SPEY RESOURCES CORP.
NOTES TO THE CONDENSED INTERIM FINANCIAL STATEMENTS
FOR THE THREE AND SIX MONTHS ENDED MAY 31, 2021
(Expressed in Canadian dollars)
(UNAUDITED)

1. NATURE OF OPERATIONS

Spey Resources Corp. (“the Company”) was incorporated on July 31, 2017 under the laws of British Columbia. The address of the Company’s corporate office and its principal place of business is 900 - 580 Hornby Street, Vancouver, British Columbia, Canada.

The Company’s and the common shares are listed for trading on the Canadian Securities Exchange under the symbol “SPEY”.

The Company’s principal business activities include the acquisition and exploration of mineral property assets. As at May 31, 2021, the Company had not yet determined whether the Company’s mineral property assets contain ore reserves that are economically recoverable. The recoverability of amount shown for exploration and evaluation asset is dependent upon the discovery of economically recoverable reserves, confirmation of the Company’s interest in the underlying mineral claims, the ability of the Company to obtain the necessary financing to complete the development of and the future profitable production from the property or realizing proceeds from its disposition. The outcome of these matters cannot be predicted at this time and the uncertainties cast significant doubt upon the Company’s ability to continue as a going concern.

The Company had a deficit of \$1,715,401 as at May 31, 2021 (November 30, 2020: \$901,986), which has been funded by the issuance of equity. The Company’s ability to continue its operations and to realize its assets at their carrying values is dependent upon obtaining additional financing and generating revenues sufficient to cover its operating costs.

These financial statements do not give effect to any adjustments which would be necessary should the Company be unable to continue as a going concern and therefore be required to realize its assets and discharge its liabilities in other than the normal course of business and at amounts different from those reflected in these financial statements.

2. SIGNIFICANT ACCOUNTING POLICIES

a) Statement of compliance

These condensed consolidated interim financial statements have been prepared in accordance with International Accounting Standard 34 Interim Financial Reporting. They do not include all of the information required for full annual financial statements and should be read in conjunction with the Company’s audited annual consolidated financial statements for the year ended November 30, 2020, which have been prepared with International Financial Reporting Standards (“IFRS”). These condensed consolidated interim financial statements were approved by the Company’s Board of Directors on July 28, 2021.

In March 2020, there was a global outbreak of COVID-19, which continues to rapidly evolve. The extent to which the COVID-19 coronavirus may impact the Company will depend on future developments, which are highly uncertain and cannot be predicted with confidence, such as the ultimate geographic spread of the disease, the duration of the outbreak, travel restrictions, social distancing, business closures or business disruptions, and the effectiveness of actions taken by countries to contain and treat the disease.

SPEY RESOURCES CORP.
NOTES TO THE CONDENSED INTERIM FINANCIAL STATEMENTS
FOR THE THREE AND SIX MONTHS ENDED MAY 31, 2021
(Expressed in Canadian dollars)
(UNAUDITED)

2. SIGNIFICANT ACCOUNTING POLICIES (continued)

b) Basis of presentation

The financial statements have been prepared on the historical cost basis, with the exception of financial instruments which are measured at fair value, as explained in the accounting policies set out below. In addition, these financial statements have been prepared using the accrual basis of accounting, except for cash flow information.

The accounting policies set out below have been applied consistently to all periods presented in these financial statements.

3. SIGNIFICANT ACCOUNTING ESTIMATES AND JUDGMENTS

The preparation of these financial statements requires management to make certain estimates, judgments and assumptions that affect the reported amounts of assets and liabilities at the date of the financial statements and reported amounts of expenses during the reporting period. Actual outcomes could differ from these estimates. These financial statements include estimates which, by their nature, are uncertain. The impacts of such estimates are pervasive throughout the financial statements, and may require accounting adjustments based on future occurrences. Revisions to accounting estimates are recognized in the period in which the estimate is revised and future periods if the revision affects both current and future periods. These estimates are based on historical experience, current and future economic conditions and other factors, including expectations of future events that are believed to be reasonable under the circumstances.

Significant assumptions about the future and other sources of estimation uncertainty that management has made at the financial position reporting date, that could result in a material adjustment to the

carrying amounts of assets and liabilities, in the event that actual results differ from assumptions made, relate to, but are not limited to, the following:

Significant accounting estimates

- i. the assessment of indications of impairment of the mineral property and related determination of the net realizable value and write-down of the mineral property where applicable;
- ii. the measurement of deferred income tax assets and liabilities; and
- iii. the inputs used in accounting for share-based payments.

4. NEW ACCOUNTING STANDARDS ISSUED BUT NOT YET EFFECTIVE

The Company has reviewed new and revised accounting pronouncements that have been issued but are not yet effective. The Company has not early adopted any of these standards and is currently evaluating the impact, if any, that these standards might have on its financial statements. Other accounting standards or amendments to existing accounting standards that have been issued but have future effective dates are either not applicable or are not expected to have a significant impact on the Company's financial statements.

Silver Basin Property

Pursuant to an option agreement (the "SB Agreement") dated July 30, 2020, the Company was granted an option to acquire a 100% interest from in the Silver Basin Property (the "SB Property") located in the Revelstoke Mining Division, of southern British Columbia.

Under the terms of the Agreement, the Company has the option to acquire an undivided 100% interest in and to the SB Property, free and clear of all liens, charges, encumbrances, claims, rights or interest of any person, with the exception of a 2.0% Net Smelter Return ("NSR").

Acquisition of the Kaslo Silver Property

Effective February 26, 2021, the Company purchased 100% of the issued and outstanding shares of Tay Resources Corp. ("Tay"). Total consideration was paid through the of issuance of 2,000,000 common shares with a value of \$300,000.

The acquisition has been accounted for by the Company as a purchase of assets and assumption of liabilities. The acquisition did not qualify as a business combination under IFRS 3 - Business Combinations, as the significant inputs, processes and outputs, that together constitute a business, did not exist in Tay at the time of acquisition.

The following table summarizes the preliminary purchase price allocation:

5. EXPLORATION AND EVALUATION ASSET (continued)

Tay owns an option (the "Option") to acquire an undivided 100% interest in and to the Kaslo Silver Property (the "Kaslo Silver Property"), located 12 kilometres west of Kaslo in southern British Columbia. Adding the Kaslo Silver Property to Spey's portfolio provides the Company with a second highly prospective silver and base metal property.

Pursuant to the agreement between the parties, as a condition precedent to the Transaction, Spey, Tay and the Denny's have entered into an assignment, assumption and amending agreement (the "Assignment Agreement") pursuant to which Tay will assign its rights and obligations under the Option to Spey.

In order to exercise the Option, the Company must:

- Make cash payments to the totaling \$310,000 as follows: (a) \$30,000 payable on or before August 31, 2021; (b) \$70,000 payable on or before August 31, 2022; (c) \$100,000 payable on or before August 31, 2023; and (d) \$110,000 payable on or before August 31, 2024;
- Issue to an aggregate of 236,547 common shares of the Company as follows: (a) 78,849 common shares on or before August 31, 2021; (b) 78,849 common shares on or before August 31, 2022; and (c) 78,849 common shares on or before August 31, 2023; and
- Issue an additional 131,415 common shares upon the commencement of commercial production at the Kaslo Silver Property.

Upon commencement of commercial production at the Kaslo Silver Property, the Kaslo Silver Property will be subject to 2.5% net smelter return royalty. All securities issuable in connection with the Option are subject to a statutory hold period expiring four months and a day from the date of issue.

Acquisition of Tech One Lithium Resources Corp.

On April 23, 2021, the Company entered into a Share Purchase Agreement with the shareholders of Tech One Lithium Resources Corp. ("Tech One"), under which the Company purchased all of Tech One's issued and outstanding shares. 5. EXPLORATION AND EVALUATION ASSET (continued)

TechOne has the option to acquire 100% of the mineral concessions of the Candella II project located within the prolific Lithium Triangle, in the Salta Province of Argentina. Candella II covers 300 hectares, is represented by the mineral claim number 23262 located in the Incahuasi Salar and is road accessible.

TechOne has optioned the project from AIS Resources Corp. under an amended and restated exploration joint venture agreement (the "Option Agreement") dated April 21, 2021, between TechOne and AIS. AIS's management team, headed by Phillip Thomas, will be managing the project pursuant to the Option Agreement. AIS has a combined experience of over 35 years in lithium brine projects.

TechOne can option 80% of Candela II by making the following schedule of payments and expenditures under the Option Agreement:

- US \$100,000 payment within 5 business days of signing the Option Agreement (PAID).
- US \$100,000 payment within 5 business days before September 18, 2021;
- US \$1,000,000 payment in within 5 business days before March 18, 2022; and
- US \$500,000 in exploration or production expenditures by no later than April 21, 2022.

Upon TechOne successfully exercising the 80% TechOne shall have the right but not the obligation to exercise the remaining 20% from AIS by making the following payment(s) to AIS: US \$6,000,000 on or before March 18, 2023, provided however that the amount of the 20% Payment shall be increased by an additional US \$250,000 for each five tonnes of lithium metal equivalent by which the indicated or inferred resource estimate on the Concession at the time Tech One makes the 20% Payment exceeds 45 tonnes of lithium metal equivalent (239,000 tonnes of lithium carbonate).

6. SHARE CAPITAL

a) Authorized:

The Company is authorized to issue an unlimited number of common shares without par value.

7. RELATED PARTY BALANCES AND TRANSACTIONS

Parties are considered to be related if one party has the ability, directly or indirectly, to control the other party or exercise significant influence over the other party in making financial and operating decisions. Related parties may be individuals or corporate entities. A transaction is considered to be a related party transaction when there is a transfer of resources or obligations between related parties.

Key management includes directors and key officers of the Company, including the President, Chief Executive Officer, Chief Financial Officer and former Chief Financial Officer.

As at May 31, 2021, included in accounts payable and accrued liabilities was \$3,000 (May 31, 2020 - \$10,850) due to management of the Company. The amount is unsecured, non-interest bearing and due on demand. The Company had incurred the following key management personnel cost from related parties:

8. MANAGEMENT OF CAPITAL

The Company's objectives when managing capital are to safeguard the Company's ability to continue as a going concern in order to pursue the sourcing and exploration of its resource property. The Company does not have any externally imposed capital requirements to which it is subject.

The Company considers the aggregate of its share capital, contributed surplus and deficit as capital. The Company manages the capital structure and makes adjustment to it in light of changes in economic conditions and the risk characteristics of the underlying assets. To maintain or adjust the capital structure, the Company may attempt to issue new shares or dispose of assets or adjust the amount of cash.

9. FINANCIAL INSTRUMENTS AND FINANCIAL RISK

The Company measures certain financial instruments and other items at fair value. To determine the fair value, the Company uses the fair value hierarchy for inputs used in measuring fair value that maximizes the use of observable inputs and minimizes the use of unobservable inputs by requiring that the most observable inputs be used when available. Observable inputs are inputs market participants would use to value an asset or liability and are developed based on market data obtained from independent sources. Unobservable inputs are inputs based on assumptions about the factors market participants would use to value an asset or liability. The three levels of inputs that may be used to measure fair value are as follows:

Level 1 - quoted prices (unadjusted) in active markets for identical assets or liabilities;

Level 2 - inputs other than quoted prices included in Level 1 that are observable for the asset or liability, either directly (i.e. as prices) or indirectly (i.e. derived from prices); and

Level 3 - inputs for the asset or liability that are not based on observable market data (unobservable inputs).

Fair Value of Financial Instruments

The Company's financial assets include cash and are classified as Level 1. The carrying value of these instruments approximates their fair values due to the relatively short periods of maturity of these instruments.

The Company's financial instruments consist of cash and accounts payable. Financial instruments are classified into one of the following categories: FVTPL, FVTOCI, or amortized cost. The carrying values of the Company's financial instruments are classified into the following categories:

Financial Instrument	Category	May 31, 2021	November 30, 2020
Cash	FVTPL	\$ 2,446,792	\$ 262,432
Accounts payable and accrued liabilities	Amortized cost	432,343	22,011
Fair value			

The fair value of the Company's financial instruments approximates their carrying value as at May 31, 2021 because of the demand nature or short-term maturity of these instruments.

9. FINANCIAL INSTRUMENTS AND FINANCIAL RISK (continued)

Financial risk management objectives and policies

The Company's financial instruments include cash and accounts payable. The risks associated with these financial instruments and the policies on how to mitigate these risks are set out below. Management manages and monitors these exposures to ensure appropriate measures are implemented on a timely and effective manner.

(i) *Currency risk*

The Company's expenses are denominated in Canadian dollars. The Company's corporate office is based in Canada and current exposure to exchange rate fluctuations is minimal.

The Company does not have any significant foreign currency denominated monetary liabilities. The principal business of the Company is the identification and evaluation of assets or a business and once identified or evaluated, to negotiate an acquisition or participation in a business subject to receipt of shareholder approval and acceptance by regulatory authorities.

(ii) *Interest rate risk*

The Company is exposed to interest rate risk on the variable rate of interest earned on bank deposits. The fair value interest rate risk on bank deposits is insignificant as the deposits are short-term.

The Company has not entered into any derivative instruments to manage interest rate fluctuations.

(iii) *Credit risk*

Credit risk is the risk of loss associated with the counterparty's inability to fulfill its payment obligations. Financial instruments that potentially subject the Company to concentrations of credit risks consist principally of cash. To minimize the credit risk the Company places these instruments with a high-quality financial institution.

(iv) *Liquidity risk*

In the management of liquidity risk of the Company, the Company maintains a balance between continuity of funding and the flexibility through the use of borrowings. Management closely monitors the liquidity position and expects to have adequate sources of funding to finance the Company's projects and operations.

10. COMMITMENTS

The Company is committed to certain cash payments, common share issuances and exploration expenditures as described in Note 5.

11. SUBSEQUENT EVENTS

Acquisition of Pocitos I and II

The Company entered into an Option Agreement (the "Agreement") dated June 23, 2021 with A.I.S. Resources Ltd. ("AIS") for an Option (the "Option") to acquire a 100% interest in the Pocitos I and Pocitos II claims (the "Property") located in Salta, Argentina.

Pursuant to an option agreement, AIS has an option (the "Underlying Option") to acquire the Property from the current owners. Upon the exercise of the Underlying Option by AIS, the Company will be able to exercise the Option and acquire a 100% interest in the Property from AIS by paying a total of US\$1,732,000 prior to June 23, 2022.

In order to maintain the Option in good standing under the Agreement, the Company must immediately pay AIS a total of US\$100,000 and issue 2,500,000 Spey common shares. In addition, the Company must complete a US\$500,000 exploration program on the Property within the next 12 months. Upon exercise of the Option and Spey's acquisition of a 100% interest in the Property, AIS will retain a 7.5% royalty on the sales revenue of lithium carbonate or other lithium compounds from the Property, net of export taxes.

Management Discussion and Analysis
For the three and six months ended May 31, 2021

The Management Discussion and Analysis (“MD&A”), prepared July 28, 2021 should be read in conjunction with the interim financial statements and notes thereto for the three and six months ended May 31, 2021 and the notes thereto of Spey Resources Corp. (“Spey Resources”) which were prepared in accordance with International Financial Reporting Standards.

This management discussion and analysis may contain forward-looking statements in respect of various matters including upcoming events. The results or events predicted in these forward-looking statements may differ materially from the actual results or events. The Company disclaims any obligation to update or revise any forward-looking statements, whether as a result of new information, future events or otherwise.

DESCRIPTION OF BUSINESS

Spey Resources Corp. (“the Company”) was incorporated on July 31, 2017 under the laws of British Columbia. The address of the Company’s corporate office and its principal place of business is 3500 – 1055 Dunsmuir Street, Vancouver, British Columbia, V7X 1L3, Canada.

The Company completed its initial public offering (“IPO”) and the common shares of the Company commenced trading on the Canadian Securities Exchange under the symbol “SPEY” on August 24, 2018 (the “Listing”).

The Company’s principal business activities include the acquisition and exploration of mineral property assets. As at May 31, 2021, the Company had not yet determined whether the Company’s mineral property asset contains ore reserves that are economically recoverable. The recoverability of amount shown for exploration and evaluation asset is dependent upon the discovery of economically recoverable reserves, confirmation of the Company’s interest in the underlying mineral claims, the ability of the Company to obtain the necessary financing to complete the development of and the future profitable production from the property or realizing proceeds from its disposition. The outcome of these matters cannot be predicted at this time and the uncertainties cast significant doubt upon the Company’s ability to continue as a going concern.

In March 2020, there was a global outbreak of COVID-19, which continues to rapidly evolve. The extent to which the COVID-19 coronavirus may impact the Company will depend on future developments, which are highly uncertain and cannot be predicted with confidence, such as the ultimate geographic spread of the disease, the duration of the outbreak, travel restrictions, social distancing, business closures or business disruptions, and the effectiveness of actions taken by countries to contain and treat the disease.

Upon commencement of commercial production, and subject to Exchange policies in effect at the time, the Company shall issue an additional 1,000,000 common shares in the Company. At such time, the SB Property will also be subject to the underlying NSR. The Company is entitled, at any time, to purchase 80% of the NSR by making a single payment of \$2,000,000 to the Property vendors.

Kaslo Silver Property

Effective February 26, 2021, the Company purchased 100% of the issued and outstanding shares of Tay Resources Corp. ("Tay"). Total consideration was paid through the of issuance of 2,000,000 common shares with a value of \$300,000.

The acquisition has been accounted for by the Company as a purchase of assets and assumption of liabilities. The acquisition did not qualify as a business combination under IFRS 3 - Business Combinations, as the significant inputs, processes and outputs, that together constitute a business, did not exist in Tay at the time of acquisition.

The following table summarizes the preliminary purchase price allocation:

Purchase price:	\$

Tay owns an option (the "Option") to acquire an undivided 100% interest in and to the Kaslo Silver Property (the "Kaslo Silver Property"), located 12 kilometres west of Kaslo in southern British Columbia. Adding the Kaslo Silver Property to Spey's portfolio provides the Company with a second highly prospective silver and base metal property.

Pursuant to the agreement between the parties, as a condition precedent to the Transaction, Spey, Tay and the Denny's have entered into an assignment, assumption and amending agreement (the "Assignment Agreement") pursuant to which Tay will assign its rights and obligations under the Option to Spey.

In order to exercise the Option, the Company must:

Make cash payments to the totaling \$310,000 as follows: (a) \$30,000 payable on or before August 31, 2021; (b) \$70,000 payable on or before August 31, 2022; (c) \$100,000 payable on or before August 31, 2023; and (d) \$110,000 payable on or before August 31, 2024;

Issue to an aggregate of 236,547 common shares of the Company as follows: (a) 78,849 common shares on or before August 31, 2021; (b) 78,849 common shares on or before August 31, 2022; and (c) 78,849 common shares on or before August 31, 2023; and issue an additional 131,415 common shares upon the commencement of commercial production at the Kaslo Silver Property.

TechOne has the option to acquire 100% of the mineral concessions of the Candella II project located within the prolific Lithium Triangle, in the Salta Province of Argentina. Candella II covers 300 hectares, is represented by the mineral claim number 23262 located in the Incahuasi Salar and is road accessible.

TechOne has optioned the project from AIS Resources Corp. under an amended and restated exploration joint venture agreement (the "Option Agreement") dated April 21, 2021, between TechOne and AIS. AIS's management team, headed by Phillip Thomas, will be managing the project pursuant to the Option Agreement. AIS has a combined experience of over 35 years in lithium brine projects.

TechOne can option 80% of Candela II by making the following schedule of payments and expenditures under the Option Agreement:

- US \$100,000 payment within 5 business days of signing the Option Agreement (PAID).
- US \$100,000 payment within 5 business days before September 18, 2021;
- US \$1,000,000 payment in within 5 business days before March 18, 2022; and
- US \$500,000 in exploration or production expenditures by no later than April 21, 2022.

Upon TechOne successfully exercising the 80% TechOne shall have the right but not the obligation to exercise the remaining 20% from AIS by making the following payment(s) to AIS: US \$6,000,000 on or before March 18, 2023, provided however that the amount of the 20% Payment shall be increased by an additional US \$250,000 for each five tonnes of lithium metal equivalent by which the indicated or inferred resource estimate on the Concession at the time Tech One makes the 20% Payment exceeds 45 tonnes of lithium metal equivalent (239,000 tonnes of

LIQUIDITY AND CAPITAL RESOURCES

The Company's current assets are not sufficient to support the Company's general administrative and corporate operating requirements on an ongoing basis for the foreseeable future. Accordingly, further financing will be required and the Company will have to raise additional funds to continue its operations. Please see Overall Performance section with respect to the Company's financing plans.

Liquidity Outlook

The Company's cash position is highly dependent on its ability to raise cash through financings. Based on the Company's financial position as at May 31, 2021, the Company will need to complete additional external financing either through equity, debt or other forms of financing. As other opportunities become available to the Company and subject to exploration work on the Company's project and results from such exploration program is determined, management may be required to complete additional financing.

This outlook is based on the Company's current financial position and is subject to change if opportunities become available based on exploration program results and/or external opportunities. At present, the Company's operations do not generate cash inflows and its financial success is dependent on management's ability to discover economically viable mineral deposits. The mineral exploration process can take many years and is subject to factors that are beyond the Company's control.

In order to finance the Company's future exploration programs and to cover administrative and overhead expenses, the Company will need to raise funds through equity sales, from the exercise of convertible securities, debt, deferral of payments to related parties, or other forms of raising capital. Many factors influence the Company's ability to raise funds, including the health of the resource market, the climate for mineral exploration investment, the Company's track record, and the experience and calibre of its management. Actual funding requirements may vary from those planned due to a number of factors, including the progress of exploration activities. Management believes it will be able to raise equity capital as required in the short and long term, but recognizes that there will be risks involved which may be beyond its control.

Going Concern

The Company's consolidated financial statements have been prepared on the basis that the Company will continue as a going concern, which assumes that the Company will be able to meet its commitments, continue operations, and realize its assets and discharge its liabilities in the normal course of business for the foreseeable future. The Company has incurred losses since inception, has no recurring source of revenue and, as at May 31, 2021, had an accumulated deficit of \$1,715,401 (November 30, 2020: \$901,986). These material uncertainties cast significant doubt upon the Company's ability to continue as a going concern.

The Company will need to raise sufficient funds as the Company's current assets are not

(Expressed in Canadian dollars)
(UNAUDITED)

sufficient to finance its operations and administrative expenses. The Company is evaluating financing options including, but not limited to, the issuance of additional equity and debt. The Company has no assurance that such financing will be available or be available on favourable terms. Factors that could affect the availability of financing include the Company's performance (as measured by numerous factors including the progress and results of its projects), the state of international debt and equity markets, investor perceptions and expectations and the global financial and metals markets.

The Company is required to make the scheduled payments of cash and shares detailed under the Silver Basin Property Section in order to keep the property option in good standing.

Contractual Obligations

The Company is subject to certain contractual obligations associated with the exploration and evaluation assets as discussed above. The Company has no other material and long-term contractual obligations.

Significant Accounting Policies and Estimates

The preparation of financial statements requires management to establish accounting policies, estimates and assumptions that affect the timing and reported amounts of assets, liabilities, revenues and expenses. These estimates are based on historical experience and on various other assumptions that management believes to be reasonable under the circumstances and require judgment on matters which are inherently uncertain. Details of the Company's significant accounting policies can be found in Note 2 of the audited financial statements for the year ended November 30, 2021.

New Accounting Standards

The Company is aware of certain new accounting standards which are reasonably expected to have an impact on disclosures, financial position or performance when applied at a future date. Details of these changes can be found in Note 4 of the interim financial statements for the three and six months ended May 31, 2021.

TRANSACTIONS WITH RELATED PARTIES

Parties are considered to be related if one party has the ability, directly or indirectly, to control the other party or exercise significant influence over the other party in making financial and operating decisions. Related parties may be individuals or corporate entities. A transaction is considered to be a related party transaction when there is a transfer of resources or obligations between related parties. The following summarizes related party transactions for the six months ended May 31, 2021 and 2020:

	May 31, 2021	May 31, 2020

Off Balance Sheet Arrangements

The Company has no off-balance sheet arrangements.

Financial Instruments

The Company's financial instruments consist of cash and accounts payable. Financial instruments are classified into one of the following categories: FVTPL, FVTOCI, or amortized cost. The carrying values of the Company's financial instruments are classified into the following categories:

Financial Instrument	Category	May 31, 2021	November 30, 2020
Cash	FVTPL	\$ 2,446,792	\$ 262,432
Accounts payable and accrued liabilities	Amortized cost	432,343	22,011

The Company measures certain financial instruments and other items at fair value. To determine the fair value, the Company uses the fair value hierarchy for inputs used in measuring fair value that maximizes the use of observable inputs and minimizes the use of unobservable inputs by requiring that the most observable inputs be used when available. Observable inputs are inputs market participants would use to value an asset or liability and are developed based on market data obtained from independent sources. Unobservable inputs are inputs based on assumptions about the factors market participants would use to value an asset or liability. The three levels of inputs that may be used to measure fair value are as follows:

Level 1 - quoted prices (unadjusted) in active markets for identical assets or liabilities;

Level 2 - inputs other than quoted prices included in Level 1 that are observable for the asset or liability, either directly (i.e. as prices) or indirectly (i.e. derived from prices); and

Level 3 - inputs for the asset or liability that are not based on observable market data (unobservable inputs).

Assets and liabilities are classified based on the lowest level of input that is significant to the fair value measurements. Changes in the observability of valuation inputs may result in a reclassification of levels for certain securities within the fair value hierarchy.

The fair value of cash is measured on the statement of financial position using level 1 of the fair value hierarchy. The fair values of accounts payable approximate their respective carrying values because of their immediate or short-term nature.

Fair value

The fair value of the Company's financial instruments approximates their carrying value as at May 31, 2021 because of the demand nature or short-term maturity of these instruments.

Financial risk management objectives and policies

The Company's financial instruments include cash and accounts payable. The risks associated with these financial instruments and the policies on how to mitigate these risks are set out below. Management manages and monitors these exposures to ensure appropriate measures are implemented on a timely and effective manner.

Currency Risk

The Company's expenses are denominated in Canadian dollars. The Company's corporate office is based in Canada and current exposure to exchange rate fluctuations is minimal.

The Company does not have any significant foreign currency denominated monetary liabilities. The principal business of the Company is the identification and evaluation of assets or a business and once identified or evaluated, to negotiate an acquisition or participation in a business subject to receipt of shareholder approval and acceptance by regulatory authorities.

Interest Rate Risk

The Company is exposed to interest rate risk on the variable rate of interest earned on bank deposits. The fair value interest rate risk on bank deposits is insignificant as the deposits are short term.

The Company has not entered into any derivative instruments to manage interest rate fluctuations.

Credit Risk

Credit risk is the risk of loss associated with the counterparty's inability to fulfill its payment obligations. Financial instruments that potentially subject the Company to concentrations of credit risks consist principally of cash. To minimize the risk, the Company places these instruments with a high-quality financial institution.

Liquidity Risk

In the management of liquidity risk of the Company, the Company maintains a balance between continuity of funding and the flexibility through the use of borrowings. Management closely monitors the liquidity position and expects to have adequate sources of funding to finance the Company's projects and operations.
