

## FORM 7

### **MONTHLY PROGRESS REPORT**

Name of Listed Issuer: Aether Catalyst Solutions, Inc. (the "Issuer").

Trading Symbol: ATHR

Number of Outstanding Listed Securities: 53,657,794

Date: August 9, 2023

This Monthly Progress Report must be posted before the opening of trading on the fifth trading day of each month. This report is not intended to replace the Issuer's obligation to separately report material information forthwith upon the information becoming known to management or to post the forms required by Exchange Policies. If material information became known and was reported during the preceding month to which this report relates, this report should refer to the material information, the news release date and the posting date on the Exchange website.

This report is intended to keep investors and the market informed of the Issuer's ongoing business and management activities that occurred during the preceding month. Do not discuss goals or future plans unless they have crystallized to the point that they are "material information" as defined in the Policies. The discussion in this report must be factual, balanced and non-promotional.

#### **General Instructions**

- (a) Prepare this Monthly Progress Report using the format set out below. The sequence of questions must not be altered nor should questions be omitted or left unanswered. The answers to the items must be in narrative form. State when the answer to any item is negative or not applicable to the Issuer. The title to each item must precede the answer.
- (b) The term "Issuer" includes the Issuer and any of its subsidiaries.
- (c) Terms used and not defined in this form are defined or interpreted in Policy 1 – Interpretation and General Provisions.

#### **Report on Business**

1. Provide a general overview and discussion of the development of the Issuer's business and operations over the previous month. Where the Issuer was inactive disclose this fact.

***Aether is pleased to report the following activity for the month of July:***

***Aether's equipment for the JDA was delayed due to weather in Asia, and other shipping issues. The equipment has now arrived. In the beginning of August, Aether will quickly process the material, validate that it meets the required specifications and deliver it to our partner. We have maintained regular contact with our development partner during these delays and, when quality metrics are met, anticipate the project to proceed smoothly.***

***Aether continues to investigate developing test capabilities for large commercial vehicle catalysts in order to accelerate the testing and development cycle for the Fleetco project. Aether is seeking to do so in collaboration with Fleetco but can proceed with the endeavor regardless, as there remains an unmet demand in the commercial vehicle market for a catalyst that is not a theft target.***

***The USMEAP field test continues to yield promising results. The most used test unit has over 275 hours on it and continues to convert 100% of the NOx emissions. Despite relatively warm dry weather over the last month, the test units all continue to accumulate significant usage hours (not always possible at this time of year). To date, none of the test units has shown any significant degradation. Outreach to OEMs in the small motors space has begun with the goal being a JDA or commercial relationship in the space.***

***Overall, progress in the lab on Aether's catalyst technology continues. As previously reported, Aether is developing some new approaches to synthesizing our catalyst chemistry such that we can more deftly approach our technical goals. Future work will aim to combine this with other on-going strategies for the improvement of aging durability.***

2. Provide a general overview and discussion of the activities of management.

***Management began the process of reaching out to OEMs in the small motors space and continues to exercise oversight over research activities and corporate matters.***

3. Describe and provide details of any new products or services developed or offered. For resource companies, provide details of new drilling, exploration or production programs and acquisitions of any new properties and attach any mineral or oil and gas or other reports required under Ontario securities law. ***N/A***

4. Describe and provide details of any products or services that were discontinued. For resource companies, provide details of any drilling, exploration or production programs that have been amended or abandoned. **N/A**
