Deveron Reports Q1 Revenue Growth of 181%

Toronto, Ontario - Deveron UAS Corp. (CSE: DVR) (“**Deveron**” or the “**Company**”) a leading agriculture digital services and insights provider in North America is pleased to announce revenue growth of 181% year over year to \$283,420 in Q1 2020. For the fourth quarter in a row, Deveron achieved sales growth of over 100%.

First Quarter 2020 Financial and Operational Highlights

The Company’s financial performance improved over the previous year’s quarter, driven by the continued customer uptake of Deveron’s soil sampling service. For the three-month financial results ended March 31, 2020 (and comparable period ended March 31, 2019):

- Revenue grew 181% year over year to \$283,420 in Q1 2020, from \$100,564 in Q1 2019.
- Gross profit grew 160% year over year to \$180,212 in Q1 2020, from \$69,833 in Q1 2019.

“Our first quarter results are highlighted by continued growth in acres serviced for our data collection group,” commented David MacMillan, Deveron’s President and CEO. “Building upon our successful launch in 2019, we saw increased usage of our collection network reflecting trust from our customers and our team’s ability to quickly turn around orders, helping our farm partners prepare for the spring planting season. Considering that Q1 is typically slow for our business, I think these results continue to illustrate our growing market penetration, the value we provide as a low cost, reliable service provider and that we are on track for another year of substantial growth. We are starting to see our organic sales channels deliver and coupled with our recent acquisition of Better Harvest in Texas, we believe we have a solid foundation on which we can continue to grow our farm acres under management and ultimately, average revenue per acre. Finally, as was the case in 2019, we have already seen net bookings in April and May outpace all of Q1.”

Summary of Financial Results

Results of operations	For the three months ended	
	March 31, 2020	March 31, 2019
Total Revenue	\$283,420	\$100,564
Gross Profit	\$180,212	\$69,833
Gross Profit Margin %	63%	69%
Operating Expenses	\$748,995	\$952,919
Total Comprehensive Loss	\$(568,783)	\$(882,919)
Weighted Average Common Shares Outstanding	38.1 M	37.8 M
Per Share:		
Comprehensive Net Loss	\$(0.01)	(0.02)

Operational Highlights for Q1:

- On January 7, Deveron announced further collaboration with Huron Tractor, a leading John Deere dealer, to offer data insights and collection products to help deliver increased value to agriculture data while offering additional support to help farmers leverage raw data into value add solutions.
- Increased data collection revenue to \$139,786 in 2020 versus \$3,332 in 2019.
- Increased data insights revenue of 47% to \$143,634 in 2020 versus \$97,232 in 2019.

Business Outlook

“Our goal was to achieve significant revenue growth in both our data collections and analytics business. We achieved this in Q1 with revenue growth of 181% over Q1 2019, in what is typically our lowest activity quarter. We moved our strategy forward in Q1 by growing our customer base and increasing the acres under management that we service. This will directly impact the remainder of the year and set us up for solid growth again in 2020. Secondly, with our acquisition of Better Harvest in Texas finalized subsequent to the quarter end, we have initiated an agronomist acquisition strategy which we think provides significant potential to accelerate revenue growth and acres under management. Finally, with a new round of investment completed, our team has ample runway to execute our 2020 plan.”

Subsequent to Quarter End

- On May 11, Deveron acquired Better Harvest, a Texas based agronomy solutions business. Better Harvest provides unbiased agronomic advice, nitrogen management solutions and optimization for irrigation to over 100,000 acres of growers. Better Harvest had unaudited reported revenue of \$471,769 USD in 2019.
- The Company also completed a private placement of \$1.35 million (see press releases dated *April 7, 2020 and April 17, 2020*). In conjunction with this financing, Bill Linton joined its Board of Director, where he will serve as non-executive Chairman. Bill Linton is an experienced Director and private investor. He currently serves on the Boards of TMX Group (TSE: X), Empire Company (TSE: EMP.A), and CSL Group. He has invested in and served as an advisor to and/or Board member of a number of successful technology companies including UXP Systems (acquired by AmDocs), In The Chat (acquired by Pegasystems) and Softchoice Corp. (acquired by Birch Hill Equity Partners). Bill retired in 2012 as the CFO of Rogers Communications Inc. and prior to that was the CEO of Call Net Enterprises.
