

FORM 7

MONTHLY PROGRESS REPORT

Name of Listed Issuer: SoLVBL Solutions Inc. (the "Issuer").

Trading Symbol: SOLV

Number of Outstanding Listed Securities: 80,836,397

Date: March 4, 2021

Report on Business

1. Provide a general overview and discussion of the development of the Issuer's business and operations over the previous month. Where the Issuer was inactive disclose this fact.

The Issuer was listed and commenced trading on the CSE on February 23, 2021. The Issuer disseminated two news releases on February 24, 2021 and March 2, 2021 regarding filing of two U.S. provisional patent application.

The first patent application encompasses the novel use of well known and time-tested cryptographic primitives, along with immutable media, to effectively remove the bandwidth and latency bottlenecks hampering many decentralized solutions. The protocol is data agnostic, in the sense that it can be applied to arbitrarily large, but finite, binary records, and produces transferable assurances which protect the record from future tampering - even in cases of collusion.

The second patent application encompasses an adaption and optimization of a well-known and time-tested cryptographic algorithm, the algorithm has been adapted to reduce latency in data stream applications.

2. Provide a general overview and discussion of the activities of management.

Management continued to advance discussions with potential customers in Canada and the US. In particular, the management is commencing discussions through its contacts in the U.S. to approach next generation 911 ("NG-911") centres to test and adopt the Issuer's lead product, Q by SoLVBL™ for their NG-911 centres. The Issuer has also commenced discussions with financial institutions through intermediaries and expect to provide further details, once direct discussions with these financial institutions commence.

3. Describe and provide details of any new products or services developed or offered. For resource companies, provide details of new drilling, exploration or production programs and acquisitions of any new properties and attach any mineral or oil and gas or other reports required under Ontario securities law.

N/A

4. Describe and provide details of any products or services that were discontinued. For resource companies, provide details of any drilling, exploration or production programs that have been amended or abandoned.

N/A

5. Describe any new business relationships entered into between the Issuer, the Issuer's affiliates or third parties including contracts to supply products or services, joint venture agreements and licensing agreements etc. State whether the relationship is with a Related Person of the Issuer and provide details of the relationship.

None.

6. Describe the expiry or termination of any contracts or agreements between the Issuer, the Issuer's affiliates or third parties or cancellation of any financing arrangements that have been previously announced.

None.

7. Describe any acquisitions by the Issuer or dispositions of the Issuer's assets that occurred during the preceding month. Provide details of the nature of the assets acquired or disposed of and provide details of the consideration paid or payable together with a schedule of payments if applicable, and of any valuation. State how the consideration was determined and whether the acquisition was from or the disposition was to a Related Person of the Issuer and provide details of the relationship.

None.

8. Describe the acquisition of new customers or loss of customers.

None.

9. Describe any new developments or effects on intangible products such as brand names, circulation lists, copyrights, franchises, licenses, patents, software, subscription lists and trade-marks.

Please see answer 1 above.

The Issuer disseminated two news releases on February 24, 2021 and March 2, 2021 regarding filing of two U.S. provisional patent application.

The first patent application encompasses the novel use of well known and time-tested cryptographic primitives, along with immutable media, to effectively remove the bandwidth and latency bottlenecks hampering many decentralized solutions. The protocol is data agnostic, in the sense that it can be applied to arbitrarily large, but finite, binary records, and produces transferable assurances which protect the record from future tampering - even in cases of collusion.

The second patent application encompasses an adaption and optimization of a well-known and time-tested cryptographic algorithm, the algorithm has been adapted to reduce latency in data stream applications.

- 10. Report on any employee hirings, terminations or lay-offs with details of anticipated length of lay-offs.
None.
- 11. Report on any labour disputes and resolutions of those disputes if applicable.
None.
- 12. Describe and provide details of legal proceedings to which the Issuer became a party, including the name of the court or agency, the date instituted, the principal parties to the proceedings, the nature of the claim, the amount claimed, if any, if the proceedings are being contested, and the present status of the proceedings.
None.
- 13. Provide details of any indebtedness incurred or repaid by the Issuer together with the terms of such indebtedness.
None.
- 14. Provide details of any securities issued and options or warrants granted.
None.

| Security | Number Issued | Details of Issuance | Use of Proceeds ⁽¹⁾ |
|----------|---------------|---------------------|--------------------------------|
| | | | |
| | | | |
| | | | |

(1) State aggregate proceeds and intended allocation of proceeds.

- 15. Provide details of any loans to or by Related Persons.
None.
- 16. Provide details of any changes in directors, officers or committee members.
None.
- 17. Discuss any trends which are likely to impact the Issuer including trends in the Issuer’s market(s) or political/regulatory trends.
Management of the Issuer believes that Q by SoLVBL™ will become even more relevant with the increased incidence of ransomware. The Issuer’s product can instantly determine whether any of its client’s data has been tampered with or altered by any malicious actor. The Issuer believes that this trend of higher incidence of ransomware attacks will continue into the foreseeable future, and will necessitate various institutions, including, financial institutions, defense departments to install Q by SoLVBL™ on their critical servers.

Certificate Of Compliance

The undersigned hereby certifies that:

1. The undersigned is a director and/or senior officer of the Issuer and has been duly authorized by a resolution of the board of directors of the Issuer to sign this Certificate of Compliance.
2. As of the date hereof there were is no material information concerning the Issuer which has not been publicly disclosed.
3. The undersigned hereby certifies to the Exchange that the Issuer is in compliance with the requirements of applicable securities legislation (as such term is defined in National Instrument 14-101) and all Exchange Requirements (as defined in CNSX Policy 1).
4. All of the information in this Form 7 Monthly Progress Report is true.
