MONTHLY PROGRESS REPORT

Name of Listed Issuer: RISE Life Science Corp. (the "Issuer").

Trading Symbol: RLSC

Number of Outstanding Listed Securities: 56,477,021

Date: June 30, 2018

This Monthly Progress Report must be posted before the opening of trading on the fifth trading day of each month. This report is not intended to replace the Issuer's obligation to separately report material information forthwith upon the information becoming known to management or to post the forms required by Exchange Policies. If material information became known and was reported during the preceding month to which this report relates, this report should refer to the material information, the news release date and the posting date on the Exchange website.

This report is intended to keep investors and the market informed of the Issuer's ongoing business and management activities that occurred during the preceding month. Do not discuss goals or future plans unless they have crystallized to the point that they are "material information" as defined in the Policies. The discussion in this report must be factual, balanced and non-promotional.

The answers to the items must be in narrative form. State when the answer to any item is negative or not applicable to the Issuer. The title to each item must precede the answer.
- (b) The term "Issuer" includes the Issuer and any of its subsidiaries.
- (c) Terms used and not defined in this form are defined or interpreted in Policy 1 – Interpretation and General Provisions.

Report on Business

1. Provide a general overview and discussion of the development of the Issuer's business and operations over the previous month. Where the Issuer was inactive disclose this fact.

The Company continues to develop medical and adult-use cannabis-based formulations to create general use health and well-being products for the emerging consumer category made possible by the legal U.S. Farm Bill compliant

hemp and the legalization of cannabis. On June 20, 2018 the Company introduced its CBD-based wellness brand, Karezza, at retail.

Karezza is a suite of sexual wellness supplements that today includes a couples “In the Moment” mood support supplement, plus a “Women’s Daily” supplement and a “Men’s Daily” supplement that supports each gender’s sexual and reproductive body systems.

Each Karezza product contains full-spectrum CBD from organic, U.S. Farm Bill hemp and an FDA-compliant synergistic blend of herbs, adaptogens and essential oils formulated from botanical traditions to enhance sexual experience. These Karezza products are non-psychoactive. The Company plans to expand the suite to include lube and tablet products starting later this summer.

The launch products are available in a highly bio-available oral spray format utilizing “nano” technology, with rapid sublingual absorption and precision dosing to tailor usage for any individual.

In addition to this we expect to introduce follow-on CBD topical products to the California market in early calendar Q3 2018, coinciding with the launch of our full CBD suite of sexual health products in other legal jurisdictions. The Company is also planning a CBD-based beverage line of products in multiple markets within the next 12 months.

Longer term, the Company’s goals include establishing the capacity in 2019 to market its full spectrum of CBD products in the United States, Canada and Europe. Beyond 2019, the Company’s expansion goals include seeking marketing and manufacturing partnerships in the Asia-Pacific region, while continuing to deepen and expand its range of products.

Of important note, the Company currently intends to only sell THC-based products under license to third parties in the U.S. until federal law pertaining to cannabis is changed. The primary manufacturing and marketing focus will instead be on CBD products derived from the highest quality CBD hemp certified as 'U.S. Farm Bill compliant' enabling the Company to stay completely aligned with U.S. federal law. This class of product may be sold in most U.S. states and in many countries around the world, the Company’s intention being that it not be adversely affected in any way by the recent revocation of the 'Cole memo' by the U.S. Department of Justice.

The Company also owns the Scout DS® device which is a clinical tool to assist in the identification of both prediabetes and type 2 diabetes.
