

RDARS TO COMMENCE TRADING ON THE CSE ON SEPTEMBER 7

Toronto, Ontario, September 6, 2022. RDARS Inc. (“**RDARS**” or the “**Company**”) (CSE: RDRS), an early-stage autonomous robotics and drone technology company in the process of developing various autonomous technologies including a drone which augments security systems for residential, commercial and industrial applications, announced today that it has received final approval from the Canadian Securities Exchange (the “**CSE**”) for listing of its common shares (the “**Common Shares**”) which are expected to commence trading on the CSE on September 7, 2022 under the symbol “**RDRS**”.

"The listing of our shares on the Canadian Securities Exchange is an important step in accelerating our commercialization plans by gaining the requisite exposure in North American capital markets to fund our growth," said Charles Zwebner, CEO of RDARS.

Furthermore, the Company is pleased to announce it has entered into a employment agreements with the CEO and CFO of the Company, transitioning them from management services arrangements, with compensation terms similar to as disclosed in the Company's final long-form prospectus dated August 25, 2022, available under the Company's profile on SEDAR at www.sedar.com.

Furthermore, as part of the employment agreements, and pursuant to the terms and conditions of the Company's stock option plan, the Company's Board of Directors has approved the grant of 7,500,000 stock options. The options expire five years from the date of grant and are exercisable at a price of \$0.05 per Common Share.

Finally, as part of the subscription receipt financing completed by the Company in March 2022, the Company has issued 92,000 Common Shares at a deemed price of \$0.05 per Common Share, in leu of a cash commission to an arm's length registered finder. These Common Shares are subject to a statutory restriction on resale for four months and one day.

About RDARS
