

FORM 7

MONTHLY PROGRESS REPORT

Name of Listed Issuer: Metalo Manufacturing Inc. (the "Issuer").

Trading Symbol: MMI

Number of Outstanding Listed Securities: 18,958,475

Date: September 8, 2020

This Monthly Progress Report must be posted before the opening of trading on the fifth trading day of each month. This report is not intended to replace the Issuer's obligation to separately report material information forthwith upon the information becoming known to management or to post the forms required by Exchange Policies. If material information became known and was reported during the preceding month to which this report relates, this report should refer to the material information, the news release date and the posting date on the Exchange website.

This report is intended to keep investors and the market informed of the Issuer's ongoing business and management activities that occurred during the preceding month. Do not discuss goals or future plans unless they have crystallized to the point that they are "material information" as defined in the Policies. The discussion in this report must be factual, balanced and non-promotional.

General Instructions

- (a) Prepare this Monthly Progress Report using the format set out below. The sequence of questions must not be altered, nor should questions be omitted or left unanswered. The answers to the items must be in narrative form. State when the answer to any item is negative or not applicable to the Issuer. The title to each item must precede the answer.
- (b) The term "Issuer" includes the Issuer and any of its subsidiaries.
- (c) Terms used and not defined in this form are defined or interpreted in Policy 1 – Interpretation and General Provisions.

Report on Business

1. Provide a general overview and discussion of the development of the Issuer's business and operations over the previous month. Where the Issuer was inactive disclose this fact.

Metalco Manufacturing Incorporated (“MMI”) is an indirect and major shareholder in the following two companies:

- **Pure Fonte Ltée (“PFL”) – a corporation building a proposed US\$408 million pig iron plant in Quebec**
- **North Atlantic Iron Corporation (“NAIC”) – a corporation owning mineral rights in Labrador, NL.**

Current measures have focused on the two assets with a view to advance the course of action to the next level:

- 1. Recent discussions with the permitting stages required for the cast iron plant have now been re-established with the Authorities. Most of the work has been completed the strategy will see the final stage of permitting immediately activated. Several location/infrastructure related undertakings bolstering the business model for the plant are underway. Efforts have been strengthened to close the capital for permitting. Reengagement discussions with expert permitting advisors have also begun.**
- 2. On the mineral sands – two advanced mineral processing reports are being assessed. The reports realized a European firm using an approach using crushing, flotation, magnetics with a base grain size of +1.0mm-0.5mm achieve a superior purity of 99.4% SiO₂ with an Fe of 0.07%. The Asian experts focused on spirals (gravity), floatation, magnetics achieving an SiO₂ of 99.3% with an Fe of 0.01%. The lower Fe meets the specifications for clear glass making (residential and commercial) and borosilicate glass (Pyrex). A higher iron (0.07%) can be used for coloured glass – while both the feldspars and silica quartz can be used for construction, sand cast moulds, fibreglass, water filtration, ceramics, silicon carbide, with one lab confirming frac sands, etc. Currently, an immediate focus on off-take, a US\$3-5 million financing and permitting. Additionally, several drill permits have been filed with the regulatory authorities.**

MMI has a holding of 43.92% in GRI which owns 100% of PFL and 90% of NAIC. The trading symbol is ‘MMI’ and trades on the Canadian Securities Exchange (CSE).

- 2. Provide a general overview and discussion of the activities of management.**

***The Issuer* continues to monitor the progress of GRI. Currently, GRI controls 100% of PFL, the owner of the pig iron project, and 90% of NAIC, the owner of the mineral sand’s asset. NAIC has recently commenced re-assessing potential minerals of value with the project in Labrador. Work plans for 2020-21 are being assessed. Upon closing the proposed financing for the minerals sands a dedicated team will be put in place to advance the next steps including community consultations and permitting.**

There have been significant shifts in several cost centres for the pig iron plant and the net effect is a marginal shift in project economics with CapEx declining – the movement of inputs and sales process will continue to fluctuate. Market prices and volumes remain volatile due to COVID-19 impacts.

MMI currently has 18,958,475 shares issued and outstanding.

GRI currently has 23,769,327 shares issued and outstanding.
