(the "Issuer", or the "Company").

Trading Symbol: BULL

Number of Outstanding Listed Securities: 101,094,646

Date: May 7, 2020

This Monthly Progress Report must be posted before the opening of trading on the fifth trading day of each month. This report is not intended to replace the Issuer's obligation to separately report material information forthwith upon the information becoming known to management or to post the forms required by Exchange Policies. If material information became known and was reported during the preceding month to which this report relates, this report should refer to the material information, the news release date and the posting date on the Exchange website.

This report is intended to keep investors and the market informed of the Issuer's ongoing business and management activities that occurred during the preceding month. Do not discuss goals or future plans unless they have crystallized to the point that they are "material information" as defined in the Policies. The discussion in this report must be factual, balanced and non-promotional.

General Instructions

- (a) Prepare this Monthly Progress Report using the format set out below. The sequence of questions must not be altered nor should questions be omitted or left unanswered. The answers to the items must be in narrative form. State when the answer to any item is negative or not applicable to the Issuer. The title to each item must precede the answer.
- (b) The term "Issuer" includes the Issuer and any of its subsidiaries.
- (c) Terms used and not defined in this form are defined or interpreted in Policy 1 – Interpretation and General Provisions.

Report on Business

1. Provide a general overview and discussion of the development of the Issuer's business and operations over the previous month. Where the Issuer was inactive disclose this fact.

Canadian Palladium Resources Inc. (the "Issuer") (CSE: BULL) is an independent mineral exploration company based in Vancouver, B.C. During April 2020, the Issuer continued its suspension of its exploration program on the East Bull palladium property amid the COVID-19 pandemic.

2. Provide a general overview and discussion of the activities of management.

Management received analytical sample results from the first ten diamond drill holes on the East Bull palladium property which were completed prior to shut-down

from COVID-19. exploration program, achieving the required minimum work commitments on the East Bull property, and issuing the cash and share payments pursuant to the Option Agreement.

3. Describe and provide details of any new products or services developed or offered. For resource companies, provide details of new drilling, exploration or production programs and acquisitions of any new properties and attach any mineral or oil and gas or other reports required under Ontario securities law.

The Issuer released complete analytical sample results from diamond drill holes EB-20-01 to EB-20-06 and the partial results of EB-20-07 on its East Bull palladium property, 90 kilometres west of Sudbury, Ont. The company has completed 10 diamond drill holes (1841 metres) prior to shutting down with the COVID-19 pandemic. All 10 holes have been sampled and the samples have been delivered to Activation Laboratories in Ancaster, Ont.

The diamond drilling to date has focused on the east end of the Valhalla zone testing the palladium zone to determine if there are structural controls and continuity down dip and along strike within the inferred resource (see press release dated July 3, 2019). Previous work had indicated a relationship of chalcopyrite and palladium values, with the results returned to date there seems to be palladium values in some cases that are not related to visible chalcopyrite. When the program recommences additional sampling and analysis will be completed to assess this possibility. The initial three holes of the 2020 diamond drill program evaluated a strike length of about 50 metres testing 50 to 75 metres below surface.

For full analytical sample results, please see press release dated April 17, 2020.

4. Describe and provide details of any products or services that were discontinued. For resource companies, provide details of any drilling, exploration or production programs that have been amended or abandoned.

On March 20, 2020, the Issuer announced that, in discussions with its diamond drill contractor, Vital Drilling, and due to the COVID-19 pandemic, diamond drilling will be suspended immediately. This decision was influenced by the Ontario government's declaration of a state of emergency and the federal recommendation to socially isolate. Resumption of exploration efforts will be determined once the various government authorities have indicated that risks to employees and contractors have abated.

The Issuer's exploration team is continuing to work from home and will be complying with all federal and provincial COVID-19 directives. By way of clarification, the company is not aware of any coronavirus cases involving its employees or their families.
