Number of Shares Reserved for Issuance	16,301,773 (from Warrants)
Date	Aug 7, 2019

This Monthly Progress Report must be posted before the opening of trading on the fifth trading day of each month. This report is not intended to replace the Issuer's obligation to separately report material information forthwith upon the information becoming known to management or to post the forms required by the CSE Policies. If material information became known and was reported during the preceding month to which this report relates, this report should refer to the material information, the news release date and the posting date on the theCSE.com website.

This report is intended to keep investors and the market informed of the Issuer's ongoing business and management activities that occurred during the preceding month. Do not discuss goals or future plans unless they have crystallized to the point that they are "material information" as defined in the CSE Policies. The discussion in this report must be factual, balanced and non-promotional.

**General Instructions**

- (a) Prepare this Monthly Progress Report using the format set out below. The sequence of questions must not be altered nor should questions be omitted or left unanswered. The answers to the items must be in narrative form. State when the answer to any item is negative or not applicable to the Issuer. The title to each item must precede the answer.
- (b) The term "Issuer" includes the Issuer and any of its subsidiaries.

- (c) Terms used and not defined in this form are defined or interpreted in Policy 1 – Interpretation and General Provisions.

## Report on Business

1. Provide a general overview and discussion of the development of the Issuer's business and operations over the previous month. Where the Issuer was inactive disclose this fact.

In May, the company rebranded itself and changed its name to Theramed Health Corporation from Evitrade Health Systems Corp. and closed on a first tranche of financing of \$705,000. In June the company closed on a second tranche of financing of \$107,500 and \$8,400 of debts settled at the financing price for unit securities.

The company is still active in customizing its hardware technologies and software applications towards providing a personalized health care system and the company has been in discussions with an engineer on furthering development of its medical products exchange app and determining the best way to utilize it with a focus on CBDs from hemp as a core component.

It continued to work on the JV which holds the Intellectual Property (IP) of a Timed Release Excipient Carrier System designed to improve bioavailability and solubility of hard to dissolve materials such as CBDs. The company is also working with its advisors to offer consulting with other companies for medical technology and equipment protocols and laboratory SOPs. During the month one of the company's scientific advisors was invited to co-host a panel on extraction technologies and SOPs at a major industry conference.

The company also continues assisting its subsidiary Western Agri in developing out its processing and extraction facility as part of its CBD Health System vertical. The company has been working closely with its advisors for the development of the extraction facility,

Provide a general overview and discussion of the activities of management.

Management continues to pursue opportunities in the healthcare business. While the primary focus is still on customizing hardware technologies and software applications towards providing personalized health solutions for common health issues, management has been exposed to and presented with a number of health/medical opportunities, interesting software technologies, and other potential businesses. The Company also continues to evaluate business opportunities in an endeavour to increase shareholder value. As identified above, management has been active in arranging financing for the company, working on developing its JV for the Excipient Carrier Delivery System, its extraction facility in Nevada for CBDs, its medical products exchange app, and dealing with the settlement with its medical device operator. Management has also been evaluating other medical product sales channels. The company has been negotiating extensively with its former medical device researcher and operator on a settlement agreement and has announced a mutual termination, settlement and option to buy agreement has been signed. There are no other matters to report.
