CSE trading volumes and financings have increased in the past year and the CSE reported that its 2021 trading volumes have been the highest on record.

Precious metals prices remain above their recent 5-year averages. Global trade is increasing just as supply chain disruptions are also evident, and government spending continues at record levels, fuelling more demand and increasing inflationary pressures across many global jurisdictions. These trends are very positive for exploration companies.

Since all the Company's properties are located in Canada, we avoid the need for foreign travel which has been severely curtailed due to COVID-19.

BC and Newfoundland are favourable jurisdictions in which to conduct mining, offering stable resource-positive governments, Canadian tax incentive programs such as flow-through shares and mineral exploration tax credits, support for First Nations engagement and strong worker safety and environmental standards.
