The Financing consisted of an aggregate total of 18,000,000 units at \$0.05 per Unit (the "\$0.05 Units") where each \$0.05 Unit was comprised of one common share (each a "Share") and one half of one common share purchase warrant (the "Warrants"). Each whole Warrant will entitle the holder to acquire one additional Common Share at an exercise price of \$0.10 for a period of 24 months from closing of the Financing, provided that, in the event the closing price of the outstanding Common Shares on the Canadian Securities Exchange (the "CSE") is greater than \$0.15 for a period of 20 consecutive trading days at any time following the closing of the Financing, the Company may, at its option accelerate the expiry date of the Warrants by giving written notice to the holders of the Warrants and in such case the Warrants will expire on the earlier of: (i) the 30th day after the date on which such notice is given by the Company; and (ii) 24 months from the closing of the Financing.

Finder's fees were paid on the Financing, consisting of CAD \$47,110 cash and 1,346,000 broker warrants (the "Broker Warrants"). Each Broker Warrant is exercisable into one common share in the equity of the Company at an exercise price of \$0.10 for a period of two years, expiring May 18, 2018. The proceeds of the Financing will be used for general working capital purposes.

The Zoro I Claim

The Zoro I claim covers approximately 52 hectares near Wekusko Lake in western Manitoba. The Zoro I Claim covers a number of known lithium pegmatite occurrences, one of which contains an historic "reserve" based on 1956 drilling on the "Principal Dyke" of 1.727 million tonnes grading 0.94% Li₂O.

The mineral reserve cited above is presented as an historical estimate and uses historical terminology which does not conform to current standards, and as such should not be relied upon. Although the historical estimates are believed to be based on reasonable assumptions, they were calculated prior to the implementation of National Instrument 43-101. These historical estimates do not meet current standards as defined under sections 1.2 and 1.3 of NI 43-10 and therefore should not be relied upon.
