### **NEWS RELEASE**

#### **FUTURE FARM CLOSES PRIVATE PLACEMENT**

September 22, 2017 – Vancouver, British Columbia - Future Farm Technologies Inc. (the “Company” or “Future Farm”) (**CSE: FFT**) (**OTCQB: FFRMF**) is pleased to announce that it has closed on its non-brokered, private placement financing by issuing a total of 1,704,753 units (the “Units”) for gross proceeds of \$248,894.00 CDN, representing a subscription price of \$0.146 per Unit. Each Unit will consist of one common share of the Corporation (each, a “**Share**”) and one share purchase warrant (a “**Warrant**”). Each Warrant will entitle the holder to acquire at any time up to twelve (12) months from the Closing, one common share of the Corporation (a “**Common Share**”) at an exercise price of \$0.20 per Common Share.

The Warrants are subject to an accelerated expiry if the closing price of the Company’s common shares on the Canadian National Stock Exchange exceeds \$0.30 for any 10 consecutive trading days, in which event the holder will be given notice that the Warrants will expire 30 days following the date of such notice. The Warrants may be exercised by the holder during the 30-day period between the notice and the expiration of the Warrants. The Units are to be distributed to shareholders in accordance with applicable securities laws and Canadian Securities Exchange (the “CSE”) policies.

The Units will be subject to a four (4) month plus one-day hold period from the date of closing of the Private Placement in accordance with applicable securities laws.

The net proceeds from the Offering will be used for general working capital purposes.

For further information, contact William Gildea, CEO and Chairman, at 617.834.9467.

On behalf of the Board,

William Gildea, CEO & Chairman

#### **About Future Farm**

The Company’s business model includes developing and acquiring technologies that will position it as a leader in the evolution of Controlled Environment Agriculture (CEA) for the global production of various types of plants. Future Farm provides scalable, indoor CEA systems that utilize minimal land, water and energy regardless of climate, location or time of year and are customized to grow an abundance of crops close to consumers, therefore minimizing food miles and its impact to the environment. The Company holds an exclusive, worldwide license to use a patented vertical farming technology that, when compared to traditional plant production methods, generate yields up to 10 times greater per square foot of land. The contained system provides many other benefits including *seed to sale security, scalability,*

*consistency due to year-round production, cost control, product safety and purity by eliminating environmental variability.*

The Company is also in the business of designing and distributing LED lighting solutions utilizing the COB and MCOB technology. The Company is focused on delivering cost efficient lighting to North America via advanced e-commerce sites the Company owns and operates. LEDCanada.com which caters to B2B customers is a supplier of the newest and highest demand LED solutions. The Company also owns and operates COBGrowlights.com which caters to both large and small agriculture green houses and controlled cultivation centers.
