

Enderby Entertainment to Partner with Draganfly's Safe Set Solutions to Resume Film Production Post COVID-19 Lockdown

Los Angeles, CA – June 26, 2020 – Draganfly Inc. (CSE: DFLY) (OTCQB: DFLYF) (FSE: 3U8) (“Draganfly” or the “Company”), an award-winning, industry-leading technology developer and manufacturer, will partner with Enderby Entertainment LLC, an innovative story-driven motion picture and television production company to be the exclusive partner to offer Draganfly’s Safe Set Solutions to the global film and TV production industry.

Draganfly’s Safe Set Solutions is a ground-based technology that uses symptom pre-screening, elevated body temperature measurement, and social distancing digital display to help ensure that everybody on the set is safe. Enderby, in addition to distributing the technology, has committed to purchase initial Safe Set Solutions for two productions slated to begin this summer: *Firewatch* and *Legacy*, both recently acquired feature films.

“We are continuing to look at innovative ways to operate in this new normal of film production, making health and safety the number one priority,” said Rick Dugdale, President and CEO of Enderby Entertainment. “With crews eager to get back to work, we are focused on employing the best resources on our sets to ensure the safest possible environment. Draganfly’s technology could offer a solution for our industry, allowing cast and crew back on set while giving them the peace of mind that we are adhering to CDC and other health organization guidelines.”

Draganfly’s technology is a health and respiratory measurement platform used as a pre-screening tool to help identify possible infectious and respiratory conditions for the safety of film crews and workforces; as well as areas where people congregate such as airports, schools, shopping malls and other high traffic locations.

The technology does not collect personal data or use facial recognition software, but rather the system is used to understand patterns and help global film productions companies make better decisions and react quicker to mitigate potential health threats.

“While the world is starting to reopen their economies, the struggle for many industries to do this safely and effectively remains complicated,” said Cameron Chell, Draganfly CEO. “Partnering with Enderby to bring Safe Set Solutions to the film industry is a significant step to help Hollywood and the global film industry safely ramp up production. Film industry investors, insurance companies, unions and guilds are all seeking this type of solution to protect their investments and keep workers safe.”

Forward-Looking Statements

This release contains certain “forward looking statements” and certain “forward-looking information” as defined under applicable Canadian securities laws. Forward-looking statements and information can generally be identified by the use of forward-looking terminology such as “may”, “will”, “expect”, “intend”, “estimate”, “anticipate”, “believe”, “continue”, “plans” or similar terminology. Forward-looking statements and information are based on forecasts of future results, estimates of amounts not yet determinable and assumptions that, while believed by management to be reasonable, are inherently subject to significant business, economic and competitive uncertainties and contingencies. Forward-looking statements and information are subject to various known and unknown risks and uncertainties, many of which are beyond the ability of the Company to control or predict, that may cause the Company’s actual results, performance or achievements to be materially different from those expressed or implied thereby, and are developed based on assumptions about such risks, uncertainties and other factors set out here in, including but not limited to: the potential impact of epidemics, pandemics or other public health crises, including the current outbreak of the novel coronavirus known as COVID-19 on the Company’s business, operations and financial condition, the successful integration of technology, the inherent risks involved in the general securities markets; uncertainties relating to the availability and costs of financing needed in the future; the inherent uncertainty of cost estimates and the potential for unexpected costs and expenses, currency fluctuations; regulatory restrictions, liability, competition, loss of key employees and other related risks and uncertainties. The Company undertakes no obligation to update forward-looking information except as required by applicable law. Such forward-looking information represents managements’ best judgment based on information currently available. No forward-looking statement can be guaranteed and actual future results may vary materially. Accordingly, readers are advised not to place undue reliance on forward-looking

statements or information.
