(a) Number _____

(b) Number of securities eligible to be purchased on exercise of warrants (or options) _____

(c) Exercise price _____

(d) Expiry date _____

7. Provide the following information if debt securities are to be issued:

(a) Aggregate principal amount Up to \$2,055,300 (US\$1,500,000)

(b) Maturity date 5 years from the date of issuance

(c) Interest rate 8% payable annually in arrears in common shares of the Company ("Common Shares") at a deemed price equal to the lowest price then permissible under CSE policies, without discount or, if the Company is unable to issue Common Shares to satisfy an interest payment, the unpaid interest will accrue and be added to the outstanding principal balance, or the Company may elect to pay it in cash.

- (d) Conversion terms At the option of the holder, the entire (but not part of the) outstanding principal balance of a Debenture may be converted into Common Shares at a conversion price of \$0.025 per Common Share (the "Conversion Price"), as adjusted in accordance with the Debenture, with all accrued and unpaid interest payable on conversion. However, no conversion, whether optional or automatic, may occur unless and until the Conversion Price, as adjusted, equals or exceeds \$0.05 per Common Share (the "Minimum Conversion Price"). As the Conversion Price of \$0.025 is currently below the Minimum Conversion Price, no Debentures are presently convertible. The Company intends to convene a special meeting of shareholders to seek approval of a consolidation of the Common Shares so that, following adjustment under the Debenture, the Conversion Price would meet or exceed the Minimum Conversion Price, thereby permitting conversion. There can be no assurance that shareholder approval will be obtained. The outstanding principal balance of the Debentures will automatically convert into Common Shares at the then-applicable Conversion Price upon: (a) the VWAP of the Common Shares on the CSE equaling or exceeding \$0.05 per share for any 20 consecutive trading days, subject to adjustment in the same manner as the Conversion Price; or (b) a Liquidity Event (as defined in the Debenture). Any automatic conversion remains subject to the Minimum Conversion Price.
- (e) Default provisions Event of default occurs if the Corporation fails to pay principal when due or fails to pay interest when due, and such non-payment is not cured within 30 days after the due date, and the Corporation must notify the holder within two Business Days after becoming aware of an event of default or its cure. Following written notice of an event of default, the Debenture becomes immediately due and payable on demand, and interest continues to accrue at the stated 8% simple annual rate before and after demand, maturity, default and judgment, with interest on any amount in default bearing interest at the Interest Rate; there is no premium or default-rate uplift beyond the stated rate. The Debentures are secured by a general and continuing security interest over all present and after-acquired property of the Corporation, and upon an event of default the security becomes immediately enforceable, permitting the holder to exercise secured-party remedies, including commencing legal action, taking possession of collateral, requiring delivery or assembly of collateral, appointing a receiver or receiver-manager, exercising all rights under the PPSA, notifying account debtors, and selling or otherwise disposing of collateral on commercially reasonable terms, with corporate powers over the collateral suspended upon possession

or the appointment of a receiver as permitted by law. Enforcement costs and expenses, including receiver remuneration and legal fees on a solicitor-and-own-client basis, are indemnified by the Corporation, added to the Obligations, and may be deducted from realization proceeds; proceeds are applied to the Obligations as the holder deems best subject to the PPSA, any deficiency remains a liability of the Corporation, and the holder's remedies are cumulative and include contractual set-off rights after default without notice.
