

FORM 7

MONTHLY PROGRESS REPORT

Name of Listed Issuer: CAVU Mining Corp. (the "Issuer").

Trading Symbol: CAVU

Number of Outstanding Listed Securities: 21,008,834 common shares

Date: August 6, 2021 (for the month of July 2021)

This Monthly Progress Report must be posted before the opening of trading on the fifth trading day of each month. This report is not intended to replace the Issuer's obligation to separately report material information forthwith upon the information becoming known to management or to post the forms required by Exchange Policies. If material information became known and was reported during the preceding month to which this report relates, this report should refer to the material information, the news release date and the posting date on the Exchange website.

This report is intended to keep investors and the market informed of the Issuer's ongoing business and management activities that occurred during the preceding month. Do not discuss goals or future plans unless they have crystallized to the point that they are "material information" as defined in the Policies. The discussion in this report must be factual, balanced and non-promotional.

General Instructions

- (a) Prepare this Monthly Progress Report using the format set out below. The sequence of questions must not be altered nor should questions be omitted or left unanswered. The answers to the items must be in narrative form. State when the answer to any item is negative or not applicable to the Issuer. The title to each item must precede the answer.
- (b) The term "Issuer" includes the Issuer and any of its subsidiaries.
- (c) Terms used and not defined in this form are defined or interpreted in Policy 1 – Interpretation and General Provisions.

Report on Business

1. Provide a general overview and discussion of the development of the Issuer's business and operations over the previous month. Where the Issuer was inactive disclose this fact.

The Issuer is a mining company engaged in the acquisition, exploration and development of mineral projects containing metals used in green technologies and the renewable energy sector.

On July 28, 2021, The Company closed its previously announced non-brokered flow through private placement offering on an oversubscribed basis, raising gross proceeds of \$513,600. The closing consisted of the issuance of 1,141,332 flow through shares (FT Share) at a price of \$0.45 per FT Share (the “Offering”).

The proceeds raised from the Offering will be used for exploration expenditures on the Hopper copper-gold project in Yukon and the Kitimat copper-gold project in BC.

2. Provide a general overview and discussion of the activities of management.
Please see #1.

3. Describe and provide details of any new products or services developed or offered. For resource companies, provide details of new drilling, exploration or production programs and acquisitions of any new properties and attach any mineral or oil and gas or other reports required under Ontario securities law.

The Issuer has initiated historical data processing and permitting on the Kitimat copper-gold project. The Issuer has applied for a 5-year area-based permit that allows for line-cutting, drilling, and ground geophysics. This work will allow the Issuer to proceed with its intended 2-phase exploration program, including ground geophysics and drilling of the Bowbyes and Jeannette targets.

The Issuer has completed an airborne 3-sensor gradient magnetic, radiometric, and VLF survey over the Jeanette target.

On July 6, 2021, the Issuer initiated its diamond drilling program on the Hopper Project in the traditional territory of the Champagne Aishihik First Nations.

On July 19, 2021, the Issuer announced that 250 meters had been drilled in 3 holes before the Issuer decided to temporarily pause the drilling due to a posted safety risk to personnel from a forest fire in the area.

Two day later, after receiving confirmation from local authorities that the fire was contained and posed no further threat to the Issuer's crew, the drill-crews were mobilized immediately, and drilling resumed.

On July 27, 2021, 550m had been drilled in the Franklin and LV skarn zones. The three holes drilled in the Franklin skarn have been logged, sampled and sent to MS Analytical in Langley for assays.

All holes have intersected skarn zones with visible copper-sulphide mineralization consisting of chalcopyrite. Currently, the LV and JG skarn zones are being drilled. After these targets are tested, the program will test the main porphyry target with a 350m deep hole. The porphyry hole will be the second diamond drill hole to ever test the porphyry mineralization on the claim.

4. Describe and provide details of any products or services that were discontinued. For resource companies, provide details of any drilling, exploration or production programs that have been amended or abandoned.

None

5. Describe any new business relationships entered into between the Issuer, the Issuer's affiliates or third parties including contracts to supply products or services, joint venture agreements and licensing agreements etc. State whether the relationship is with a Related Person of the Issuer and provide details of the relationship.

6. Describe the expiry or termination of any contracts or agreements between the Issuer, the Issuer's affiliates or third parties or cancellation of any financing arrangements that have been previously announced.

None

7. Describe any acquisitions by the Issuer or dispositions of the Issuer's assets that occurred during the preceding month. Provide details of the nature of the assets acquired or disposed of and provide details of the consideration paid or payable together with a schedule of payments if applicable, and of any valuation. State how the consideration was determined and whether the acquisition was from or the disposition was to a Related Person of the Issuer and provide details of the relationship.

None

8. Describe the acquisition of new customers or loss of customers.

None

9. Describe any new developments or effects on intangible products such as brand names, circulation lists, copyrights, franchises, licenses, patents, software, subscription lists and trade-marks.

None

10. Report on any employee hirings, terminations or lay-offs with details of anticipated length of lay-offs.

None

11. Report on any labour disputes and resolutions of those disputes if applicable.

None

12. Describe and provide details of legal proceedings to which the Issuer became a party, including the name of the court or agency, the date instituted, the principal parties to the proceedings, the nature of the claim, the amount claimed, if any, if the proceedings are being contested, and the present status of the proceedings.

None

13. Provide details of any indebtedness incurred or repaid by the Issuer together with the terms of such indebtedness.

None

14. Provide details of any securities issued and options or warrants granted.

None

Security	Number Issued	Details of Issuance	Use of Proceeds⁽¹⁾
Common Shares	1,141,332	Private placement of flow through shares (FT Shares) at a price of \$0.45 per FT Share for gross proceeds of \$513,600	will be used for exploration expenditures on the Hopper copper-gold project in Yukon and the Kitimat copper-gold project in BC.
