**NEWS RELEASE**

**FUTURE FARM’S GEORGE GROCCIA AND ZAK LAPAN GIVE VOICE TO THE  
FUTURE FARM MISSION AT NECANN 2019**

**Panel Provides Thought Leadership to Future Farmers**

*March 28, 2019 – Vancouver, British Columbia* – Future Farm Technologies Inc. (the “Company” or “Future Farm”) (CSE: FFT) (OTCQB: FFRMF) is pleased to announce the successful and well received panel discussion moderated by Future Farm's George Groccia on March 23rd at the 2019 New England Cannabis Convention (“NECANN”) held in Boston, Massachusetts. The panel discussion was invaluable to the audience comprised primarily of farmers seeking to learn about growing and cultivating valuable CBD-producing hemp in New England. Topics covered in the hour-long session included: farming best practices, Farm Bill and state-level regulation of the industry in New England and the business economics of growing hemp for CBD.

According to Beth Waterfall, managing director for NECANN, "The team from Future Farm provided meaningful and timely insight that we hope will improve bottom lines of the farmers, investors and entrepreneurs in attendance. We thank George and Zak for their generous insight, collaboration and thought leadership."

Future Farm’s own experience in growing hemp for CBD in 2018 means that it is continuing to offer for sale both valuable Cherry Wine hemp seeds (visit <https://www.futurefarmshop.com/>) and biomass from its 2018 harvest (watch harvest video at <https://www.youtube.com/watch?v=7yCY4Iz1HnQ&t>).

To view the conference schedule and learn more about NECANN, visit <https://www.necann.com/2019-boston/>

On behalf of the Board,

**Future Farm Technologies Inc.**

William Gildea, CEO

## **About Future Farm Technologies Inc.**

Future Farm is a Canadian company with holdings throughout North America including California, Massachusetts, Florida, Maine, Puerto Rico and Newfoundland. The Company's mission is to advance sustainable agriculture through production of wholesale and retail cannabis products, including hemp. As a leader in its field, Future Farm is committed to using only the highest quality processes and products. Towards this goal, the Company acquires or partners with licensed cannabis operators, and acquires or develops leading technologies in cannabis production, breeding, genetics, and Controlled Environment Agriculture (CEA). Future Farm's scalable, indoor CEA systems utilize minimal land, water and energy resources. The Company holds an exclusive, worldwide license to use a patented vertical farming technology that, when compared to traditional plant production methods, generates yields up to 10 times greater per square foot of land.
