**In December 2019, a strain of novel coronavirus (now commonly known as "COVID-19") was reported to have surfaced in Wuhan, China. COVID-19 has since spread rapidly throughout many countries, and, on March 11, 2020, the World Health Organization declared COVID-19 to be a pandemic. In an effort to contain and mitigate the spread of COVID-19, many countries, including the United States and Canada, have imposed unprecedented restrictions on travel, and there have been business closures and a substantial reduction in economic activity in countries that have had significant outbreaks of COVID-19.**

**At this time the Company remains open for business, however significant uncertainty remains as to the potential impact of the COVID-19 pandemic on our operations, and on the global economy as a whole. Government-imposed restrictions on travel and other "social-distancing" measures on assembly of groups of persons, have the potential to disrupt supply chains for parts and sales channels for our products, including delays in obtaining any necessary regulatory and government approvals.**

**It is currently not possible to predict how long the pandemic will last or the time that it will take for economic activity to return to prior levels. We will continue to monitor the COVID-19 situation closely and intend to follow health and safety guidelines as they evolve.**

**Other trends and risks that could impact the issuer are detailed on pages 43 to 53 in section 17 “Risk Factors” of the Issuer’s Form 2A Listing Statement dated October 5, 2018.**
