The Resulting Issuer is operating in the payment processing industry, which is strictly regulated. Regulation is extensive and designed to protect consumers and the public, while providing standard guidelines for business operations. In the offering of its products, the Resulting Issuer is subject to certain federal and provincial laws and regulations relating to its financial product offerings, including laws and regulations governing such things as Know-Your-Customer (KYC), Anti-Money Laundering (AML), Anti-Terrorist Financing (ATF) and safeguarding the privacy of customers' personal information. Failure to comply with, or changes to, existing or future laws and regulations could result in significant unforeseen costs and limitations, and could have an adverse impact on the Resulting Issuer's business, results of operations and/or financial condition.

Accordingly, there are certain risks related to crypto currencies, including the risk of regulation reforms which may prohibit payment processing transactions related to the business of the Resulting Issuer. Additionally, financial institutions may impose restrictions on persons that engage in business that is based on crypto currency transactions. Risks related to the acceptance and use of crypto currencies will have a significant impact on the volume of crypto currency transactions. Such acceptance or lack thereof, and reforms in regulation could adversely affect the Resulting Issuer's assets, liabilities, business, financial condition, prospects and results of operations.

The Issuer endeavours to offset or mitigates these potentialities by ensuring they are working in concert with the appropriate legal counsel and regulatory bodies. The Resulting Issuer believes that at this time it is in compliance with all laws and regulations although many of the rules that apply to it have only recently been implemented, are complex and sometimes ambiguous and, accordingly, the Resulting Issuer cannot assure that it is in 100% compliance with all applicable laws, much less that all courts, arbitrators and regulators would agree that it is in 100% compliance.

The market for payment processing is rapidly evolving and intensely competitive, and the Issuer expects competition to intensify further in the future. There is high potential the Issuer will face competition from other companies, some of which can be expected to have longer operating histories and more financial resources and marketing experience.

Increased competition by larger and better financed competitors could materially and adversely affect the business, financial condition and results of operations of the Issuer.
