

Cresco Labs Announces Record Fourth Quarter & Full Year 2019 Results With Revenue Growth of 144% Year-over-Year and 14% Quarter-Over-Quarter and Pre-Announces First Quarter 2020 Revenue

Conference Call with Investors and Analysts to be Held at 5:00 p.m. Eastern Time Today

CHICAGO--(BUSINESS WIRE)-- Cresco Labs Inc. (CSE: CL) (OTCQX: CRLBF) (FSE: 6CQ) (“Cresco” or the “Company”) one of the largest vertically integrated multistate cannabis operators in the United States, today released its unaudited financial results for the fourth quarter ending December 31, 2019. All financial information presented in this release is in U.S. dollars, unless otherwise noted.

Management Commentary

Charlie Bachtell, Co-founder and CEO of Cresco Labs stated, “2019 was a pivotal year for Cresco, as we achieved several major milestones that will have a profound impact on the future success of both our organization and the industry. Throughout the year, we diligently executed the plan laid out for shareholders, delivering strong financial and operational performance and setting the foundation for profitable growth in 2020. We have continued to act as stewards of this industry, successfully leading efforts that resulted in the passage of adult-use legislation in Illinois, and worked side by side with our state administrations to help cannabis achieve 'essential' status amid the COVID-19 pandemic. Backed by a strong balance sheet and a world-class leadership team, I am confident in our ability to manage through the current COVID-19 crisis and know that we will emerge from it as a stronger, more profitable company.”

Mr. Bachtell continued, “Our vision is to be the most important company in this industry, while generating sustainable, industry-leading returns on invested capital. Based on evidence from other mature consumer product industries, the highest long-term returns will go to companies that: have a strategic geographic footprint; are dominant players in their chosen markets; own a durable and differentiated brand portfolio; and have the distribution expertise and infrastructure to get those brands onto third-party shelves efficiently. This is Cresco’s strategy. The success we have had in Illinois and Pennsylvania already has proven that we are following the right plan – going deep and focusing on getting our brand portfolio onto third-party shelves. Building on our success last year, in 2020 we are focused on: expanding our market-leading position in Illinois and Pennsylvania; integrating our newest assets and turning California into a center of profitable growth; and building a scalable foundation in other important states. By achieving success in these focus areas, we expect to transition the Company from Adjusted EBITDA positive to cashflow positive progressively through the year.”

Financial Highlights and Subsequent Events

Financial Results for the Fourth Quarter Ended December 31, 2019 (Unaudited)

Revenue for the fourth quarter of 2019 was \$41.4 million, an increase of 144% compared to revenue of \$17.0 million for the fourth quarter of 2018. The increase in revenue was driven by expansion into new markets and continued growth in the states where the Company operates. Fourth quarter 2019 revenue increased 14% compared to \$36.2 million for the third quarter of 2019, primarily driven by higher revenue generated in Pennsylvania, Illinois and Arizona as well as the additional revenue from its Valley Ag and HHH acquisitions which are included in the Company's results starting in October 2019. On a pro forma basis, revenue for the fourth quarter of 2019 increased incrementally from the third quarter of 2019 to \$56.0 million, which includes the impact of pending acquisitions and minority investments.

Operational gross profit⁴, before the impact of biological assets accounting was \$21.2 million, or 51% of revenues, an increase of 176% compared to operational gross profit of \$7.7 million, or 45% of revenues, for the fourth quarter of 2018. Fourth quarter 2019 operational gross profit increased 24% compared to \$17.1 million, or 47% of revenues, for the third quarter of 2019. The change in operational gross profit margin was driven by increased sales and operational efficiencies in the Company's established markets offset by the impact of emerging and recently acquired businesses where the Company is focused on footprint expansion and relaunching of Cresco-branded products. The Company expects to see higher margins in these developing markets as operations continue to scale.

Total expenses for the fourth quarter of 2019 were \$33.5 million, compared to \$18.6 million for the prior-year period. Total expenses in the fourth quarter of 2019 included \$7.2 million in acquisition and other non-core costs, \$4.2 million in expenses related to share-based incentive compensation and \$1.4 million of depreciation and amortization. The balance of the increase represents investments made in talent and operational infrastructure to support the Company's continued revenue growth.

Net loss for the fourth quarter for 2019 was \$45.2 million, compared to net loss of \$4.4 million for the prior-year period. Current period net loss included income tax expense of \$4.3 million.

Adjusted EBITDA, excluding the net impact of the fair value of biological assets, for the fourth quarter of 2019 was \$2.9 million compared with \$(0.3) million for the prior-year period.

Balance Sheet and Liquidity

As of December 31, 2019, the Company had total assets of \$616.6 million, including cash and cash equivalents of \$49.1 million. Use of cash in the fourth quarter of 2019 included significant investments in the expansion of cultivation, processing and retail facilities in the Company's existing markets as well as funding provided for our current and pending acquisitions.

Total shares on a fully converted and diluted basis⁵ were 307,729,000 as of December 31, 2019.

Conference Call and Webcast

Non-IFRS Financial Measures

Operational gross profit, EBITDA and Adjusted EBITDA are non-IFRS measures and do not have standardized definitions under IFRS. The following information provides reconciliations of the supplemental non-IFRS financial measures, presented herein to the most directly comparable financial measures calculated and presented in accordance with IFRS. The Company has also provided unaudited pro forma financial information, which assumes that closed and pending mergers and acquisitions in 2019 are included in the Company's financial results as of the beginning of the quarterly and annual periods in 2019. This measure also includes revenue for certain pending or completed minority investments, for which revenue is not consolidated under IFRS rules. The Company has provided the non-IFRS financial measures, which are not calculated or presented in accordance with IFRS, as supplemental information and in addition to the financial measures that are calculated and presented in accordance with IFRS. These supplemental non-IFRS financial measures are presented because management has evaluated the financial results both including and excluding the adjusted

items and believe that the supplemental non-IFRS financial measures presented provide additional perspective and insights when analyzing the core operating performance of the business. These supplemental non-IFRS financial measures should not be considered superior to, as a substitute for or as an alternative to, and should only be considered in conjunction with, the IFRS financial measures presented herein.

Forward Looking Statements

This press release contains “forward-looking information” within the meaning of applicable Canadian securities legislation and may also contain statements that may constitute “forward-looking statements” within the meaning of the safe harbor provisions of the United States Private Securities Litigation Reform Act of 1995. Such forward-looking information and forward-looking statements are not representative of historical facts or information or current condition, but instead represent only the Company’s beliefs regarding future events, plans or objectives, many of which, by their nature, are inherently uncertain and outside of the Company’s control. Generally, such forward-looking information or forward-looking statements can be identified by the use of forward-looking terminology such as, ‘may,’ ‘will,’ ‘should,’ ‘could,’ ‘would,’ ‘expects,’ ‘plans,’ ‘anticipates,’ ‘believes,’ ‘estimates,’ ‘projects,’ ‘predicts,’ ‘potential’ or ‘continue’ or the negative of those forms or other comparable terms. The Company’s forward-looking statements involve known and unknown risks, uncertainties and other factors which may cause the Company’s actual results, performance or achievements to be materially different from any future results, performance or achievements expressed or implied by the forward-looking statements, including but not limited to those risks discussed under “Risk Factors” in the company’s CSE Listing Statement filed with SEDAR; and other factors, many of which are beyond the control of the Company. Readers are cautioned that the foregoing list of factors is not exhaustive. Because of these uncertainties, you should not place undue reliance on the Company’s forward-looking statements. No assurances are given as to the future trading price or trading volumes of Cresco’s shares, nor as to the Company’s financial performance in future financial periods. The Company does not intend to update any of these factors or to publicly announce the result of any revisions to any of the Company’s forward-looking statements contained herein, whether as a result of new information, any future event or otherwise. Except as otherwise indicated, this press release speaks as of the date hereof. The distribution of this press release does not imply that there has been no change in the affairs of the Company after the date hereof or create any duty or commitment to update or supplement any information provided in this press release or otherwise.
