Report on Business

Future Farm is a British Columbia company focused on developing and marketing products in the consumer LED industry and in the controlled environment agriculture industry through its online sales channels and web presence.

2. Provide a general overview and discussion of the activities of management.

On July 12, 2017 and July 28, 2017, the Company announced that it was anticipating a continued delay in filing its 2017 annual audited financial statements (the "Annual FS"), its related management's discussion and analysis (the "Annual MD&A"), and CEO and CFO certifications (collectively, the "Required Filings"), which were required to be filed on or before June 28, 2017.

In connection with the anticipated delay, the Company applied to the applicable Canadian securities regulators requesting that a voluntary management cease trade order ("MCTO") be imposed to restrict trading in the Company's securities by insiders of the Company, as opposed to an issuer cease trade order, which would restrict all trading in the Company's securities. The MCTO will be in effect until the Required Filings are filed or until it is revoked or varied.

The Company confirms that it intends to satisfy the provisions of the alternative information guidelines described in section 4.3 and 4.4 of National Policy 12-203 – Cease Trade Orders for Continuous Disclosure Defaults for so long as it remains in default of the requirement to file the Required Filings on or before June 28, 2017. The Company has not taken any steps towards any insolvency proceeding and the Company has no material information to release to the public. The Company has made the foregoing representations in accordance with the requirements of applicable securities laws.
