**NEWS RELEASE**

**FUTURE FARM ENGAGES STOCKHOUSE**

September 13, 2017 – Vancouver, British Columbia - Future Farm Technologies Inc. (the “Company” or “Future Farm”) (CSE: FFT) (OTCQB: FFRMF) is pleased to announce that it has engaged the services of Stockhouse to provide increased market awareness and investor relations services to the Company. Stockhouse is a financial portal with one of the largest communities of active investors in North America. It provides financial news, tools and information that enable its investor community to uncover and share opportunities on high growth investment sectors, market trends, small cap stocks and more.

“We are pleased to have engaged the services of Stockhouse.com,” says Mr. William Gildea, Future Farm’s CEO and Chairman. “We plan to work with Stockhouse to promote the Company and increase qualified investors’ awareness of Future Farm’s unique position as an emerging player in the cannabis and controlled environment agriculture markets.”

As part of this engagement Stockhouse’s investment arm, Radical Capital Ltd., will invest \$68,000 in a \$250,000 bought deal.

**About Stockhouse**

With over 1 million unique visitors a month, Stockhouse is Canada’s #1 financial portal and one of North America’s largest small cap investor communities. Its members are smart, affluent investors actively researching stock and looking for new opportunities. Stockhouse.com is the global hub for investors to find relevant financial news, access expert analysis and opinion and share knowledge and information with each other.

For further information, contact William Gildea, CEO and Chairman, at 617.834.9467.

On behalf of the Board,

**Future Farm Technologies Inc.**

William Gildea, CEO & Chairman

**About Future Farm**

The Company’s business model includes developing and acquiring technologies that will position it as a leader in the evolution of Controlled Environment Agriculture (CEA) for the global production of various types of plants. Future Farm provides scalable, indoor CEA systems that utilize minimal land, water and energy regardless of climate, location or time of year and are customized to grow an abundance of crops close to consumers, therefore minimizing food miles and its impact to the environment. The Company holds an exclusive, worldwide license to use a patented vertical farming technology that, when compared to traditional plant production methods, generate yields up to 10 times greater per square foot of land. The contained system provides many other benefits including *seed to sale security, scalability,*

*consistency due to year-round production, cost control, product safety and purity by eliminating environmental variability.*

The Company is also in the business of designing and distributing LED lighting solutions utilizing the COB and MCOB technology. The Company is focused on delivering cost efficient lighting to North America via advanced e-commerce sites the Company owns and operates. LEDCanada.com which caters to B2B customers is a supplier of the newest and highest demand LED solutions. The Company also owns and operates COBGrowlights.com which caters to both large and small agriculture green houses and controlled cultivation centers.
