A \$20 per symbol credit per month will be issued to Oddlot Market Makers on their assigned CSE listed securities.

¹The credit is applied per symbol to eligible passive trades for the trader with the greatest trading volume. The trader must achieve a monthly minimum volume of 10% of the CSE total volume in that symbol. Intentional crosses, registered unintentional crosses, odd-lot trades, flat fee trades and dark trading volumes are not eligible for this Tier Credit Program.

²Dark Trading – any trades where one or both sides is a dark order.

³Tier credits will be provided for TSX-V and TSX listed securities. Trading Top of Book (TOB) fee credits are awarded on a per symbol basis and are applied to all eligible passive trades on a monthly basis from a Trader ID or a Trader ID Group reaching the stated target percentage of time at the NBBO. Intentional crosses, registered unintentional crosses, odd-lot trades, flat fee trades and dark trading volumes are excluded from the eligible passive trades and do not qualify for the credits. The TOB fee credits also apply to Market Maker trades.

⁴There will be no charge for passive dark trading during the CSE's trial period through December 31, 2022.

Percentage time at the NBB/NBO = (total amount of time at the NBB/NBO) divided by (the total amount of trading time for the month). Trading time is measured from 9:30 am EST to 4:00 pm EST (6.5 hours).

In General

Each dealer will be charged a basic monthly participation fee of \$500.

Trades occurring in the market-on-open facility will have each side designated as active or passive, according to time priority, and will either be charged a fee or earn a rebate on the same terms as in the continuous auction market.

The active side of a trade is the order that takes liquidity from the CSE and the passive side of a trade is the order that provides liquidity to the CSE.

Intentional crosses will neither be charged a fee nor earn a rebate until further notice.

There will be no minimum monthly trading fee and it is expected that some dealers will be earning a rebate from the CSE each month. For those who prefer, dealers may elect to defer realizing their rebates and instead preserve same as a rolling credit against future fee payments otherwise due to the CSE.

The fees and rebates described above are subject to change.
