The answers to the items must be in narrative form. State when the answer to any item is negative or not applicable to the Issuer. The title to each item must precede the answer.
- (b) The term "Issuer" includes the Issuer and any of its subsidiaries.
- (c) Terms used and not defined in this form are defined or interpreted in Policy 1 – Interpretation and General Provisions.

Report on Business

1. Provide a general overview and discussion of the development of the Issuer's business and operations over the previous month. Where the Issuer was inactive disclose this fact.

The Issuer continued its business of developing proprietary, non-invasive, and accurate cancer diagnostic solutions which can help detect, monitor, and assess treatment for cancer early, accurately and cost effectively.

2. Provide a general overview and discussion of the activities of management.
 - **As COVID-19 pandemic management measures intensify as aggressive vaccination, testing and vaccine verification programs are being implemented, there are hopeful signs that business activity might resume normally. Financial, operational and recovery measures instituted by the management team aided in sustaining business viability over the past 12 months and the company intends to keep a vigilant eye should another wave erupt in the fall. Financial measures include reducing working capital, delaying capital expenditures(equipment), cost cutting initiatives and tapping into government grants/support programs.**
 - **BioMark completed lab equipment installation and is now testing the system with vendors in its Quebec based lab facilities. The plan is to have the lab ready by Oct 2021. Additionally, hiring has commenced for lab staff. Interviewing of candidates continues. The company intends to hire at least 3 highly qualified staff members shortly.**
 - **BioMark will be filing a provisional patent related to new discoveries on its glioblastoma studies conducted by Dr. Don Miller and his group at the Department of Pharmacology & Therapeutics, Kleysen Institute for Advanced Medicine University of Manitoba.**
 - **Preliminary data analysis on an early breast cancer metabolic panel looks was very promising. The study involved 280 samples with emphasis on early stage. More detailed statistical analysis is underway at TMIC and request for additional clinical data from participating USA based institutions have been made to establish better algorithms**

- **Discussions are underway with financial institution and government agency to secure favourable loans and equity investments for purchasing more equipment to support operation and expansion in Quebec.**
 - **BioMark submitted a JnJ Quickfire application for a USD \$250,000 grant related to Veteran Health. The application was focused on the use of BioMark’s liquid biopsy assay for early lung cancer detection.**
 - **BioMark completed NRC-IRAP grant funding application to support research, training, and business building activities in Quebec. The total cost of the project is over \$380,000, of which NRC-IRAP will contribute up to \$170,000. Decision is expected later in October 2021.**
3. Describe and provide details of any new products or services developed or offered. For resource companies, provide details of new drilling, exploration or production programs and acquisitions of any new properties and attach any mineral or oil and gas or other reports required under Ontario securities law.
- Not applicable.**
