1. Corporate Information

Cannex Capital Holdings Inc. (formerly Arco Resources Corp.) ("Cannex" or the "Company") was incorporated as Atomic Minerals Ltd. on March 13, 2006 pursuant to the provisions of the British Columbia Business Corporations Act and was previously listed on the NEX board of the TSX Venture Exchange (the "Exchange").

On March 13, 2018, Cannex Capital Group Inc. (the "Cannex Group") and its security holders (the "Cannex Group Security holders") completed an amalgamation with Arco Resources Corp. ("Arco"), a public company listed on the NEX board of the Exchange pursuant to which the Cannex Group Security holders transferred all of their common shares of Cannex Group in exchange for common shares of Arco on a 1:1 ratio. The transaction resulted in the former Cannex Group Security holders obtaining control the resulting issuer, and therefore constituted a reverse takeover (the "RTO Amalgamation") under the policies of the Exchange.

Concurrently with the RTO Amalgamation Cannex Group completed the acquisition of 100% of the membership units of BrightLeaf, LLC ("BrightLeaf"), an entity under common control with Cannex Group, for cash of \$22,532,608, the issuance of convertible promissory notes of \$9,033,025 (note 14) and the assumed debts of \$4,434,370. Prior to the acquisition BrightLeaf debt of \$892,265 was converted to equity of BrightLeaf.

The ongoing entity, being the combined operations of Cannex Group and BrightLeaf, has adopted the name Cannex Capital Holdings Inc. Cannex has been identified for accounting purposes as the acquirer, and accordingly the entity is considered to be a continuation of Cannex and the net assets of Arco at the date of the RTO Amalgamation are deemed to have been acquired by Cannex. The comparative figures are those of Cannex and BrightLeaf prior to the RTO Amalgamation.

In connection with the RTO Amalgamation, Cannex delisted its common shares from the NEX and relisted on the Canadian Securities Exchange and completed a private placement, net of issuance costs, for \$34,749,478. The Company's common shares resumed trading on the Canadian Securities Exchange under the symbol "CNNX" on March 14, 2018.

The Company leases real estate and sells supplies to cannabis producers and is seeking to expand through investments in cannabis growers, processors and retailers. The head office and principal address of the Company is 1241 Alberni Street, Vancouver, British Columbia, V6E 4R4.

2. Basis of Presentation

a) Change of year end

Cannex Group had a September 30 year end but, in conjunction with the RTO Amalgamation, elected to change its year end to April 30. The comparative statements of comprehensive loss, equity, and cash flow are for the period ended December 31, 2017.

b) Statement of compliance

These amended and restated condensed consolidated interim financial statements for the nine months ended January 31, 2019 have been prepared in accordance with *IAS 34 – Interim Financial Reporting* and should be read in conjunction with the Company's April 30, 2018 audited financial statements which were prepared in accordance with International Financial Reporting Standards ("IFRS") as issued by the International Accounting Standards Board ("IASB").

The Company's board of directors approved the release of these amended and restated condensed consolidated interim financial statements on July 15, 2019.

c) Basis of measurement

These amended and restated condensed consolidated interim financial statements have been prepared on a historical cost basis, except for certain financial instruments, which are measured at fair value, as explained in the significant accounting policies set out in the Company's April 30, 2018 audited financial statements. The condensed consolidated interim financial statements are presented in United States dollars. The functional currency of the parent company, Cannex, is the Canadian dollar ("C\$") and the functional currency of its subsidiary companies is the United States dollar ("\$").

The preparation of financial statements in compliance with IFRS requires management to make certain critical accounting estimates. It also requires management to exercise judgment in applying the Company's accounting policies. The areas involving a higher degree of judgment or complexity, or areas where assumptions and estimates are significant to the financial statements are disclosed in note 4.

2. Basis of Presentation (continued)

d) Basis of consolidation

The condensed consolidated interim financial statements comprise the financial statements of the Company and its wholly-owned subsidiaries. Subsidiaries consist of entities over which the Company is exposed to, or has rights to, variable returns as well as the ability to affect these returns through the power to direct the relevant activities of the entity. To the extent that subsidiaries provide services that relate to the Company's activities, they are fully consolidated from the date control is transferred and are deconsolidated from the date control ceases. All intercompany balances and transactions have been eliminated.

Cannex's principal subsidiaries are:

Entity	Ownership Percentage	Principal Activity
BrightLeaf Development LLC ("BrightLeaf")	100%	Real estate holding
Real Estate Properties LLC ("REP")	100%	Real estate holding
Fuller Hill Development Co LLC ("Fuller")	100%	Leaseholds
Ag-Grow Imports LLC ("Ag-Grow")	100%	Sale of supplies
Cannex Capital Group Inc.	100%	Holding
Cannex Holdings (Nevada) Inc. ("Cannex USA")	100%	Holding
Cannex Holdings (California) Inc.	100%	Holding

The financial statements of the subsidiaries are prepared for the same reporting period as the parent company, using consistent accounting policies.

e) Going concern

These condensed consolidated interim financial statements have been prepared on a going concern basis which assumes that the Company will be able to continue its operations for at least the next twelve months and will be able to realize its assets and discharge its liabilities in the normal course of business.

The Company indirectly derives its revenues from the cannabis industry in certain states of the United States, which industry is illegal under United States federal law. The Company is not directly engaged in the manufacture, importation, possession, use, sale or distribution of cannabis in the recreational cannabis marketplace in either Canada or the United States, nor is the Company directly engaged in the manufacture, importation, possession, use, sale or distribution of cannabis in the medical cannabis marketplace in Canada or the United States.

More than half of the states in the United States have enacted legislation to regulate the sale and use of medical cannabis without limits on tetrahydrocannabinol ("THC"), while other states have regulated the sale and use of medical and adult-use cannabis with strict limits on the levels of THC. Notwithstanding the permissive regulatory environment of adult-use recreational and medical cannabis at the state level, cannabis continues to be categorized as a controlled substance under the Controlled Substances Act in the United States and as such, cannabis-related practices or activities, including without limitation, the manufacture, importation, possession, use or distribution of cannabis are illegal under United States federal law. Strict compliance with state laws with respect to cannabis will neither absolve the Company of liability under United States federal law, nor provide a defense to any federal proceeding which may be brought against the Company. Any such proceedings brought against the Company may adversely affect the Company's operations and financial performance.

3. Adoption of New Accounting Pronouncements and Recent Developments

Certain pronouncements, issued by the IASB or the IFRS Interpretations Committee, were adopted during the period, or were mandatory for the Company's fiscal periods beginning on or after May 1, 2018 or are required to be adopted in future periods.

New standards adopted during the period ended January 31, 2019

a) IFRS 9 – Financial Instruments

On May 1, 2018, the Company adopted the new accounting standard IFRS 9. IFRS 9 includes revised guidance on the classification and measurement of financial instruments, including a new expected credit loss model for calculating impairment on financial assets, and new general hedge accounting requirements. Most of the requirements in IAS 39 for classification and measurement of financial liabilities were carried forward in IFRS 9, so the Company's accounting policy with respect to financial liabilities is unchanged.

As a result of the adoption of this standard, the Company has changed its accounting policy for financial assets retrospectively, for assets that were recognized at the date of application. The change did not impact the carrying value of any financial assets on the transition date.

The following are new accounting policies for financial assets under IFRS 9.

Financial assets

1. Classification and measurement

The Company classifies its financial assets in the following categories: at fair value through profit or loss ("FVTPL"), at fair value through other comprehensive income ("FVTOCI") or at amortized cost. The classification depends on the purpose for which the financial assets were acquired. Management determines the classification of its financial assets at initial recognition.

The classification of debt instruments is driven by the business model for managing the financial assets and their contractual cash flow characteristics. Debt instruments are measured at amortized cost if the business model is to hold the instrument for collection of contractual cash flows and those cash flows are solely principal and interest. If the business model is not to hold the debt instrument, it is classified as FVTPL. Financial assets with embedded derivatives are considered in their entirety when determining whether their cash flows are solely payments of principal and interest. Equity instruments that are held for trading (including all equity derivative instruments) are classified as FVTPL, for other equity instruments, on the day of acquisition the Company can make an irrevocable election (on an instrument by-instrument basis) to designate them as at FVTOCI.

3. Adoption of New Accounting Pronouncements and Recent Developments (continued)

Financial assets

1. Classification and measurement

i) Financial assets at FVTPL

Financial assets carried at FVTPL are initially recorded at fair value and transaction costs are expensed in the statement of profit or loss. Realized and unrealized gains and losses arising from changes in the fair value of the financial asset held at FVTPL are included in the statement of profit or loss in the period in which they arise. Derivatives are also categorized as FVTPL unless they are designated as hedges.

ii) Financial assets at FVTOCI

Investments in equity instruments at FVTOCI are initially recognized at fair value plus transaction costs. Subsequently they are measured at fair value, with gains and losses arising from changes in fair value recognized in other comprehensive income. There is no subsequent reclassification of fair value gains and losses to profit or loss following the derecognition of the investment.

iii) Financial assets at amortized cost

Financial assets at amortized cost are initially recognized at fair value and subsequently carried at amortized cost less any impairment. They are classified as current assets or non-current assets based on their maturity date.

2. Impairment of financial assets at amortized cost

The Company recognizes a loss allowance for expected credit losses on financial assets that are measured at amortized cost. At each reporting date, the loss allowance for the financial asset is measured at an amount equal to the lifetime expected credit losses if the credit risk on the financial asset has increased significantly since initial recognition. If at the reporting date, the financial asset has not increased significantly since initial recognition, the loss allowance is measured for the financial asset at an amount equal to twelve month expected credit losses. For trade receivables the Company applies the simplified approach to providing for expected credit losses, which allows the use of a lifetime expected loss provision. Impairment losses on financial assets carried at amortized cost are reversed in subsequent periods if the amount of the loss decreases and the decrease can be objectively related to an event occurring after the impairment was recognized.

Financial assets

3. Derecognition of financial assets

Financial assets are derecognized when they mature or are sold, and substantially all the risks and rewards of ownership have been transferred. Gains and losses on derecognition of financial assets classified as FVTPL or amortized cost are recognized in the income statement. Gains or losses on financial assets classified as FVTOCI remain within accumulated other comprehensive income. The Company completed an assessment of its financial instruments as at January 1, 2018. The following table shows the original classification under IAS 39 and the new classification under IFRS 9:

Derivative financial instruments

Derivatives are recognized initially at fair value on the date the related contract is entered into. Subsequent to initial recognition, derivatives are remeasured at their fair value. The method of recognizing any resulting gain or loss depends on whether the derivative is designated as a hedging instrument and, if so, the nature of the item being hedged. Changes in the fair value of any derivative instruments that do not qualify for hedge accounting are recognized immediately in the statement of profit or loss.

3. Adoption of New Accounting Pronouncements and Recent Developments (continued)

New standards, interpretations and amendments not yet effective

a) IFRS 15 – Revenue from Contracts with Customers

On May 1, 2018, the Company adopted the new accounting standard IFRS 15 to all contracts using the modified retrospective approach. The Company has concluded that there is no significant impact resulting from the application of the new revenue standard on its consolidated financial statements. Under the new revenue standard, the Company's revenue continues to be recognised when products are delivered to the customer, which is also the moment when control of the products is transferred, and when there is no unfulfilled obligation that could affect the customer's acceptance of the products. Delivery occurs when the products have been shipped to the specific location, the risks of loss have been transferred to the customer and the customer has accepted the products in accordance with the sales contract

b) IFRS – Leases

IFRS 16 - Leases specifies how to recognize, measure, present and disclose leases. The standard provides a single lessee accounting model, requiring that lessees recognize assets and liabilities for all leases unless the lease term is 12 months or less or the underlying asset has an insignificant value. Lessors continue to classify leases as operating or finance, with IFRS 16's approach to lessor accounting substantially unchanged from its predecessor, IAS 17. IFRS 16 was issued in January 2016 and will be applicable to the Company's fiscal period beginning May 1, 2019, although early adoption is permitted. The Company does not intend to early adopt this standard and is currently evaluating the impact of adopting this standard on the consolidated financial statements. The Company expects that it will recognize additional assets and liabilities as a result of the leasing arrangements currently entered or to be entered by its subsidiaries. The Company does not expect that the adoption of this standard will have a material effect on the Company's consolidated financial statements.

c) IFRIC 23

This standard clarifies how to apply the recognition and measurement requirements in IAS 12 when there is uncertainty over income tax treatments. It is effective for annual periods beginning on or after January 1, 2019, with early adoption permitted. The Company does not expect that the adoption of this standard will have a material effect on the Company's consolidated financial statements.

There are no other pending IFRSs or IFRIC interpretations that are expected to be relevant to the Company's financial statements.

4. Critical Accounting Estimates and Judgments

The Company makes estimates and assumptions about the future that affect the reported amounts of assets and liabilities. Estimates and judgments are continually evaluated based on historical experience and other factors, including expectations of future events that are believed to be reasonable under the circumstances. Actual experience may differ from these estimates and assumptions.

The effect of a change in an accounting estimate is recognized prospectively by including it in comprehensive income in the period of the change, if the change affects that period only, or in the period of the change and future periods, if the change affects both.

Information about critical judgments in applying accounting policies that have the most significant risk of causing material adjustment to the carrying amounts of assets and liabilities recognized in the financial statements within the next financial year are the same as those applied to the Company's April 30, 2018 audited financial statements.

The Company makes critical judgments in the determination of the useful lives of property, plant and equipment, valuation of inventory, valuation of share-based compensation, fair value of financial instruments and impairment.

5. Capital Management

The Company's primary objectives, when managing its capital, are to maintain adequate levels of funding to support the operations of the Company and to maintain corporate and administrative functions. The Company defines capital as revolving loans, promissory notes, convertible notes and equity, consisting of the issued units of the Company. The capital structure of the Company is managed to provide sufficient funding for planned operating activities of the Company. Funds are primarily secured through a combination of equity capital raised by way of private placements and debt. There can be no assurances that the Company will be able to continue raising equity capital and debt in this manner.

The Company invests all capital that is surplus to its immediate needs in short-term, liquid and highly rated financial instruments, such as cash and other short-term deposits, which are all held with financial institutions.

There were no changes to the Company's approach to capital management during the nine months ended January 31, 2019 from the period ended April 30, 2018. The Company is not subject to any externally imposed capital requirements.

8. Convertible Note Receivable and Derivative Asset

In April 2018, the Company subscribed for a promissory note with Ametrine Wellness dba Jetty Extracts ("Jetty"), a company which holds a 99.99% membership interest in Jetty Marketing, LLC a 50% membership interest in Jetty MindTricks, LLC, and a 5% membership interest in 57th Avenue LLC. Jetty is a California-based processor and distributor of cannabis products.

The Company advanced \$3,500,000 to Jetty under a convertible promissory note secured by the assets of Jetty and bearing interest at 8% annually, due on maturity. The promissory note was due on October 10, 2020 but Jetty elected to repay the note early and the Company received full payment of principal and interest in October 2018. The option to settle the promissory notes in common shares of Jetty represented an embedded derivative in the form of a call option to the Company. Jetty was a private company and its shares could not be reliably valued using any market-derived indicators. Accordingly, the derivative asset was initially recognized by comparing a similar instrument without the conversion option and discounting the fair value of the host contract with the non-convertible instrument interest rate, which the Company estimates would be 15%.

9. Transaction with 4 Front Holdings, LLC

Transaction with 4Front Holdings

In December 2018, the Company entered into a binding letter agreement to acquire the membership interests of 4Front Holdings, LLC, ("4Front") a U.S.-based cannabis company which owns, manages, controls, or services cannabis licenses in Illinois, Massachusetts, Pennsylvania, Michigan, Arizona, and Maryland, in addition to having license applications in other U.S. states.

In March 2019, the Company signed a definitive agreement with 4Front with respect to the business combination whereby the former securityholders of Cannex and 4Front will become securityholders in the combined company (the "Resulting Issuer"). Cannex and 4Front are arm's length parties (note 25).

In April 2019, at a special meeting of securityholders of the Company, securityholders voted in favour of the business combination (the "Transaction") with 4Front. The CSE has conditionally approved the Resulting Issuer for listing, and lifted the trading halt on April 29, 2019. Trading will continue as Cannex until the Transaction has been completed, at which time the CSE will issue a bulletin announcing the listing of 4Front Ventures Corp. (note 25).

Cannex and 4Front initially filed a pre-Transaction notice, as both parties believed required under the Hart-Scott-Rodino Antitrust Improvements Act of 1976 ("HSR Act"), as amended. Filing such a notice is required for mergers, acquisitions, and other similar transactions over certain monetary thresholds. As part of the HSR Act process, Cannex and 4Front received a request for additional information (the "Second Request") from the US Department of Justice Antitrust Division on April 18, 2019. Generally, companies are not permitted to close a transaction which has been the subject of a Second Request until up to 30 days after they have substantially complied with the Second Request.

However, Cannex and 4Front later discovered that they had erred in initially determining the monetary size of the Transaction for HSR Act purposes, and subsequently withdrew from the HSR review process, and are proceeding to closing the Transaction (targeted for July 31, 2019). Cannex and 4Front may be subject to a Civil Investigative Demand by the Department of Justice to obtain further information on the Transaction and any potential anticompetitive effects, but such a demand would not delay closing of the Transaction. Cannex and 4Front believe the Transaction does not raise substantial competitive concerns, and that it will enhance competition in nascent markets.

Closing of the Transaction remains subject to final regulatory approval, and other customary completion conditions. Upon receipt of such regulatory approval and satisfaction or waiver of all other completion conditions, Cannex and 4Front will make an application to the Supreme Court of British Columbia for the final order in respect of the Transaction.

4Front Note

In December 2018, Cannex issued 4Front a demand unsecured promissory note which allows 4Front to draw-down up to \$8,000,000, later increased to \$13,000,000. The 4Front Note will provide 4Front additional capital to execute on growth initiatives and potential acquisitions while Cannex and 4Front move towards closing of the previously announced business combination. The Note, as amended, bears interest at the published prime rate ("Prime") (5.5% as of December 20, 2018) and is due on or before December 24, 2019.

As of the date of this report, the amount outstanding under the 4Front Note (with interest) is \$2,000,000.

RTO Amalgamation

On March 13, 2018, the Company entered into convertible promissory notes for \$9,033,025 as part of the RTO Amalgamation. The convertible promissory notes are secured by the units of BrightLeaf and pay 12% interest, calculated and paid monthly, and mature on March 15, 2020. The notes are convertible into common shares of the Company at the option of the subscriber at any time until maturity at a price of C\$1.00 per common share. The Company is to make monthly payments equal to the lesser of (1) interest for the previous month; and (2) 50% of the distributable cash of BrightLeaf, with distributable cash defined as cash received by BrightLeaf minus payments to lenders, cash expenses and expenditures and cash reserves. If the Company fails to make payments on time, the interest rate increases to 18% until the default is remedied, and an additional 50% late payment fee is charged.

The Company received a waiver from the holders of the notes described above, allowing it to defer required payments until August 2018 with no penalty. The Company requested this waiver as an accommodation to allow it to instead completely pay down a trade payable, which was interest bearing at 12% per year. As of August 2018, the trade payable was completely paid down, and the first required payment to the holders of the notes described above has been made.

The Company used the residual value method to allocate the principal amount between the liability and option components of the convertible promissory notes. The option component of the convertible promissory notes is a derivative liability as the ultimate number of common shares to be issued varies with the foreign exchange rate between United States and Canadian dollars. At the end of each reporting period, the Company revalues the derivative liability, that is the conversion option, by using the Black-Scholes option pricing model with the following assumptions:

14. Convertible Promissory Note (continued)*Gotham Green Partners*

In November 2018, the Company issued to GGP \$32,000,000 in senior secured convertible notes with a maturity date of November 21, 2021 (the "**Notes**"). The Notes have a coupon of LIBOR +11% in year 1, LIBOR +10% in year 2 and LIBOR +9.5% in year 3, with agreed voluntary prepayment rights after the first anniversary of the closing date. The Notes are exchangeable into shares of the Company at a 25% premium to \$0.66 (the "**Reservation Price**"), or \$0.83. The Notes include warrants (the "**Warrants**") to purchase \$7,000,000 in shares at 150% of the Reservation Price (\$1.00), \$6,000,000 in shares at 200% of the Reservation Price (\$1.33), and \$4,000,000 in shares at 300% of the Reservation Price (\$1.99), all such prices secured with the CSE. Half of the interest payable under the Notes is paid monthly in cash, and half is paid in kind.

The use of proceeds was the repayment of all other existing indebtedness of the Company totaling approximately \$9,400,000, general corporate purposes, and working capital. At January 31, 2019 the payable due, with accrued interest, under the terms of the GGP promissory note agreement, and before consideration of transaction costs and the derivative liability, was \$32,386,786 (note 22).

The Company used the residual value method to allocate the principal amount between the liability and option components of the convertible promissory notes. The option component of the convertible promissory notes is a derivative liability as the ultimate number of common shares to be issued varies with the foreign exchange rate between United States and Canadian dollars. In addition, the Warrants are exercisable in a currency other than the functional currency of Cannex. As a result, the fair value allocated to the Warrants is recorded as a derivative liability. At the end of each reporting period, the Company revalues the derivative liability by using the Black-Scholes option pricing model with the following assumptions:

	January 31 2019	November 21 2018

During the period ended January 31, 2019, the Company recognized accretion of \$267,084 representing the difference between the fair value of the convertible promissory note financing cost and nominal interest at 13.5%.

15. Share Capital and Members' Capital

Authorized capital

Unlimited number of common shares without par value; and

Unlimited Class A shares without par value.

The holders of the Class A shares are entitled to receive notice of and to attend all meetings of the shareholders or holders of Class A shares and to one vote per Class A share at any meeting of the shareholders of the Company provided that the holders of the Class A shares are not entitled to vote for the election or removal of the directors of the Company. Class A holders are entitled to receive dividends as and when declared by the board if also paid to holders of common shares. In the event of the liquidation, dissolution or winding-up of the Company, whether voluntary or involuntary, holders of Class A shares are entitled to share rateably, together with holders of common shares, in such assets of the Company as are available for distribution.

Each Class A share shall be convertible into one common share, without payment of additional consideration, at the option of the holder thereof as follows:

- a) at any time that is not a restricted period;
- b) if the Company determines that it has ceased to be a "foreign issuer" (see below), as such term is defined in Rule 902(e) of the US Securities Act, and has notified the holders of the Class A shares of such determination;
- c) if there is an offer to purchase the common shares which must be made by reason of applicable securities legislation or the rules or policies of a stock exchange to all or substantially all of the holders of common shares any of whom are in, or whose last address as shown on the books of the Issuer is in, a province or territory of Canada to which the relevant requirement applies.

For these purposes, a "Restricted Period" means any time at which the board of directors of the Company reasonably believes that the Company is a "Domestic Issuer" under applicable United States securities laws – being a U.S. issuer or a non-U.S. issuer that has a majority (50.1% or more) of its outstanding voting securities held by U.S. residents and either the majority of the executive officers or directors are U.S. citizens or residents, a majority of the assets of the issuer are located in the U.S., or the business of the issuer is administered principally in the U.S. – or would become a Domestic Issuer as a result of the issuance of common shares upon the conversion of a Class A share.

In addition, each Class A share may be converted into one common share at any time and from time to time at the option of the Company upon notice to the holder.

The Company did not issue any shares in the period ended January 31, 2019.

Fiscal 2018

In the period ended April 30, 2018, BrightLeaf converted promissory notes of \$768,000 and revolving loans of \$124,265 to members' equity.

In March 2018, the Company undertook the RTO Amalgamation (note 1) that resulted in a net reduction of equity of \$9,033,025. The change in the legal structure resulted in the reclassification of \$2,777,742 of BrightLeaf members' equity to share capital and the reclassification of \$1,462,329 from common shares to Class A shares to reflect the value of 96,521,734 Class A shares issued in connection with the RTO Amalgamation.

In March 2018, in conjunction with the RTO Amalgamation (note 1), the Company issued 48,219,872 units at C\$1.00 per share for gross proceeds of C\$48,219,872 (\$37,582,568). Each unit consists of one common share and one-half common share purchase warrant. Each full warrant entitles the holder to acquire an additional common share at a price of C\$1.50 per common share for a period of two years from the date of issuance. The Company paid cash commissions of \$1,188,449, finders' fees of \$459,068, issued 1,652,279 share purchase warrants with a fair value of \$554,933 and incurred legal and other direct issuance costs of \$630,640.

The fair value of the warrants was determined using the Black Scholes option pricing model assuming volatility of 100%, a risk-free return of 2.11%, a dividend yield of 0% and a life of two years.

In October 2017, Cannex Group issued 30,000,000 common shares to certain individuals who held ownership interests in the members of BrightLeaf, Global Real Estate Properties LLC, 4Steps Ahead LLC, and Verde Cinco LLC at a price of C\$0.0001 per share for aggregate cash consideration of C\$3,000 (\$2,381). The Company recorded share based compensation of \$473,779, being the difference in the fair value of shares issued (\$476,160) and cash received (\$2,381).

In November 2017, Cannex Group issued 60,439,944 common shares at a price of C\$0.02 per share for aggregate cash consideration of C\$1,208,799 (\$949,630).

In November 2017, Cannex Group issued 7,343,707 common shares for aggregate cash consideration of C\$734,371 (\$577,585) of which C\$236,000 (\$188,800) had been received as subscription receipts as at September 30, 2017.

18. Share-Based Compensation

Cannex's board of directors has adopted rolling stock option plans under which the Company is authorized to grant options to directors, employees and consultants to acquire up to 10% of the issued and outstanding common shares and 10% of the issued and outstanding Class A shares. The exercise price of each option is based on the market price of the Company's stock for a period preceding the date of grant. The options can be granted for a maximum term of ten years and vest as determined by the board of directors. The Company's shares trade in Canadian dollars and options granted to date have been denominated in Canadian funds.

The Company's practice is to issue share options with a term of five years that vest in increments over a two-year period.

Option Grants

In October 2018, the Company granted 1,975,000 options to directors, employees and consultants of the Company. The grant-date fair value of the options was C\$0.66. The options are exercisable at C\$1.00 per share until October 2023.

In December 2017, the Company granted 11,650,000 options to directors, employees and consultants of the Company. The grant-date fair value of the options was C\$0.75. The options are exercisable at C\$1.00 per share until December 2022. Options granted to directors, employees and consultants vest in three equal tranches: March 13, 2018; March 13, 2019 and March 13, 2020. Options granted for investor relations vest in four equal tranches on June 13, 2018, September 13, 2018, December 13, 2018 and March 13, 2019.

A summary of stock option activity to January 31, 2019 follows:

	Stock Options Outstanding	Weighted Average Exercise Price C\$

22. Financial Risk Management

The Company's activities expose it to a variety of financial risks, including foreign exchange risk, interest rate risk, commodity price risk, credit risk and liquidity risk. The Company does not have a practice of trading derivatives.

Fair Values

There were no changes in level 1, 2, or 3 financial instruments during the period ended January 31, 2019.

Foreign Exchange Risk

The Company's activities are primarily undertaken in the United States but the parent company is located in Canada and the Company is exposed to changes in exchange rate between the US and Canadian dollars.

As at January 31, 2019 with other variables unchanged, a 10% increase (decrease) in the Canadian dollar would decrease (increase) net earnings by approximately \$448,700. Exposure to the Canadian dollar on financial instruments is as follows:

<hr/>	
Balance at January 31, 2019	\$

22. Financial Risk Management (continued)*Credit Risk*

Credit risk arises from the non-performance by counterparties of contractual financial obligations. The Company's credit risk arises primarily with respect to its cash and cash equivalents and trade receivables.

The Company manages credit risk by holding cash with large reputable financial institutions and trading with recognized creditworthy third parties. In addition, receivable balances are monitored on an on-going basis with the result that the Company's exposure to bad debt is not significant.

The Company also manages its credit risk by investing its cash only in obligations of Canada and the United States or its respective agencies, obligations of enterprises sponsored by any of the above governments; bankers' acceptances purchased in the secondary market and having received the highest credit rating from a recognized rating agency in Canada or the United States, with a term of less than 180 days; and bank term deposits and bearer deposit notes, with a term of less than 180 days.

The Company's maximum exposure to credit risk at the reporting date is the carrying value of cash and trade receivables.

Liquidity Risk

The Company manages liquidity risk by maintaining adequate cash balances. If necessary, it may raise funds through the issuance of debt, equity, or monetization of non-core assets. To ensure that there is sufficient capital to meet obligations, the Company continuously monitors and reviews actual and forecasted cash flows and matches the maturity profile of financial assets to development, capital and operating needs.

25. Events After the Reporting Period

In February 2019, the Company granted 200,000 options to an investor relations provider. The options are exercisable at C\$1.00 per share until February 2024 and vest in two equal instalments on February 1, 2019 and May 1, 2019.

In February 2019, the Company signed a binding letter agreement to acquire 100% of Pure Ratio Holdings, Inc. ("Pure Ratios"), in a cash and stock transaction. Pursuant to the proposed transaction, the Company will pay Pure Ratios' shareholders total consideration of up to \$2,000,000 in cash, 3,500,000 common shares, \$2,500,000 of contingent cash consideration and the assumption of \$500,000 of Pure Ratios' existing debt. Upon closing of the transaction, Cannex will pay the Pure Ratios' shareholders \$1,400,000 in cash with an additional \$100,000 per month for six months for total cash consideration of \$2,000,000 and will issue 3,500,000 common shares. All shares issued in the proposed transaction will be subject to a statutory Canadian hold period of four months and a day from the date of issuance. The transaction is subject to a number of conditions, including but not limited to, final due diligence by the respective parties, execution of a definitive acquisition agreement which shall supersede the letter agreement, receipt of applicable corporate approvals, and other regulatory and governmental approval. There can be no assurance that the transaction will be completed as proposed or at all.

In March 2019, the Company signed a definitive agreement with 4Front with respect to the business combination whereby the former securityholders of Cannex and 4Front will become securityholders in the combined company (the "Resulting Issuer"). Cannex and 4Front are arm's length parties. In April 2019, at a special meeting of securityholders of the Company, securityholders voted in favour of the business combination (the "Transaction") with 4Front. The CSE has conditionally approved the Resulting Issuer for listing, and lifted the trading halt on April 29, 2019. Trading will continue as Cannex until the Transaction has been completed, at which time the CSE will issue a bulletin announcing the listing of 4Front Ventures Corp.

Cannex and 4Front initially filed a pre-Transaction notice, as both parties believed required under the Hart-Scott-Rodino Antitrust Improvements Act of 1976 ("HSR Act"), as amended. Filing such a notice is required for mergers, acquisitions, and other similar transactions over certain monetary thresholds. As part of the HSR Act process, Cannex and 4Front received a request for additional information (the "Second Request") from the US Department of Justice Antitrust Division on April 18, 2019. Generally, companies are not permitted to close a transaction which has been the subject of a Second Request until up to 30 days after they have substantially complied with the Second Request.

However, Cannex and 4Front later discovered that they had erred in initially determining the monetary size of the Transaction for HSR Act purposes, and subsequently withdrew from the HSR review process, and are proceeding to closing the Transaction (targeted for July 31, 2019). Cannex and 4Front may be subject to a Civil Investigative Demand by the Department of Justice to obtain further information on the Transaction and any potential anticompetitive effects, but such a demand would not delay closing of the Transaction. Cannex and 4Front believe the Transaction does not raise substantial competitive concerns, and that it will enhance competition in nascent markets.

Closing of the Transaction remains subject to final regulatory approval, and other customary completion conditions. Upon receipt of such regulatory approval and satisfaction or waiver of all other completion conditions, Cannex and 4Front will make an application to the Supreme Court of British Columbia for the final order in respect of the Transaction.

25. Events After the Reporting Period (continued)

In March 2019, the Company made a \$500,000 investment into a California-based company focused on products in the beauty and wellness industry.

In June 2019, the Company closed its previously announced acquisition of Pure Ratios in a cash and stock transaction. Cannex will pay Pure Ratios' shareholders consideration of \$1,000,000 cash, 3,500,000 common shares Cannex common stock, and assumption and/or repayment of up to \$500,000 debt. The Company issued 3,500,655 common shares in connection with the closing of the Pure Ratios transaction. Additionally, Cannex will provide \$1,000,000 growth capital to Pure Ratios, of which \$500,000 has already been provided by a secured convertible promissory note prior to closing. Upon the satisfaction of certain sales targets by Pure Ratios within one year of closing, Cannex will pay Pure Ratios' shareholders up to an additional \$1,000,000 in cash, and upon the satisfaction of certain sales targets two years from closing Cannex will issue up to 1,271,186 Cannex common shares. This transaction is not a "significant transaction" under applicable securities regulations and CSE policies.

In June 2019, the Company granted 3,330,000 options to directors, employees and consultants of the Company. The options are exercisable at C\$1.50 per share until June 2024.

In June 2019, the Company granted 800,000 options to a director and officer of the Company. The options are exercisable at C\$1.50 per share until June 2024.
