

Far Resources Provides End of Year Recap

December 8, 2016 – Vancouver, BC: Far Resources Ltd (CSE:FAT) (FSE:FOR) www.farresources.com (“Far Resources” or the “Company”) is pleased to provide this end-of-year update on its corporate activities as 2016 draws to a close.

Results of Annual General Meeting

At the Company’s annual general meeting (the “Meeting”) shareholders re-elected Keith Anderson, Cyrus Driver, Lindsay Bottomer and Frank Anderson. Shareholders elected Jeremy Ross, who was appointed in 2016 to fill the vacancy left by Derek Huston’s resignation and also elected an additional director, Shastri Ramnath, increasing the number of directors to six. Ms. Ramnath is a Professional Geoscientist with over 17 years of global experience within the exploration and mining industry. Ms. Ramnath holds a B.Sc. in Geology from the University of Manitoba, a M.Sc. in Exploration Geology from Rhodes University (South Africa), and an Executive MBA from Athabasca University.

In addition, shareholders reappointed the Company’s auditor and authorized the directors to fix the auditor’s remuneration. For more information on these matters, please refer to Far Resources’ information circular, available on SEDAR (www.sedar.com). Following the AGM, the Board of Directors (the “Board”) re-appointed Mr. Keith Anderson as President and CEO and Mr. Cyrus Driver as CFO of the Company.

Financing

The Company completed a private placement financing in November 2016. Funds raised from private placement financings over the course of 2016 have been used to advance the Company’s Zoro Lithium Property drill program and to maintain its properties in Canada and the US.

Mining Assets

The Company acquired the Zoro Lithium Property in 2016 and completed a drill program on the property in late October. The Company is awaiting the drill results at this time and will release the results as soon as they are available, which should be sometime between late December and mid-January depending on when the laboratory completes its analyses.

In June 2016, the Company amended its option agreement to acquire up to an 80% interest in and to 20 unpatented and 2 patented mineral claims located in Sierra County, New Mexico, U.S.A. known as the Winston Property and initiated permitting for an exploration program to verify the results from work carried out in the 1980s. The Company continues to work with local authorities with regard to obtaining approval of its permitting application.

Now that the drill program on the Zoro Lithium Property has been completed, Far Resources plans to pursue further exploration at its Winston Property, as weather permits in the spring of 2017. See news release dated February 1 and June 27, 2016 for further details.

The Company optioned its Tchentlo Property to Alchemist Mining Inc. (CSE: AMS) (“Alchemist”) in 2015, and in 2016, the Company and Alchemist amended the terms of the option agreement. Details of the option agreement and the Tchentlo Property are in the Company’s news releases dated June 24, 2014, August 6, 2015 and September 7, 2016.

Keith Anderson, President and CEO of Far Resources commented, “We have had a busy and eventful year, and are very pleased with the progress we are making in advancing both the Zoro Lithium Property and Winston Property projects. We are pleased to welcome Shastri to the Board of Directors and look forward to working with her. Her experience and expertise in exploration, particularly in Manitoba, where our Zoro Lithium Property is located, will be invaluable to us as we move this project forward. In 2016, we settled up a number of obligations with service providers through the issuance of shares. We believe this will allow the Company to move forward into 2017 with an improved balance sheet and a group of dedicated consultants ready to take on new tasks in the New Year. We are looking forward to a successful 2017 and wish to thank all our stakeholders for their ongoing support.”

About the Company

Far Resources Ltd. is an exploration company, publicly traded on the Canadian Securities Exchange under the symbol FAT, focused on the identification and development of high potential mineral opportunities in stable jurisdictions. Please visit our newly updated website at www.farresources.com for full details. Far Resources may acquire or option properties of merit to meet its ongoing goal to locate, advance and unlock the potential of these mineral opportunities. Far Resources has option agreements in place on the Zoro Lithium Property in Manitoba, Canada and the Winston Property in New Mexico, USA. Far Resources has optioned its wholly owned Tchentlo Lake Property in British Columbia, Canada to Alchemist Mining Inc.
