 31, 2020	Year ended December 31, 2019
Risk-free interest rate	0.33%	-
Expected life of options	3.27 years	-
Annualized volatility	304.48%	-
Dividend rate	0.00%	-
Forfeiture rate	0.00%	-

Warrants

As at December 31, 2020, the Company had nil warrants outstanding.

Warrant transactions are summarized as follows:

	Number of Warrants	Weighted Average Exercise Price
Outstanding as at December 31, 2018	13,399,000	\$ 0.60
Expired	(13,399,000)	0.60
Outstanding as at December 31, 2019	-	-
Outstanding as at December 31, 2020	-	\$ -

8. STOCK OPTIONS AND WARRANTS (cont'd...)

Broker warrants

As at December 31, 2020, the Company had nil broker warrants outstanding.

Broker warrants transactions are summarized as follows:

	Number of Warrants	Weighted Average Exercise Price
Outstanding as at December 31, 2018	364,920	\$ 1.90
Expired	(364,920)	1.90
Outstanding as at December 31, 2019	-	-
Outstanding as at December 31, 2020	-	\$ -

9. RELATED PARTY TRANSACTIONS AND BALANCES

The accounts payable and accrued liabilities of the Company include the following amounts due to related parties:

	December 31, 2020	December 31, 2019
Key management personnel	\$ 85,920	\$ 82,053
	\$ 85,920	\$ 82,053

Key management personnel compensation (consisting of senior officers and directors of the Company):

Short-term benefits *	\$ 825,000	\$ 704,930
Directors' fees **	405,000	205,000
Share-based compensation	657,213	-
Total remuneration	\$ 1,887,213	\$ 909,930

* Amounts are included within wages and benefits on the statement of income (loss) and comprehensive income (loss).

** Amounts are included within administration on the statement of income (loss) and comprehensive income (loss).

10. SEGMENTED INFORMATION

The Company has one operating segment focused on merchant banking as well as providing management services and pursuing the royalty streams from its previous potash project. All of the Company's capital assets are located in Canada.

11. MANAGEMENT OF CAPITAL

The Company's objectives when managing capital are to safeguard the Company's ability to continue as a going concern and to invest to earn a risk-appropriate return for shareholders. The Company does not have any externally imposed capital requirements to which it is subject. The capital of the Company consists of items in shareholders' equity. The Company had no bank indebtedness at December 31, 2020. The Board of Directors do not establish quantitative return on capital criteria for management, but rather rely on the expertise of the Company's management to sustain future development of the business.

The Company manages the capital structure and makes adjustments to it in light of changes in available funds, economic conditions and the risk characteristics of the underlying assets. To maintain or adjust the capital structure, the Company may issue new shares, borrow money, or dispose of assets to adjust the amount of cash.

The Company's investment policy is to invest its cash necessary to fund operations for the next 12 months in demand investment instruments in high credit quality financial institutions to provide liquidity over the expected time of expenditures from continuing operations. The Company also invests some of its excess cash in common shares and other securities of private and public companies.

There were no significant changes in the Company's approach to capital management during the year ended December 31, 2020.

12. FINANCIAL INSTRUMENTS AND RISK MANAGEMENT

IFRS 7, Financial Instruments: Disclosures, establishes a fair value hierarchy that reflects the significance of the inputs used in making the measurements. The fair value hierarchy has the following levels:

Level 1 - quoted prices (unadjusted) in active markets for identical assets or liabilities;

Level 2 - inputs other than quoted prices included in Level 1 that are observable for the asset or liability, either directly (i.e. as prices) or indirectly (i.e. derived from prices); and

Level 3 - inputs for the asset or liability that are not based on observable market data (unobservable inputs).

The Company's financial instruments include cash, investments, receivables, and accounts payable and accrued liabilities.

The carrying values of receivables, and accounts payable and accrued liabilities approximate fair value because of the short-term nature of these instruments.

As at December 31, 2020, the Company's classification of financial instruments measured at fair value within the fair value hierarchy are summarized below:

	Level 1	Level 2	Level 3	Total
Cash	\$ 108,627	\$ -	\$ -	\$ 108,627
Equity investments	11,469,714	-	3,450,662	14,920,376
Bridge loan	325,000	-	-	325,000
	\$ 11,903,341	\$ -	\$ 3,450,662	\$ 15,354,003

As at December 31, 2019, the Company's classification of financial instruments within the fair value hierarchy are summarized below:

	Level 1	Level 2	Level 3	Total
Cash	\$ 653,975	\$ -	\$ -	\$ 653,975
Investments	4,666,271	-	2,522,584	7,188,855
Bridge loan	325,000	-	-	325,000
	\$ 5,645,246	\$ -	\$ 2,522,584	\$ 8,167,830

The Company's risk exposures and the impact on the Company's financial instruments are summarized below:

Credit risk

The Company's credit risk is primarily attributable to cash, bridge loan and receivables. The Company has no significant concentration of credit risk arising from operations. Cash is held at reputable financial institutions, from which management believes the risk of loss to be remote. Receivables consist primarily of amounts due from government agencies, and from management services customers, which the Company believes will be fully collected.

Liquidity risk

As at December 31, 2020, the Company had a cash balance of \$108,627 to settle current liabilities of \$184,893. The Company also has \$15,241,347 in current investments that can be easily liquidated to cash. The Company is not subject to significant liquidity risk.

Interest rate risk

The Company has cash balances subject to fluctuations in the prime rate. The Company's current policy is to invest some of excess cash in investment-grade highly liquid demand deposit certificates issued by its banking institutions. The Company periodically monitors the investments it makes and is satisfied with the credit ratings of its banks. Management believes that interest rate risk is remote as cash deposits are payable on demand and the Company currently does not carry interest bearing debt at floating rates. Fluctuations in interest rates may impact the value of the Company's investments in publicly traded common shares.

Foreign currency risk

The Company's functional currency is the Canadian dollar; however, there are few transactions and investments in U.S. dollars and the Company keeps some of its cash in U.S. currency. The Company is exposed to financial risk arising from fluctuations in foreign exchange rates and the degree of volatility in these rates. The Company does not use derivative instruments to reduce its exposure to foreign currency risk. A 10% change in the foreign exchange rate would have had an approximate \$7,800 impact on foreign exchange gain or loss.

12. FINANCIAL INSTRUMENTS AND RISK MANAGEMENT (cont'd...)

Market risk

Market risk is the risk that the fair value of, or future cash flows from, the Company's financial instruments will fluctuate due to changes in market prices. The value of financial instruments can be affected by changes in interest rates, foreign exchange rates, and equity and commodity prices. The Company is exposed to market risk in trading its investments and unfavourable market conditions could result in dispositions of investments at less than favourable prices. The Company's investments are primarily concentrated in the natural resources, junior healthcare, and technology industries, which results in exposure to higher volatility than broader market investments and indexes. The Company's investments are accounted for at fair value and are sensitive to changes in market bid prices, such that changes in market prices result in a proportionate change in the carrying value of the Company's investments. The Company holds investments in private and public traded equity securities. Market prices for equity securities are subject to fluctuation and consequently the amount realized in the subsequent sale of an investment may significantly differ from the reported market value. Some investments may not be very liquid and dispositions may take time or may be sold at less than market prices. A 10% change in the fair values of the Company's investments at December 31, 2020 would have an \$1,525,000 impact on results from operations.

13. INCOME TAXES

A reconciliation of income taxes at statutory rates with the reported taxes is as follows:

	2020	2019
Income (loss) for the year	\$ 6,203,132	\$ (238,655)
Expected income tax (recovery)	\$ 1,675,000	\$ (64,000)
Change in statutory, foreign tax, foreign exchange rates and other	207,000	161,000
Permanent difference	250,000	1,000
Impact of change in future tax rate	-	1,000
Adjustment to prior years provision versus statutory returns	(157,000)	(251,000)
Change in unrecognized deductible temporary differences	(1,975,000)	152,000
Total income tax expense (recovery)	\$ -	\$ -

The significant components of the Company's deferred tax assets that have not been recognized on the consolidated statement of financial position are as follows:

13.

INCOME TAXES (cont'd...)

The significant components of the Company's deferred tax assets that have not been recognized on the consolidated statement of financial position are as follows:

	2020	2019
Deferred tax assets (liabilities)		
Mineral property	\$ 29,000	\$ 29,000
Property and equipment	6,000	5,000
Share issue costs	31,000	56,000
Allowable capital losses	17,000	4,000
Non-capital losses available for future period	8,186,000	10,150,000
	8,269,000	10,244,000
Unrecognized deferred tax assets	(8,269,000)	(10,244,000)
Net deferred tax assets	\$ -	\$ -

The significant components of the Company's temporary differences, unused tax credits and unused tax losses that have not been included on the consolidated statement of financial position are as follows:

	2020	Expiry Date Range	2019	Expiry Date Range
Temporary differences				
Investment tax credit	\$ 40,000	2026 to 2027	\$ 40,000	2026 to 2027
Property and equipment	21,000	No expiry date	18,000	No expiry date
Share issue costs	114,000	2041 to 2042	208,000	2040 to 2042
Allowable capital losses	64,000	No expiry date	13,000	No expiry date
Non-capital losses available for future period	30,419,000	2026 to 2040	37,698,000	2026 to 2039
Canada	39,583,000	2026 to 2040	36,332,000	2026 to 2039
USA	1,337,000	2027 to 2037	1,366,000	2027 to 2037

Tax attributes are subject to review, and potential adjustment, by tax authorities.

14. CONTINGENCIES

The Company is involved in certain claims and legal actions in the ordinary course of business. In the opinion of management, the ultimate disposition of these matters is not determinable. No amounts have been accrued in the financial statements as of December 31, 2020.

15. SUBSEQUENT EVENTS

On March 5, 2021 the Company announced that the Company's common shares ("Shares") would be consolidated on the basis of one (1) post-Consolidation Share for every ten (10) pre-Consolidation Shares (the "Consolidation"). No fractional Shares were issued pursuant to the Consolidation. Any fractional Shares equal to or greater than one-half resulting from the Consolidation were rounded up to the next whole number of Shares, and any fractional Shares less than one-half resulting from the Consolidation were rounded down to the nearest whole number. This reduced the number of issued and outstanding common shares of the Company from 401,792,516 to 40,179,248 effective March 8, 2021.

On February 23, 2021, the Company initiated its Normal Course Issuer Bid ("NCIB") to repurchase up to 2,008,963 post-Consolidation shares, representing 5% of the issued and outstanding common shares. As of March 31, 2021, the Company has purchased a total of 350,000 common shares for a total of \$73,810 at an average price of \$0.21/share under the NCIB. The NCIB will terminate on the earlier of February 23, 2022 and the date on which the maximum number of Common Shares that can be acquired pursuant to the NCIB have been purchased. Any common shares purchased pursuant to the NCIB will be cancelled by the Company.

2020

Condensed Consolidated Interim Financial Statements

for the nine months ended September 30, 2020

(Unaudited – Expressed in CAD dollars)

NOTICE OF NO AUDITOR REVIEW OF INTERIM FINANCIAL STATEMENTS

Under National Instrument 51-102, Part 4, subsection 4.3(3)(a), if an auditor has not performed a review of the interim financial statements, they must be accompanied by a notice indicating that the financial statements have not been reviewed by an auditor.

The accompanying unaudited interim financial statements of the Company have been prepared by and are the responsibility of the Company's management.

The Company's independent auditor has not performed a review of these financial statements in accordance with standards established by the Chartered Professional Accountants of Canada for a review of interim financial statements by an entity's auditor.

The accompanying notes are an integral part of these condensed consolidated interim financial statements.

1. NATURE OF OPERATIONS AND GOING CONCERN

Belgravia Hartford Capital Inc. (“Belgravia” or the “Company”) was incorporated under the Canada Business Corporations Act on November 8, 2002 and has continued into British Columbia from the jurisdiction of Canada on December 20, 2019. The Company’s registered office is 3 - 3185 Via Central, Kelowna, BC V1V 2A7. The Condensed Consolidated Interim Financial Statements (“Interim Financial Statements”) are comprised of the Company and its subsidiaries.

During the year ended December 31, 2017, the Company disposed of its interest in a wholly-owned subsidiary which was involved in the development of potash-related minerals. The Company is now focusing on merchant banking and providing management services in the resources, technology, developing healthcare products, as well as pursuing the royalty streams from its previous potash project.

The Company’s continuation as a going concern is dependent on cash flow from its investments, royalties, or operations and its ability to raise equity capital or borrowings sufficient to meet current and future obligations. While the Company currently has no source of operating revenue other than management services consulting fees, its working capital of \$16,421,168 at September 30, 2020 leads management to believe the Company has sufficient capital to fund its business activities and general working capital for at least the next 12 months. The Company’s financial success is dependent on its ability to identify, evaluate, negotiate, and exit investments in assets or businesses. These Condensed Consolidated Interim financial statements have been prepared by management on a going concern basis which assumes that the Company will be able to realize its assets and discharge its liabilities in the normal course of business for the foreseeable future.

The Company is currently exploring alternatives to obtain financing. Such alternatives may involve debt, equity or alternative financing structures and may occur at the public company or subsidiary level.

2. SIGNIFICANT ACCOUNTING POLICIES

d) Statement of compliance:

These Interim Financial Statements have been prepared in accordance with IAS 34 “Interim Financial Reporting” (“IAS 34”) using accounting policies consistent with the International Financial Reporting Standards (“IFRS”) issued by the International Accounting Standards Board (“IASB”) and Interpretations of the International Financial Reporting Interpretations Committee (“IFRIC”).

The Interim Financial Statements were authorized by the audit committee and board of directors of the Company on November 25, 2020.

e) Basis of presentation:

The Interim Financial Statements have been prepared on the historical cost basis except for certain financial instruments, which are measured at fair value. In addition, these Interim Financial Statements have been prepared using the accrual basis of accounting, except for cash flow information. The comparative figures presented in these Interim Financial Statements are in accordance with IFRS and have not been audited.

The preparation of interim financial statements in conformity with IAS 34 requires management to make judgments, estimates and assumptions that affect the application of policies and reported amounts of assets and liabilities, income and expenses. Actual results may differ from these estimates. These Interim Financial Statements do not include all of the information required for annual financial statements.

The significant accounting policies for these Interim Financial Statements are consistent with those disclosed in the audited financial statements for the year-ended December 31, 2019. These Interim Financial Statements should be read in conjunction with the Company’s audited consolidated financial statements for the year-ended December 31, 2019.

2. SIGNIFICANT ACCOUNTING POLICIES (cont'd...)

c) Basis of consolidation:

The Condensed Consolidated Interim Financial Statements of the Company include the following subsidiaries:

Name of subsidiary	Place of incorporation	Percentage ownership
Intercontinental Potash Corp.	<i>Canada</i>	100%
Trigon Exploration Utah Inc.	<i>USA</i>	100%

The Company consolidates the subsidiaries on the basis that it controls these subsidiaries when the Company possesses power over an investee, has exposure to variable returns from the investee, and has the ability to use its power over the investee to affect its returns. All intercompany transactions and balances are eliminated on consolidation.

d) Cash:

Cash is comprised of cash deposited at Canadian banks and secure, short-term, highly liquid demand deposits.

e) Investments:

All investments except investments in debt instruments are classified upon initial recognition at fair value through profit or loss ("FVTPL"), with changes in fair value reported in profit or loss. Purchases and sales of investments are recognized on the settlement date. Investments at FVPTL are initially recognized at fair value. Transaction costs are expensed as incurred in the statement of loss and comprehensive loss. Investments in debt instruments are initially measured at fair value then subsequently measured at amortized cost using the effective interest rate method.

Subsequent to initial recognition, all investments are measured at fair value. Gains and losses arising from changes in the fair value of the FVTPL investments are recognized in profit or loss.

Investments in common shares of public companies are measured at fair value based on published market prices with unrealized gains and losses recognized through profit or loss. The valuation of these shares has been determined in whole by reference to the close price of the shares on the TSX, TSX Venture Exchange or Canadian Securities Exchange ("CSE") at each reporting date. Various warrants have been received as attachments to share purchase units and do not trade in an active market. At the time of purchase, the per unit cost is allocated to common shares and warrants using the residual value method. The value of the warrants is subsequently determined at the measurement date using the Black-Scholes option pricing model.

All privately held investments are initially recorded at the transaction price, being the fair value at the time of acquisition. Thereafter, at each reporting period, the fair value of an investment may, depending upon the circumstances, be adjusted with unrealized gains and losses recognized through profit or loss.

2. SIGNIFICANT ACCOUNTING POLICIES (cont'd...)

f) Significant accounting estimates and judgments:

The preparation of these Interim Financial Statements requires management to make judgments, estimates and assumptions about future events that affect the reported amounts of assets and liabilities and disclosure of contingent assets at the date of the financial statements and the reported amounts of revenues and expenses during the reporting year. Although these estimates are based on management's best knowledge of the amount, events or actions, actual results may differ from these estimates.

g) Revenue recognition

Management services revenue is recognized when services are rendered, and the amount can be reasonably estimated and collected. Any amount received for future services is recorded as deferred revenue and recognized as revenue when the related services are performed.

3. RECEIVABLES AND LOAN RECEIVABLE

c) Receivables are comprised of:

	September 30, 2020	December 31, 2019
GST receivable ⁽ⁱ⁾	\$ 6,848	\$ 20,411
Management services fees receivable ⁽ⁱⁱ⁾	\$ 38,581	\$ 106,030
Total	\$ 45,429	\$ 126,441

iii) The Company had GST receivable of \$6,848 at September 30, 2020.

iv) The Company provides management services to several companies. Pursuant to management services agreements, the Company is owed \$38,581 at September 30, 2020.

The Company advanced a total of \$52,000 to an arm's length party. The loan bears interest of 8% is unsecured and is due on December 11, 2020.

4. INVESTMENTS

The Company's investments include common shares and warrants of Canadian companies that are listed on various Canadian stock exchanges and investments in private Canadian and U.S. companies as well as certain investment funds, such as money market funds and bond funds, held through Canadian investment dealers and debt instruments. The fair values of the common shares of the publicly traded companies have been directly referenced to published price quotations in an active market. The fair value of investments in private companies is referenced to the most recent equity financing completed by each private company. The investments in unlisted warrants of companies that are publicly traded are valued using the Black-Scholes option pricing model, with the following weighted average assumptions:

	Period ended September 30, 2020	Year ended December 31, 2019
Risk-free interest rate	0.23%	1.71%
Expected life of warrants	1.72 years	1.17 years
Annualized volatility	127.21%	131.30%
Dividend rate	0.00%	0.00%

As at September 30, 2020, fair value of the investments was \$16,237,027 (2019 - \$7,922,858). This includes the value of equity investments of \$13,831,424 (2019 - \$6,696,514), debt instruments of \$325,000 (2019 - \$325,000), and value of warrants of \$2,080,603 (2019 - \$901,344).

During the nine-month period ended September 30, 2020, the Company recorded an unrealized gain of \$8,144,971 (2019 - \$1,819,200) for equity investments and an unrealized gain of \$1,438,527 (2019 - \$760,836) for warrants.

During the nine-month period ended September 30, 2020, the Company exercised warrants and sold certain of its investments for proceeds totalling \$3,295,611 (2019 - \$2,356,386) and recognized a gain of \$547,190 (2019 - \$426,934).

4. INVESTMENTS (cont'd...)

Investments at September 30, 2020	Number of Shares	Cost	Fair Value
Public Companies:			
Azincourt Energy Corp	8,595,000	\$ 338,408	\$ 207,375
Blackrock Gold Corp.	11,436,200	\$ 1,300,312	\$ 10,178,218

Investments in Bridge Loan	n/a	\$ 325,000	\$ 325,000
Investments in Warrants	n/a	\$ 116,667	\$ 2,080,603
Total		\$ 4,324,025	\$ 16,237,027
<hr/>			
	September 30, 2020		December 31, 2019
Current investments	\$ 16,177,318	\$	7,436,286
Non-current investments	59,709		77,569
	\$ 16,237,027	\$	7,513,855

5. EQUIPMENT

Equipment consists of the following:

Cost		Computer equipment
As at December 31, 2018	\$	10,819
Additions		-
Disposal		-
As at December 31, 2019		10,819
Additions		3,239
Disposals		(6,988)
As at September 30, 2020	\$	7,070
Depreciation		
As at December 31, 2018	\$	3,788
Depreciation		2,698
As at December 31, 2019		6,486
Depreciation this year		892
Remove accumulation depreciation on disposals		(4,789)
As at September 30, 2020	\$	2,589
Net book value:		
As at December 31, 2019	\$	4,333
As at September 30, 2020	\$	4,481

6. ACCOUNTS PAYABLE AND ACCRUED LIABILITIES

	September 30, 2020	December 31, 2019
Trade payables	\$ 82,439	\$ 97,573
Accrued liabilities	38,500	59,620
Other	21,092	14,560
Total	\$ 142,031	\$ 171,753

7. SHARE CAPITAL AND RESERVES

Common shares

Authorized: The Company is authorized to issue an unlimited number of common shares without par value.

Refer to the Condensed Consolidated Interim Statements of Changes in Shareholders' Equity for a summary of changes in share capital and reserves for the period ended September 30, 2020; Reserves relate to stock options and warrants that have been issued by the Company (note 8).

During the period ended September 30, 2020, the Company issued nil common shares.

During the period ended September 30, 2019, the Company issued nil common shares.

8. STOCK OPTIONS AND WARRANTS

Stock options

The Company has an incentive stock option plan (the "Plan") whereby the Company may grant stock options to eligible employees, officers, directors and consultants at an exercise price to be determined by the board of directors, provided the exercise price is not lower than the market value at time of issue less any discount allowed by the stock exchange upon which the common shares are listed. The Plan provides for the issuance of up to 10% of the Company's issued common shares as at the date of grant with each stock option having a maximum term of ten years. The board of directors has the exclusive power over the granting of options and their vesting and cancellation provisions.

As at September 30, 2020, the Company had stock options outstanding, enabling the holders to acquire the following number of common shares:

Number of Options	Exercise Price	Average Contractual Life Remaining (years)	Expiry Date
2,500,000	\$ 0.08	0.68	June 6, 2021
2,500,000			

8. STOCK OPTIONS AND WARRANTS (cont'd...)

Stock options (cont'd...)

Stock option transactions are summarized as follows:

	Number of Options	Weighted Average Exercise Price
Outstanding December 31, 2018	39,000,000	\$ 0.10
Cancelled	(36,500,000)	0.13
Outstanding December 31, 2019	2,500,000	0.08
Outstanding September 30, 2020	2,500,000	\$ 0.08
Number of options exercisable at September 30, 2020	2,500,000	\$ 0.08

During the period ended September 30, 2020, the Company granted nil (2019 – nil) stock options to consultants, officers, employees and directors of the Company. All options vested at the grant date.

The fair value of the options granted during the period ended September 30, 2020, as determined by the Black-Scholes option pricing model, was \$nil (2019 - \$nil) or \$nil per option (2019 - \$nil).

Share-based compensation recognized during the period was \$nil (2019 - \$nil).

Warrants

As at September 30, 2020, the Company had nil warrants outstanding.

Warrant transactions are summarized as follows:

	Number of Warrants	Weighted Average Exercise Price
Outstanding as at December 31, 2018	133,990,000	\$ 0.06
Expired	(133,990,000)	0.06
Outstanding as at December 31, 2019	-	-
Outstanding as at September 30, 2020	-	\$ -

Broker warrants

As at September 30, 2020, the Company had nil broker warrants outstanding.

Broker warrants transactions are summarized as follows:

	Number of Warrants	Weighted Average Exercise Price
Outstanding as at December 31, 2018	3,649,200	\$ 0.19
Expired	(3,649,200)	0.19
Outstanding as at December 31, 2019	-	-
Outstanding as at September 30, 2020	-	\$ -

9. RELATED PARTY TRANSACTIONS AND BALANCES

The accounts payable and accrued liabilities of the Company include the following amounts due to related parties:

	September 30, 2020	December 31, 2019
Key management personnel	\$ 45,947	\$ 82,053
	<u>\$ 45,947</u>	<u>\$ 82,053</u>

Key management personnel compensation (consisting of senior officers and directors of the Company):

	Nine-month period ended	
	September 30, 2020	September 30, 2019
Short-term benefits *	\$ 660,000	\$ 618,500
Directors' fees **	253,750	153,750
Total remuneration	<u>\$ 913,750</u>	<u>\$ 772,250</u>

* Amounts are included within wages and benefits on the statement of loss and comprehensive loss.

** Amounts are included within administration on the statement of loss and comprehensive loss.

10. SEGMENTED INFORMATION

The Company has one operating segment focused on merchant banking as well as providing management services and pursuing the royalty streams from its previous potash project. All of the Company's capital assets are located in Canada.

11. MANAGEMENT OF CAPITAL

The Company's objectives when managing capital are to safeguard the Company's ability to continue as a going concern and to invest to earn a risk-appropriate return for shareholders. The Company does not have any externally imposed capital requirements to which it is subject. The capital of the Company consists of items in shareholders' equity. The Company had no bank indebtedness at September 30, 2020. The Board of Directors do not establish quantitative return on capital criteria for management, but rather rely on the expertise of the Company's management to sustain future development of the business.

The Company manages the capital structure and makes adjustments to it in light of changes in available funds, economic conditions and the risk characteristics of the underlying assets. To maintain or adjust the capital structure, the Company may issue new shares, borrow money, or dispose of assets to adjust the amount of cash.

The Company's investment policy is to invest its cash necessary to fund operations for the next 12 months in demand investment instruments in high credit quality financial institutions to provide liquidity over the expected time of expenditures from continuing operations. The Company also invests some of its excess cash in common shares and other securities of private and public companies.

There were no significant changes in the Company's approach to capital management during the period ended September 30, 2020.

12. FINANCIAL INSTRUMENTS AND RISK MANAGEMENT

IFRS 7, Financial Instruments: Disclosures, establishes a fair value hierarchy that reflects the significance of the inputs used in making the measurements. The fair value hierarchy has the following levels:

Level 1 - quoted prices (unadjusted) in active markets for identical assets or liabilities;

Level 2 - inputs other than quoted prices included in Level 1 that are observable for the asset or liability, either directly (i.e. as prices) or indirectly (i.e. derived from prices); and

Level 3 - inputs for the asset or liability that are not based on observable market data (unobservable inputs).

The Company's financial instruments include cash, investments, receivables, and accounts payable and accrued liabilities.

The carrying values of receivables, and accounts payable and accrued liabilities approximate fair value because of the short-term nature of these instruments.

As at September 30, 2020, the Company's classification of financial instruments measured at fair value within the fair value hierarchy are summarized below:

	Level 1	Level 2	Level 3	Total
Cash	\$ 219,358	\$ -	\$ -	\$ 219,358
Equity investments	11,789,569	-	4,122,458	15,912,027
	\$ 12,008,927	\$ -	\$ 4,122,458	\$ 16,131,385

As at December 31, 2019, the Company's classification of financial instruments within the fair value hierarchy are summarized below:

	Level 1	Level 2	Level 3	Total
Cash	\$ 653,975	\$ -	\$ -	\$ 653,975
Investments	4,666,271	-	2,522,584	7,188,855
	\$ 5,320,246	\$ -	\$ 2,522,584	\$ 7,842,830

12. FINANCIAL INSTRUMENTS AND RISK MANAGEMENT (cont'd...)

Financial instruments (cont'd...)

The Company's risk exposures and the impact on the Company's financial instruments are summarized below:

Credit risk

The Company's credit risk is primarily attributable to cash and receivables. The Company has no significant concentration of credit risk arising from operations. Cash is held at reputable financial institutions, from which management believes the risk of loss to be remote. Receivables consist primarily of amounts due from government agencies, and from management services customers, which the Company believes will be fully collected.

Liquidity risk

As at September 30, 2020, the Company had a cash balance of \$219,358 to settle current liabilities of \$142,031. The Company is not subject to significant liquidity risk.

Interest rate risk

The Company has cash balances subject to fluctuations in the prime rate. The Company's current policy is to invest some of excess cash in investment-grade highly liquid demand deposit certificates issued by its banking institutions. The Company periodically monitors the investments it makes and is satisfied with the credit ratings of its banks. Management believes that interest rate risk is remote as cash deposits are payable on demand and the Company currently does not carry interest bearing debt at floating rates. Fluctuations in interest rates may impact the value of the Company's investments in publicly traded common shares.

Foreign currency risk

The Company's functional currency is the Canadian dollar; however, there are few transactions and investments in U.S. dollars and the Company keeps some of its cash in U.S. currency. The Company is exposed to financial risk arising from fluctuations in foreign exchange rates and the degree of volatility in these rates. The Company does not use derivative instruments to reduce its exposure to foreign currency risk. A 10% change in the foreign exchange rate would have had an approximate \$200 impact on foreign exchange gain or loss.

Market risk

Market risk is the risk that the fair value of, or future cash flows from, the Company's financial instruments will fluctuate due to changes in market prices. The value of financial instruments can be affected by changes in interest rates, foreign exchange rates, and equity and commodity prices. The Company is exposed to market risk in trading its investments and unfavourable market conditions could result in dispositions of investments at less than favourable prices. The Company's investments are primarily concentrated in the natural resources, junior healthcare, and technology industries, which results in exposure to higher volatility than broader market investments and indexes. The Company's investments are accounted for at fair value and are sensitive to changes in market bid prices, such that changes in market prices result in a proportionate change in the carrying value of the Company's investments. The Company holds investments in private and public traded equity securities. Market prices for equity securities are subject to fluctuation and consequently the amount realized in the subsequent sale of an investment may significantly differ from the reported market value. Some investments may not be very liquid and dispositions may take time or may be sold at less than market prices. A 10% change in the fair values of the Company's investments at September 30, 2020 would have an \$1,624,000 impact on results from operations.

13. CONTINGENCIES

The Company is involved in certain claims and legal actions in the ordinary course of business. In the opinion of management, the ultimate disposition of these matters is not determinable. No amounts have been accrued in the financial statements as of September 30, 2020.
