Report on Business

1. Provide a general overview and discussion of the development of the Issuer's business and operations over the previous month. Where the Issuer was inactive disclose this fact.

The Company is currently listed as a Life Sciences issuer. Heritage was created as a holding company, designed to acquire, in whole or in part, various cannabis related companies or projects. The Company has a mineral exploration property in Quebec, Canada.
2. Provide a general overview and discussion of the activities of management.

During the preceding month, management primarily focused on the evaluation of projects and on general administrative issues.

The Company completed the Change of Business as previously announced July 5, 2017 and August 18, 2017. Trading in the Company's common shares resumed January 10, 2018 having met all of the applicable CSE requirements.

The Company holds a 75% interest in PhyeinMed Inc. (“PhyeinMed”), PhyeinMed is a late stage applicant under the ACMPR, and has completed Phase 1 of a multiphase construction project, targeting up to 420,000 sq ft of cannabis grow space in Falkland, BC.

On March 15, 2018 PhyeinMed Inc. (“PhyeinMed”) has received from Health Canada a Confirmation of Readiness (“COR”) for a Licence under the Access to Cannabis for Medical Purposes Regulations (“ACMPR”). Further to receiving the COR and as Phase 1 of construction of PhyeinMed’s Falkland, BC facility nears completion, the team is now preparing the extensive Evidence Package which is necessary to obtain a Production Licence under section 35 of the ACMPR. This package will include documentation, detailed photos and video, facility design packages, and the ability to demonstrate product storage, security, monitoring of access and record keeping.

PhyeinMed’s Phase 2 construction has begun and contractor focus will fully shift to this 41,400 sq ft facility immediately, which has a targeted completion date of summer 2018. Once fully constructed, PhyeinMed will create 40-50 full and part time jobs in the Falkland, BC area.

PhyeinMed anticipates it will complete its final submission for a licence to produce cannabis following Phase 1 completion, and immediately after obtaining licence for the current site in Falkland, British Columbia, will apply for a second site for the property located in Ontario herein referred to as the Clearview cannabis facility.

The Company has made an accepted offer to acquire approximately 100 acres of agriculturally zoned land in Clearview Township, near Collingwood, Ontario. The agreement to acquire the property was made by 1005477 BC Ltd., a wholly owned subsidiary of Heritage, which also owns 75% of PhyeinMed. Terms of the purchase include a total purchase price of \$1.3 million with a targeted closing of June 30, 2018. The offer includes many subjects to the benefit of the buyer, including the award of a Licence to Produce Cannabis. The company has paid a deposit of 10% of the purchase price, with the remainder due at closing being paid by cash on hand. Approval of the second site and licence permitting, construction is scheduled to begin in early 2019, with additional expansion to continue as demand grows.

Clearview is zoned agriculture and is approved for the cultivation of cannabis. There are approximately 85 acres of flat usable land suited for both indoor and outdoor cultivation. PhyeinMed Inc. (“PhyeinMed”), a Health Canada late stage applicant under the ACMPR (Access to Cannabis for Medical Purposes Regulations), has a long-term growth strategy, separated into multiple phases, ultimately culminating in an operation with growing capacity of 3,000,000 square feet, capable of producing in excess of 300,000 kilograms of cannabis per year. The Company is anticipating a large demand for edibles and consumables, whether in candy or infused products, on legalization of this new market. Since the product needed for this market has different characteristics than the current planned cannabis flower products the Company is looking to produce, it will be targeting a combination of indoor and outdoor growth in an effort to be a low-cost producer.

The Company has established an Advisory Board. Joining the new board are Michele Cadario, Bob Simmonds and Debra Senger.

No definitive decision has been made yet in respect of the Company’s mineral exploration project in Quebec.
