Name of Listed Issuer: 21C Metals Inc. (formerly Declan Cobalt Inc.) (the "Issuer", "21C Metals" or the "Company").

Trading Symbol: BULL

Number of Outstanding Listed Securities: 65,193,849

Date: August 7, 2019

This Monthly Progress Report must be posted before the opening of trading on the fifth trading day of each month. This report is not intended to replace the Issuer's obligation to separately report material information forthwith upon the information becoming known to management or to post the forms required by Exchange Policies. If material information became known and was reported during the preceding month to which this report relates, this report should refer to the material information, the news release date and the posting date on the Exchange website.

This report is intended to keep investors and the market informed of the Issuer's ongoing business and management activities that occurred during the preceding month. Do not discuss goals or future plans unless they have crystallized to the point that they are "material information" as defined in the Policies. The discussion in this report must be factual, balanced and non-promotional.

General Instructions

- (a) Prepare this Monthly Progress Report using the format set out below. The sequence of questions must not be altered nor should questions be omitted or left unanswered. The answers to the items must be in narrative form. State when the answer to any item is negative or not applicable to the Issuer. The title to each item must precede the answer.
- (b) The term "Issuer" includes the Issuer and any of its subsidiaries.
- (c) Terms used and not defined in this form are defined or interpreted in Policy 1 – Interpretation and General Provisions.

Report on Business

1. Provide a general overview and discussion of the development of the Issuer's business and operations over the previous month. Where the Issuer was inactive disclose this fact.

21C Metals Inc. ("21C Metals") (CSE: BULL) is an independent mineral exploration company based in Vancouver, B.C. During July 2019, the Issuer began exploration on the German portion of the Tisova copper-cobalt property and acquired the Agnew Lake palladium property through staking. The Issuer also achieved a milestone through incurring a minimum of \$1 million on the Tisova property and issued an aggregate of 2.5 million common shares to the vendors, pursuant to the original share purchase agreement.

2. Provide a general overview and discussion of the activities of management.

Management focused efforts on the exploration programs at its East Bull palladium property and Tisova copper-cobalt project.

3. Describe and provide details of any new products or services developed or offered. For resource companies, provide details of new drilling, exploration or production programs and acquisitions of any new properties and attach any mineral or oil and gas or other reports required under Ontario securities law.

The Issuer has acquired a significant palladium project in Ontario through staking. The Agnew Lake property was acquired after discussions with the company's advisers and review of the Ontario government geological database. The Agnew Lake property is located 80 kilometres west of Sudbury, Ont., home of Glencore and Vale's Canadian nickel-copper-platinum-group-elements mining and smelting operations.

The Agnew Lake property comprises over 260 claims (about 6,000 hectares) and is part of the larger East Bull Lake-Agnew Lake mafic-ultramafic complex. The company believes this acquisition will position it to be one of the larger non-producing palladium explorers in North America.

The Agnew Lake magmas have major element compositions that are very similar to the model parent liquids proposed for the mafic portions of the Stillwater and Bushveld complexes. The Agnew intrusion and the East Bull Lake intrusion are also considered to host significant PGE-Cu-Ni mineralization in marginal rock units (Peck & James, 1990; Peck et al., 1993a, 1993b, 1995; Vogel et al., 1997).

4. Describe and provide details of any products or services that were discontinued. For resource companies, provide details of any drilling, exploration or production programs that have been amended or abandoned.
