**NEWS RELEASE**

**FUTURE FARM ANNOUNCES FIRST SALES OF MAINE CHERRY WINE HEMP SEEDS**

**Buyers from Across US Take Advantage of First-Time Discount Pricing on Elite Cultivar**

March 14, 2019 - *Vancouver, British Columbia* - Future Farm Technologies Inc. (the “Company” or “Future Farm”) (CSE: FFT) (OTCQB: FFRMF) is pleased to report that, just weeks after it completed preparation of Cherry Wine seeds from the 2018 harvest and began offering them for purchase, seed sales are now over \$40,000 USD.

The approximately 25,000 seeds were sold through the Company’s US subsidiary, Future Farm Maine, LLC. With more than 1 million of these valuable Cherry Wine hemp seeds available for purchase at [FutureFarmShop.com](http://FutureFarmShop.com), and the Company’s [recent success](#) being awarded three additional industrial hemp cultivation licenses from the State of Maine, Future Farm is positioned to be a leading supplier of a very valuable cultivar to farmers looking to grow hemp for CBD. Once laboratory testing confirms that the seeds are verified as feminized, the price per seed will increase by \$0.50 USD. This planned price increase gives farmers an incentive to buy early. Lab results are expected by the beginning of April 2019.

“So far, we have sold seeds to farmers in a number of states, including here in Maine, as well as Pennsylvania, West Virginia and Vermont,” says Zak Lapan, General Manager of Future Farm Maine. “The recent launch of our seed sales website has resulted in increased inquiries from farmers in the US, Canada, Europe and Africa. We are actively pursuing all potential opportunities.”

William Gildea, CEO

**About Future Farm Technologies Inc.**

Future Farm Technologies is a diversified Canadian company focused on the emerging cannabis market with holdings throughout North America including California, Massachusetts, Florida,

Maine, Puerto Rico and Newfoundland. Future Farm is operating or developing cultivation, processing, retail and technology/breeding innovation businesses in both the marijuana and hemp-for-wellness segments of the cannabis market. The Company also has significant experience in sustainably growing organic produce indoors and is developing opportunities in that market. The deep operational, financial and regulatory expertise of Future Farm's outstanding management team put it in a strong position to grow its existing businesses and through acquisitions and joint ventures.
